Encounter With An Angry God Recollections Of My Life With John Peabody Harrington:

Encounter with an Angry God Carobeth Laird, 1977 *The Heart of California* Aaron Gilbreath, 2020-11 2022 Oregon Book Award Finalist A vivid journey through California's vast rural interior The Heart of California weaves the story of historian Frank Latta's forgotten 1938 boat trip from Bakersfield to San Francisco with Aaron Gilbreath's trip retracing Latta's route by car during the 2014 drought Latta embarked on his journey to publicize the need for dams and levees to improve flood control Gilbreath made his own trip to profile Latta and the productive agricultural world that damming has created in the San Joaquin Valley to describe the region's nearly lost indigenous culture and ecosystems and to bring this complex yet largely ignored landscape to life The Valley is home to some of California's fastest growing cities and by some estimates produces 25 percent of America's food The Valley feeds too many people and is too unique to be ignored To understand California you have to understand the Valley Mixing travel writing historical recreations western history natural history and first person reportage The Heart of California is a road trip narrative about this fascinating region and its most important early documentarian **An Overview of the Cultural Resources of the Western Mojave Desert** Edwin Gary Stickel, Lois W. Roberts, 1980 *Women and the Conquest of California, 1542-1840* Virginia M. Bouvier, 2004-08 Studies of the Spanish conquest in the Americas traditionally have explained European Indian encounters in terms of such factors as geography timing and the charisma of individual conquistadores Yet by reconsidering this history from the perspective of gender roles and relations we see that gender ideology was a key ingredient in the glue that held the conquest together and in turn shaped indigenous behavior toward the conquerors This book tells the hidden story of women during the missionization of California It shows what it was like for women to live and work on that frontier and how race religion age and ethnicity shaped female experiences It explores the suppression of women's experiences and cultural resistance to domination and reveals the many codes of silence regarding the use of force at the missions the treatment of women indigenous ceremonies sexuality and dreams Virginia Bouvier has combed a vast array of sources including mission records journals of explorers and missionaries novels of chivalry and oral histories and has discovered that female participation in the colonization of California was greater and earlier than most historians have recognized Viewing the conquest through the prism of gender Bouvier gives new meaning to the settling of new lands and attempts to convert indigenous peoples By analyzing the participation of women both Hispanic and Indian in the maintenance of or resistance to the mission system Bouvier restores them to the narrative of the conquest colonization and evangelization of California And by bringing these voices into the chorus of history she creates new harmonies and dissonances that alter and enhance our understanding of both the experience and meaning of conquest **Women in the History of Linguistics** Wendy Ayres-Bennett, Helena Sanson, 2020-12-31 Women in the History of Linguistics is a ground breaking investigation into women's contribution to the description analysis and codification of languages across a wide range of different linguistic and cultural traditions Notably the volume looks beyond Europe to

Africa Australia Asia and North America offering a systematic and comparative approach to a subject that has not yet received the scholarly attention it deserves In view of women s often limited educational opportunities in the past their impact is examined not only within traditional and institutional contexts but also in more domestic and less public realms The chapters explore a variety of spheres of activity including the production of grammars dictionaries philological studies critical editions and notes and reflections on the nature of language and writing systems as well as women s contribution to the documentation and maintenance of indigenous languages language teaching and acquisition methods language debates and language use and policy Attitudes towards women s language both positive and negative that regularly shape linguistic description and analysis are explored alongside metalinguistic texts specifically addressed to them as readers Women in the History of Linguistics is intended for all scholars and students interested in the history of linguistics women s studies social and cultural history and the intersection between language and gender
