A New Approach to Synchronicity Lance Storm, 2025-03-26 This book offers an up to date handling of C G Jung's Theory of Synchronicity and the more mainstream paranormal phenomena known as extra sensory perception ESP and psychokinesis PK collectively referred to as psi Author Lance Storm re works various aspects of synchronicity traditionally marginalized by parapsychologists to bring about a paradigm shift in the field Most often seen as fundamentally different the

Revelatory Events Ann Taves, 2016-11-08 A leading scholar sheds critical light on the seemingly revelatory events behind new religions and spiritual movements Unseen presences Apparitions Hearing voices Although some people would find such experiences to be distressing and seek clinical help others perceive them as transformative Occasionally these unusual phenomena give rise to new spiritual paths or religious movements Revelatory Events provides fresh insights into what is perhaps the bedrock of all religious belief the claim that otherworldly powers are active in human affairs Ann Taves looks at Mormonism Alcoholics Anonymous and A Course in Miracles three cases in which insiders claimed that a spiritual presence guided the emergence of a new spiritual path In the 1820s Joseph Smith Jr reportedly translated the Book of Mormon from ancient gold plates unearthed with the help of an angel Bill Wilson cofounded AA after having an ecstatic experience while hospitalized for alcoholism in 1934 Helen Schucman scribed the words of an inner voice that she attributed to Jesus which formed the basis of her 1976 best selling self study course In each case Taves argues the sense of a guiding presence emerged through a complex creative interaction between a founding figure with unusual mental abilities and an initial set of collaborators who were drawn into the process by diverse motives of their own A major work of scholarship this compelling and accessible book traces the very human processes behind such events

than 100 successful suicides it offers an intriguing look at what the dead themselves say about suicide its repercussions and their experiences in the afterlife Bringing together the channeled messages of three types of suicide traditional suicide assisted suicide and the suicide mass murder adopted by terrorists the book covers a wide range of topics including why people commit suicide what it is like to cross over adjustment problems what suicides would say to those left behind and what they would tell others thinking of taking their own lives Additionally the book conveys powerful messages from suicide bombers warning potential terrorists of the serious karmic consequences that await them For anyone contemplating suicide or euthanasia the book offers profound sometimes unsettling insight into the ramifications of these acts

The Origins of Psychic Phenomena Stan Gooch, 2007-02-07 Examines unexplained phenomena in psychiatric and psychological terms rather than occult terms Explores how the unconscious mind manifests paranormal phenomena Shows how the cerebellum the seat of the unconscious is the source of these energies subpersonalities and manifestations Identifies our neglected Neanderthal subconscious as responsible for the rising incidence of paranormal happenings Alien abduction poltergeist attacks incubi succubi split and multiple personalities possessions precognition spontaneous combustion the list of phenomena not just unexplained but ignored by mainstream science seems endless Yet the key to the origin of all these manifestations lies deep within our own brains In *The Origins of Psychic Phenomena* Stan Gooch explores the functioning of the dream producing part of the brain the cerebellum and how the unconscious mind is able to externalize itself The cerebellum is the physical seat of the unconscious and was once equal to or even superior to the cerebrum as essential to our functioning In modern times it has been shunted into the subliminal yet the cerebellum continues to process our worldly experiences and reveals its concerns in misunderstood often frightening manifestations Gooch explains that Neanderthal Man possessed a much larger cerebellum than Cro Magnon Man and posits that the modern repression of the cerebellum's role in our consciousness has given rise to these supernatural phenomena
