Encounter With The Text Form And History In The Hebrew Bible:

Encounter with the Text Martin J. Buss, 1979 In this volume eleven biblical scholars explore the basic methodological issues central to the paradigm shift in biblical hermeneutics Together they show how traditional approaches to form and history in the Old Testament are being modified and supplemented by such fields as literary criticism and the social sciences The contributors are Martin J Buss Hugh C White Norman K Gottwald John T Willis Roy F Melugin Wolfgang M W Roth John G Gammie Dale Patrick Stephen Breck Reid Christine Garside Allen and Ann M Vater From History to Narrative Hermeneutics Han Young Lee, 2004 During the past century biblical hermeneutics experienced dramatic changes in theory and practice reflecting epistemological adjustments and paradigm shifts involving a progress in theoretical problems and methodological procedures to address basic scholarly issues In order to investigate the nature and significance of such shifts and respective theoretical problems *From History to Narrative Hermeneutics* undertakes an analytical critical and epistemological evaluation of three major methodological movements namely the empirical positivistic the literary structural and the narrative approaches Han Young Lee has constructed a holistic interpretative approach that attempts to honor the intrinsic inner revelational structure of the biblical texts **Biblical Exegesis, Fourth Edition** John H. Hayes, Carl R. Holladay, 2022-10-04 This is a beginner's guide to biblical exegesis providing exegetical methods practices and theories This book provides simple helpful information and guidance about doing exegesis without being overly prescriptive succinctly introduces students to various methods provides basic bibliographies that take students beyond an introductory discussion and emphasizes exegesis as an everyday activity based on commonsense principles rather than as an esoteric enterprise This revised edition of this perennially best selling textbook includes discussions of emerging methods of interpretation aimed at a contemporary audience Several chapters have been updated and improved and readers will find an incisive new chapter on exegesis with a focus on identity and advocacy Holladay has also written a new concluding chapter on exegesis as the art of seeing Bibliographies are updated and a helpful glossary is included in this new edition *Reading the Wife/Sister Narratives in Genesis* Hwagu Kang, 2018-10-31 The book of Genesis introduces three similar wife sister narratives commonly thought to be originating from different sources because of their repetitive entries This research explores the wife sister narratives in Genesis Gen 12 10 13 1 20 1 18 and 26 1 11 and it aims to provide an understanding of the three stories as a whole by uncovering its context by textlinguistic and literary type scene analysis Textlinguistic analysis helps us to see how each wife sister narrative functions in its context while type scene analysis emphasizes how the three narratives develop and contribute to the patriarchal narratives through their similarities and variations Although the traditional type scene analysis studies recurrent fixed motives in texts this study focuses much more on literary aspects such as characterization theme and plot Through this study the three wife sister stories will elaborate that the patriarchal narratives are not results of different authors but the well developed products of a single author The three wife sister stories work together to highlight God's

