## **Encounters Between Judaism And Modern Philosophy A Preface To Future Jewish:**

Encounters Between Judaism and Modern Philosophy Emil L. Fackenheim, 1980 Investigates the assumptions of such philosophers as Kant Hegel Marx Heidegger and Sartre regarding Jewish existence **Judaism and Modern Western Philosophy: Collected Writings of Steven S. Schwarzschild** Steven S. Schwarzschild, 2025-02-08 What are the implications of Franz Rosenzweig's quasi racist commonalities with Heidegger's thought Was Kant a Jewish thinker Does Spinoza's philosophy lend support to totalitarianism Was Marx's philosophy more shaped by Jewish cultural tradition than is typically assumed Was there a strong challenge to Strauss's reading of Maimonides already in the 1940s This volume contains a collection of Steven S Schwarzschild's 1924-1989 most important unpublished works the majority of which were found in his literary remains The essays present provocative perspectives on influential philosophical figures such as Maimonides Spinoza Kant Hegel Marx Rosenzweig Heidegger and Leo Strauss As one of the most original twentieth century thinkers in the field of Jewish philosophy Schwarzschild's analysis provides readers with new ways of understanding modern Western philosophy Jewish religious tradition and the relation between them **Emil Fackenheim's Post-holocaust Thought** Kenneth Hart Green, Martin D. Yaffe, 2021-11-17 Recognized as one of the leading philosophers and Jewish thinkers of the twentieth century Emil Ludwig Fackenheim has been widely praised for his boldness originality and profundity As is well known a striking feature of Fackenheim's thought is his unwavering contention that the Holocaust brought about a radical shift in human history so monumental and unprecedented that nothing can ever be the same again Fackenheim regarded it as the specific duty of thinkers and scholars to assume responsibility to probe this historical event for its impact on the human future and to make its immense ramifications evident In Emil Fackenheim's Post Holocaust Thought and Its Philosophical Sources scholars consider important figures in the history of philosophy including Kant Hegel Heidegger and Strauss and trace how Fackenheim's philosophical confrontations with each of them shaped his overall thought This collection details which philosophers exercised the greatest influence on Fackenheim and how he diverged from them Incorporating widely varying approaches the contributors in the volume wrestle with this challenge historically politically and philosophically in order to illuminate the depths of Fackenheim's own thought History, Metahistory, and Evil Barbara Krawcowicz, 2021-01-26 Much post Holocaust Jewish thought published in North America has assumed that the Holocaust shattered traditional religious categories that had been used by Jews to account for historical catastrophes But most traditional Jewish thinkers during the war saw no such overwhelming of tradition in the death and suffering delivered to Jews by Nazis Through a comparative reading of postwar North American and wartime Orthodox Jewish texts about the Holocaust Barbara Krawcowicz shows that these sources differ in the paradigms modern and historicist for North American thinkers traditional and covenantal for Orthodox thinkers in which they emplot historical events **Reflections on Jean Améry** Vivaldi Jean-Marie, 2018-11-27 This book elaborates Jean Améry's critique of philosophy and his discussion of some central

philosophical themes in *At the Mind's Limits* and his other writings. It shows how Améry elaborates the shortcomings and unfitness of philosophical theories to account for torture, the experience of homelessness and other indignities and their inability to assist with overcoming resentment. It thus teases out the philosophical import of Jean Améry's critique of philosophy which constitutes his own philosophical testament of being an inmate at Auschwitz. This book situates *At the Mind's Limits* in the context of twentieth century Continental philosophy. On the one hand it elaborates Améry's engagement with key philosophical figures. On the other hand it shows how thoroughly Améry denounces the limits of the philosophical enterprise and its impotence in capturing and accounting for the crimes of the Third Reich. *Reason and Revelation before Historicism* Sharon Jo Portnoff, 2012-01-30 Can contemporary religion and particularly Judaism exist without being informed by history? This question was debated in 1940s New York by two German refugees who later rose to prominence: Leo Strauss, one of the twentieth century's most significant political philosophers, and Emil L. Fackenheim, an important post-Holocaust Jewish theologian. There has been little consensus, however, on the definitive meaning of their work. *Reason and Revelation before Historicism*, the first full-length comparison of Strauss and Fackenheim, places the informal teacher and student in conversation alongside sections of their analyses of notable thinkers. Sharon Portnoff suggests that both saw historicism as the nexus of the intersection and tension between philosophy and religion and raised the possibility of the persistence of the permanent in the modern world. Portnoff illuminates our understanding of Strauss's relationship with Judaism. Fackenheim's oft-overshadowed great philosophical depth and the function and character of Jewish thought in a secular post-Holocaust world. **Holocaust Literature: Agosin to Lentin** S. Lillian Kremer, 2003 Review This encyclopedia offers an authoritative and comprehensive survey of the important writers and works that form the literature about the Holocaust and its consequences. The collection is alphabetically arranged and consists of high quality biocritical essays on 309 writers who are first, second, and third generation survivors or important thinkers and spokespersons on the Holocaust. An essential literary reference work, this publication is an important addition to the genre and a solid value for public and academic libraries. The Top 20 Reference Titles of the Year American Libraries May 2004. *Long Night's Journey into Day* Alice L. Eckardt, A. Roy Eckardt, Irving Greenberg, Franklin H. Littell, 2016-11-08 *Long Night's Journey Into Day* is a stimulating and provocative attempt to deal with the impact and meaning of the Holocaust within contemporary Christian and Jewish thought. To Jews the Holocaust is the most terrible happening in their history, but it must also be seen as a Christian event. The Eckardts call for a radical rethinking of the Christian faith in the light of the Holocaust, examining such issues as the relation between human and demonic culpability, the charge of God's guilt, and the reality of forgiveness. They clarify the theological meaning of the Holocaust and the responsibility that must be borne for it by the Christian Church and discuss possible responses to it as exemplified in the writings of selected modern theologians and church councils. This enlarged and revised edition takes into account new topics and developments, including the issue of Austrian responsibility for the Holocaust, the significance and

