Anterior Rehabilitation Abhinav Gupta, 2018-05-10 Esthetics is the prime concern in today's dental care both for the patient and the treatment provider. Esthetic dentistry is just not limited to color matching restorations but soft tissue considerations like position of the lips, color and contour of gingiva around teeth also play a very important role in overall esthetic appearance of face. Providing an esthetic restoration in the anterior region of the mouth has been the basis of periodontal esthetics. Periodontal plastic surgeries in its broad term covers various procedures either around natural teeth or dental implant fixtures in the esthetic zone. This may range from crown lengthening procedures, coverage of denuded root surfaces, ridge augmentation, periodontal prosthetic corrections and cosmetic surgical corrections around dental implants. Prosthetics also plays an equal important role in implant esthetics. Various prosthetic parameters like 3D implant placement, implant abutment interface, provisionalisation during interim period, choice of abutment material, digital dentistry etc are important factors at the pinnacle of successful outcome. This book is a comprehensive overview of clinical techniques related to Periodontal esthetics and Implant Esthetics.

*Soft Computing for Problem Solving* Kusum Deep, Millie Pant, Atulya K. Nagar, 2025-09-26 This proceedings volume presents 41 high quality research contributions at the forefront of soft computing theory and applications and real world impact. The third volume from this conference, its chapters reflect the current trajectory of soft computing research covering advances in machine learning, neural networks, fuzzy systems, nature inspired algorithms and big data analytics. Applications discussed range across critical domains such as healthcare, education, legal systems, cybersecurity, environmental monitoring and industrial automation. Noteworthy contributions include studies on smart assistive devices for Alzheimer's patients, intelligent classification of recycled materials and AI-based criminal face detection systems. On the theoretical side, the volume includes novel algorithmic developments such as the Shuffled Flamingo Search Algorithm and structural insights into swarm-based optimisation. The volume illustrates how soft computing continues to address complex real world problems through adaptive, scalable and human-centric approaches. It also captures the spirit of interdisciplinary engagement with contributions from early career researchers alongside seasoned academics enriching the community's collaborative potential. This book will be of interest to researchers, engineers, practitioners and postgraduate students working in artificial intelligence, optimisation and computational intelligence, particularly those interested in the translational impact of soft computing across diverse sectors.

**Comprehensive Esthetic Dentistry** Florin Lăzărescu, 2019-09-16 Nothing can replace the sense of professional fulfillment and personal reward that comes from

successfully restoring a patient's smile. This book, which serves as a complete primer on esthetic dentistry, is aimed at that precise reward. Informed by the latest scientific research and clinical evidence, the authors provide readers with keen insight into the artistic aspects essential to achieving a truly esthetic outcome. Preliminary chapters cover esthetic analysis, effective treatment planning, use of digital dental photography, and the importance of interdisciplinary collaboration. Further chapters outline effective treatment protocols, including the principles of ultraconservative restoration, tooth whitening, anterior and posterior all-ceramic restorations, in-office CAD/CAM technology, implant placement, and soft tissue management in the esthetic zone, and the usage of minimally invasive procedures. This book, in its extensive knowledge and passionate voice, represents the union of function and beauty in dentistry and, in doing so, establishes itself as a comprehensive resource in the field of dental esthetics.