faithfulness to his promises Gen 12 1 3 Narrativity in Biblical and Related Texts George J. Brooke, Jean-Daniel Kaestli, 2000 Seventeen innovative studies are collected in this volume which has been produced under the aegis of the Centre for Biblical Studies University of Manchester and L Institut des sciences bibliques Universite de Lausanne The majority of the studies engage with narrative through providing insightful working examples Building on the many contributions of recent narratological research for the most part the studies in this collection avoid the technical language of narratology as they present fresh insights at many levels Some essays focus more on the implied author some on the implied reader or hearer and some on the way particular messages are constructed some of the studies consider how author message and reader are all interconnected There are several creative proposals for refining genre definition from law and wisdom to gospel and apocryphal writings Some studies highlight the way in which narratives can contain ethical religious and cultural messages Sensitivity to narrative is also shown by some contributors to expose in intriguing ways the redactional processes behind the final form of texts Students of narrative in the ancient world will find much to consider in this book and others engaged with literary studies more generally will discover that scholars of the worlds of the Bible and Late Antiquity have much to offer them Rhetorical Criticism of the Bible Watson, Alan J. Hauser, 2022-02-28 This volume is designed as a resource for using rhetorical criticism as a methodology for interpreting the Bible Rhetorical criticism is treated in the broader context of the growing interest in the study of the literary character of the Bible The volume is divided into two parts to accommodate both the Old and New Testaments Each part begins with a discussion of the history and methodology of rhetorical criticism pertinent to that Testament Here special emphasis is given to the current state and trends of the discipline and its impact on biblical interpretation These discussions are followed by extensive bibliographies categorized to facilitate working with the published research on specific biblical texts books or categories of books Ancient Israelite And Early Jewish Literature Th. Theodoor Christiaan Vriezen, Adam Simon van der Woude, 2005 This introduction to the Old Testament Hebrew Bible offers a literary and historical critical approach containing some religious historical or theological explanations where appropriate **Construction of Gender and Identity in Genesis** Karalina Matskevich, 2019-01-24 Karalina Matskevich examines the structures that map out the construction of gendered and national identities in Genesis 2 3 and 12 36 Matskevich shows how the dominant Subject the androcentric ha adam and the ethnocentric Israel is perceived in relation to and over against the Other represented respectively as female and foreign Using the tools of narratology semiotics and psychoanalysis Matskevich highlights the contradiction inherent in the project of dominance through which the Subject seeks to suppress the transforming power of difference it relies on for its signification Thus in Genesis 2 3 ha adam can only emerge as a complex Subject in possession of knowledge with the help of woman the transforming Other to whom the narrator and Yahweh attributes both the agency and the blame Similarly the narratives of Genesis 12 36 show a conflicted attitude to places of alterity Egypt the fertile and seductive space that threatens annihilation and Haran the mother's land a

complex metaphor for the feminine The construction of identity in these narratives largely relies on the symbolic fecundity of the Other

Murder and Difference Mieke Bal, 1988-02-22 an important contribution to current literary concerns with the ideologies of texts Society of Old Testament Study Book List she points the way into as yet little explored territory broadly engaging literary theory as well as ideological criticism she moves beyond both narrowly historical and exclusively text centered criticism Theology Today Bal has given us both a coruscating feminist critique of biblical scholarship and a fund of provocative exegetical insights required reading for anyone who wants to know where serious biblical scholarship is heading

Shofar **Punishment and Forgiveness in Israel's Migratory Campaign** Won W. Lee, 2003 Through an exegetical examination of the disparate materials of the book of Numbers 10 11 36 13 dealing with Israel's failure to conquer the Promised Land Lee Old Testament studies Calvin College finds a structural integrity and conceptual coherence to the work that rests on understanding of Go

Jonah's Story, Our Challenge Karl Möller, 2023-02-28 Jonah's radical and enigmatic nature calls for deeper exploration and engagement Given its brevity it is also an ideal text for multiple readings from a range of perspectives that complement build upon or challenge and critique each other In Jonah's Story Our Challenge each chapter brings a different hermeneutical tool to the text to demonstrate the wealth of fresh readings and new vistas which can open up and the rich resources for ministry which can come from these multiple readings

The Character of David in Judaism, Christianity and Islam, 2021-11-29 King David if one of the most central figures in all of the major monotheistic traditions He generally connotes the heroic past of the more imagined than real ancient Israelite empire and is associated with messianic hopes for the future Nevertheless his richly ambivalent and fascinating literary portrayal in the Hebrew Bible is one of the most complex of all biblical characters This volume aims at taking a new critical look at the process of biblical creation and subsequent exegetical transformation of the character of David and his attributed literary composition the Psalms with particular emphasis put on the multilateral fertilization and cross cultural interchanges among Jews Christians and Muslims