aftermath of Bitburg and antisemitism in German feminism More detailed attention is also given to other modern genocides and occasions of humanly caused mass death Additional literary historical and religious works are considered and appropriate quotations incorporated The new edition also includes a revised preface an updated bibliography and two new appendices

**The Rise of Eurocentrism** Vassilis Lambropoulos, 2019-10-08 In the controversy over political correctness the canon and the curriculum the role of Western tradition in a post modern world is often debated To clarify what is at stake Vassilis Lambropoulos traces the ideology of European culture from the Reformation focusing on a key element of Western tradition the act of interpretation as a distinct practice of understanding and a civil right Championed by Protestants insisting on independent interpretation of scripture this ideal of autonomy ushered in the era of modernity with its essentialist philosophy of universal man and his aesthetic understanding of the world After explaining the dominance of European culture through the combined archetypes of Hebraism reason and morality and Hellenism spirit and art Lambropoulos shows how the rule of autonomy has been transformed into the aesthetic disinterested contemplation of things in themselves Arguing that it is time to restore the socio political dimension to the movement of autonomy he proposes that a genealogy of the Hebraic Hellenic archetypes can help us evaluate more recent models like the Afrocentric one and redefine the controversy surrounding education Eurocentrism and cultural politics

**Heidegger and Kabbalah** Elliot R. Wolfson, 2019-10-01 While many scholars have noted Martin Heidegger s indebtedness to Christian mystical sources as well as his affinity with Taoism and Buddhism Elliot R Wolfson expands connections between Heidegger s thought and kabbalistic material By arguing that the Jewish esoteric tradition impacted Heidegger Wolfson presents an alternative way of understanding the history of Western philosophy Wolfson s comparison between Heidegger and kabbalah sheds light on key concepts such as hermeneutics temporality language and being and nothingness while yielding surprising reflections on their common philosophical ground Given Heidegger s involvement with National Socialism and his use of antisemitic language these innovative readings are all the more remarkable for their juxtaposition of incongruent fields of

discourse Wolfson's entanglement with Heidegger and kabbalah not only enhances understandings of both but more profoundly serves as an ethical corrective to their respective ethnocentrism and essentialism Wolfson masterfully illustrates the redemptive capacity of thought to illuminate common ground in seemingly disparate philosophical traditions

**Key Texts in American Jewish Culture** Jack Kugelmass, 2003 Key Texts in American Jewish Culture expands the frame of reference used by students of culture and history both by widening the canon of Jewish texts and by providing a way to extrapolate new meanings from well known sources Contributors come from a variety of disciplines including American studies anthropology comparative literature history music religious studies and women's studies Each provides an analysis of a specific text in art music television literature homily liturgy or history Some of the works discussed such as Philip Roth's novel Counterlife the musical Fiddler on the Roof and Irving Howe's World of Our Fathers are already widely acknowledged components of the American Jewish studies canon Others such as Bridget Loves Bernie infamous for the hostile reception it received among American Jews may be considered key texts because of the controversy they provoked Still others such as Joshua Liebman's Piece of Mind and the radio and TV sitcom The Goldbergs demonstrate the extent to which American Jewish culture and mainstream American culture intermingle with and borrow from each other

**Derrida and the Future of Literature** Joseph G. Kronick, 1999-09-30 Confirms the importance of literature in Derrida's development of a postmodern ethics

The Philosopher as Witness Michael L. Morgan, Benjamin Pollock, 2009-01-01 Emil Fackenheim 1916-2003 one of the most important Jewish philosophers of the twentieth century called on the world at large not only to bear witness to the Holocaust as an unprecedented assault on Judaism and on humanity but also to recognize that the question of what it means to philosophize indeed what it means to be human must be raised anew in its wake The Philosopher as Witness begins with two recent essays written by Fackenheim himself and includes responses to the questions that Fackenheim posed to philosophy Judaism and humanity after the Holocaust The contributors to this book dare to extend that questioning through a critical examination of Fackenheim's own thought and through an exploration of some of the ramifications of his work for fields of study and realms of religious life that transcend his own

**The Fence and the Neighbor** Adam Zachary Newton, 2012-02-01 The Fence and the Neighbor traces the contours of two thinkers Emmanuel Levinas and Yeshayahu Leibowitz who crossed the divide between Talmud and philosophy proper Adam Zachary Newton shows how the question of nationalism that has so long haunted Western philosophy the question of who belongs within its fence and who outside has long been the concern of Jewish thought and its preoccupation with law limits and the place of Israel among the nations To those unfamiliar with Talmudic thought Newton shows how deeply its language and concerns shape Levinas He also offers an introduction to Leibowitz a conservative religious thinker who was an outspoken gadfly and radically critical voice in the Israeli political scene Together their common origin in Jewish Eastern Europe a common concern with national allegiance and the common fence of religious Judaism that makes them intellectual neighbors are voiced in penetrating and original

dialogue     *Confronting Genocide* Steven L. Jacobs, 2009-01-01 *Confronting Genocide* Judaism Christianity Islam is the first collection of essays by recognized scholars primarily in the field of religious studies to address this timely topic In addition to theoretical thinking about both religion and genocide and the relationship between the two these authors look at the tragedies of the Holocaust the Armenian Genocide Rwanda Bosnia and the Sudan from their own unique vantage point In so doing they supply a much needed additional contribution to the ongoing conversations proffered by historians political scientists sociologists psychologists and legal scholars regarding prevention intervention and punishment Book jacket

*Writers Directory* NA NA, 2016-03-05     **Hegel's Interpretation of the Religions of the World** Jon

Stewart, 2018-09-12 In his *Lectures on the Philosophy of Religion* Hegel treats the religions of the world under the rubric the determinate religion This is a part of his corpus that has traditionally been neglected since scholars have struggled to understand what philosophical work it is supposed to do In *Hegel's Interpretation of the Religions of the World* Jon Stewart argues that Hegel's rich analyses of Buddhism Hinduism Zoroastrianism Judaism Egyptian and Greek polytheism and the Roman religion are not simply irrelevant historical material as is often thought Instead they play a central role in Hegel's argument for what he regards as the truth of Christianity Hegel believes that the different conceptions of the gods in the world religions are reflections of individual peoples at specific periods in history These conceptions might at first glance appear random and chaotic but there is Hegel claims a discernible logic in them Simultaneously a theory of mythology history and philosophical anthropology Hegel's account of the world religions goes far beyond the field of philosophy of religion The controversial issues surrounding his treatment of the non European religions are still very much with us today and make his account of religion an issue of continued topicality in the academic landscape of the twenty first century

**Reading Heidegger's Black Notebooks 1931-1941** Ingo Farin, Jeff Malpas, 2018-02-09 Heidegger scholars consider the philosopher's recently published notebooks including the issues of Heidegger's Nazism and anti-Semitism For more than forty years the philosopher Martin Heidegger logged ideas and opinions in a series of notebooks known as the Black Notebooks after the black oilcloth booklets into which he first transcribed his thoughts In 2014 the notebooks from 1931 to 1941 were published sparking immediate controversy It has long been acknowledged that Heidegger was an enthusiastic supporter of the Nazi Party in the early 1930s But the notebooks contain a number of anti-Semitic passages often referring to the stereotype of World Jewry written even after Heidegger became disenchanted with the Nazis themselves Reactions from the scholarly community have ranged from dismissal of the significance of these passages to claims that the anti-Semitism in them contaminates all of Heidegger's work This volume offers the first collection of responses by Heidegger scholars to the publication of the notebooks In essays commissioned especially for the book the contributors offer a wide range of views addressing not only the issues of anti-Semitism and Nazism but also the broader questions that the notebooks raise Contributors Babette Babich Andrew Bowie Steven Crowell Fred Dallmayr Donatella Di Cesare Michael Fagenblat Ingo Farin