Judaism and the Doctrine of Creation Norbert M. Samuelson, 1994-11-24 The topic of this book is creation It breaks down into discussions of two distinct but interrelated questions what does the universe look like and what is its origin The opinions about creation considered by Norbert Samuelson come from the Hebrew scriptures Greek philosophy Jewish philosophy and contemporary physics His perspective is Jewish liberal and philosophical It is Jewish because the foundation of the discussion is biblical texts interpreted in the light of traditional rabbinic texts It is philosophical because the subject matter is important in both past and present philosophical texts and to Jewish philosophy in particular Finally it is liberal because the authorities consulted include heterodox as well as orthodox Jewish sources The ensuing discussion leads to original conclusions about a diversity of topics including the limits of human reason and religious faith and the relevance of scientific models to religious doctrine

The Nathan Narrative in 2 Samuel 7:1-17 William W. Watty, 2016-07-08 As with archaeology traditio historical research of Old Testament literature proceeds backwards from the received text travelling

through the earlier stages of compositions to the probable origins The canonical structure of the Hebrew Bible has therefore been taken as the point of departure in the traditional historical study of the Nathan Narrative in 2 Samuel 7 1 17 By progressing backwards from the Canonical Prophets the stages in the composition of the Joshua Kings corpus and of 2 Samuel 7 1 17 have been recovered through the application of redaction critical and literary critical methods A pre history of the Narrative has also been retraced in the traditions that were preserved in the oral stages in the typical forms and settings of transmission Notwithstanding the valuable insights that have accrued from Martin Noth's hypothesis of a Deuteronomistic History both the hypothesis itself and analyses deriving from it have failed to account satisfactorily for the place of 2 Samuel 7 1 17 in the Joshua Kings composition That failure is due to a methodological flaw of taking a non canonical configuration namely the Deuteronomy Kings corpus as the point of departure and the interpretative key This study tries to remedy that flaw

Day in Mamre, Night in Sodom Letellier, 2021-11-15 Recent developments in Pentateuchal studies from both diachronic historical and synchronic literary textual perspectives have made it possible to read Genesis 18 and 19 the evocative story of Abraham and Lot in a new light This work uses both types of approach to examine the text 1 considered in its own terms its structural and linguistic features in a detailed close reading of each verse and 2 considered in terms of its symbolism and imagery in relation to those found in comparable cultures of the ancient Middle East The end product is an integrated reading of the Abraham and Lot story as a sustained literary unit and the reading process demonstrates the value of a range of exegetical methods structuralist linguistic literary historical and anthropological in the continuing exploration of this well known biblical narrative

Isaiah 1-39 Marvin Alan Sweeney, 1996 1 Samuel is Volume VII of The Forms of the Old Testament Literature a series that aims to present a form critical analysis of every book and each unit in the Hebrew Bible Fundamentally exegetical the FOTL volumes examine the structure genre setting and intention of the biblical literature in question They also study the history behind the form critical discussion of the material attempt to bring consistency to the terminology for the genres and formulas of the biblical literature and expose the exegetical process so as to enable students and pastors to engage in their own analysis and interpretation of the Old Testament texts Antony Campbell's valuable form critical analysis of 1 Samuel highlights both the literary development of the text itself and its meanings for its audience A skilled student of the Hebrew scriptures and their ancient context Campbell shows modern readers the process of editing and reworking that shaped 1 Samuel's final form As Campbell's study reveals the tensions and contradictions that exist in the present text reflect a massive change in the way of life of ancient Israel Samuel the first prophet here emerges to preside over the rise of Saul Israel's first king to be the agent of Saul's rejection and to anoint David as Israel's next king and the first established head of a royal dynasty The book of 1 Samuel captures the work of God within this interplay of sociopolitical forces and Campbell fruitfully explores the text both as a repository of traditions of great significance for Israel and as a paradigm of Israel's use of narrative for theological expression

Theology of the Old Testament Walter Brueggemann, 2012-06-01. In this powerful book Walter Brueggemann moves the discussion of Old Testament theology beyond the dominant models of previous generations. Brueggemann focuses on the metaphor and imagery of the courtroom trial in order to regard the theological substance of the Old Testament as a series of claims asserted for Yahweh, the God of Israel. This provides a context that attends to pluralism in every dimension of the interpretive process and suggests links to the plurality of voices of our time.
