Encounters With Strangers:

Strange Encounters Sara Ahmed, 2013-02-01 Examining the relationship between strangers embodiment and community Strange Encounters challenges the assumptions that the stranger is simply anybody we do not recognize and instead proposes that he or she is socially constructed as somebody we already know Using feminist and postcolonial theory this book examines the impact of multiculturalism and globalization on embodiment and community whilst considering the ethical and political implication of its critique for post colonial feminism A diverse range of texts are analyzed which produce the figure of the stranger showing that it has alternatively been expelled as the origin of danger such as in neighbourhood watch or celebrated as the origin of difference as in multiculturalism The author argues that both of these standpoints are problematic as they involve stranger fetishism they assume that the stranger has a life of its own Shared Encounters

Katharine S. Willis, George Roussos, Konstantinos Chorianopoulos, Mirjam Struppek, 2009-11-28 Every day we share encounters with others as we inhabit the space around us In offering insights and knowledge on this increasingly important topic this book introduces a range of empirical and theoretical approaches to the study of shared encounters It highlights the multifaceted nature of collective experience and provides a deeper understanding of the nature and value of shared encounters in everyday life Divided into four sections each section comprises a set of chapters on a different topic and is introduced by a key author in the field who provides an overview of the content The book itself is introduced by Paul Dourish who sets the theme of shared encounters in the context of technological and social change over the last fifteen years The four sections that follow consider the characteristics of shared encounters and describe how they can be supported in different settings the first section introduced by Barry Brown looks at shared experiences George Roussos in the second section presents playful encounters Malcolm McCulloch introduces the section on spatial settings and last but not least Elizabeth Churchill previews the topic of social glue The individual chapters that accompany each part offer particular perspectives on the main topic and provide detailed insights from the author's own research background A valuable reference for anyone designing ubiquitous media mobile social software and LBS applications this volume will also be useful to researchers students and practitioners in fields ranging from computer science to urban studies **Acquaintances: The Space**

Between Intimates And Strangers Morgan, David, 2009-09-01 As society becomes more and more fragmented we are building more complex networks of second level associations Although these are important social networks they all remain relatively impersonal and non permanent This book looks at such non intimate interpersonal relationships such as neighbours and work colleagues Stories of the Stranger Martin Palmer, Gordon Brown, 2014-10-01 Encompassing scriptural historical folk and newly commissioned tales a collection exploring the centrality of the stranger in every major faith tradition a commonality that could create a more compassionate world Every faith has as a fundamental moment of its formation the experience of exile the experience of losing everything or being thrown out of being dispossessed and of relying on the

generosity or not of strangers Furthermore every major faith tradition has popular stories showing how you are more likely to meet the divine in the outcast the reject the beggar than you are in the king the prince or indeed minister priest or nun Faiths are therefore often the first to welcome and help refugees Classic tales on this theme have been retold here from a contemporary perspective with humor and wit Sitting alongside powerful illustrations the tales serve to remind readers of the centrality of the stranger in all traditions thereby creating the potential for a more compassionate world This collection is a resource for reflection ideal for storytelling groups for drama art and poetry and a unique educational tool as well **The Hungry Road** Pasquale De Marco, 2025-07-07 The Great Depression was a time of immense hardship for the American people The stock market crash of 1929 sent the economy into a tailspin and millions of Americans lost their jobs homes and savings The Dust Bowl a severe drought that ravaged the Great Plains during the 1930s made matters even worse Farmers were forced to abandon their land and families were left destitute The Hungry Road tells the human side of the Dust Bowl and the Great Depression It is a collection of stories from people who lived through these events and experienced firsthand the devastation they caused These stories are both heartbreaking and inspiring and they provide a glimpse into the resilience and determination of the American people The Hungry Road explores the causes and consequences of the Dust Bowl and the Great Depression It examines the impact of these events on families communities and the nation as a whole It also examines the government's response to the crisis and the long term effects of the Depression on American society The Hungry Road is a powerful reminder of the importance of empathy compassion and social justice It is a book that continues to resonate with readers today as its themes are sadly still relevant in the 21st century This book is a must read for anyone who wants to understand the human side of the Dust Bowl and the Great Depression It is a powerful reminder of the resilience of the American people and the importance of fighting for social justice If you like this book write a review on google books

Fourth Places Patricia Aelbrecht,2022-08-26 This book challenges current views that public life is in decline and that contemporary urban design trends reliant on privatisation control events and thematic designs are to be blamed Drawing on detailed and extensive analysis of a case study that illustrates well such urban design trends it shows that informal social life and interaction occur more than its necessary in new master planned environments and new designed public settings whether public or private owned and or managed Furthermore it reveals the existence of a new category of informal public social settings which it calls fourth places because of their close relationship to Oldenburg s third places in terms of social and behavioural characteristics radical departure from the routines of home and work inclusivity and social comfort but distinct in terms of activities locations and spatial conditions being characterised by spatial temporal and managerial in betweenness i e indeterminacy in form function and times and a great sense of publicness The acceptance of these findings problematises well established urban design theories about master planning expands existing social theories about the optimal conditions for public social life by empirically and spatially elaborating on them and redefines several spatial concepts for designing public space in relation to the specific dynamics of informal social interaction More importantly it brings optimism to urban design practice offering new insights into designing more lively and inclusive public spaces

Theories of the Stranger Vince Marotta,2016-09-13 In our global multicultural world how we understand and relate to those who are different from us has become central to the politics of immigration in western societies Who we are and how we perceive ourselves is closely associated with those who are different and strange This book explores the pivotal role played by the stranger in social theory examining the different conceptualisations of the stranger found in the social sciences and shedding light on the ways in which these discourses can contribute to an analysis of cross cultural interaction and cultural hybridity Engaging with the work of Simmel Park and Bauman and arguing for the need for greater theoretical clarity Theories of the Stranger connects conceptual questions with debates surrounding identity politics multiculturalism online ethnicities and cross cultural dialogue As such this rigorous conceptual re examination of the stranger will appeal to scholars across the social sciences

Exploring Animal Encounters Dominik Ohrem, Matthew Calarco, 2018-07-28 This collection of essays offers multifaceted explorations of animal encounters in a range of philosophical cultural literary and historical contexts Exploring Animal Encounters encourages us to think about the richness and complexity of animal lives and human animal relations foregrounding the intricate roles nonhuman creatures play in the always already more than human sphere of ethics and politics In this way the essays in this volume can be understood as a contribution to alternative imaginings of interspecies coexistence in a time in which the issue of human relations with earth and earth others has come to the fore with unprecedented force and severity

The Holy Intimacy of Strangers Sarah York, 2002-11-08 In *The Holy Intimacy of Strangers* Sarah York explores our common yearning for deeper and more meaningful connection with one another The book presents the paradox we often observe how our seemingly casual interactions with strangers can unlock the door to our hearts and help us discover how we need and yet often resist true intimacy in our relationships This provocative book gives us a new way to look at the qualities of our exchanges with strangers Once we begin this journey we can trace the outlines of our lives together in community our expressions of caring and hospitality the costs of prejudice and judgment our fears and defensiveness the tension between being inclusive or exclusive our expectations and assumptions about one another

Encounters John C. Kennedy, 2015-05-01 Part anthropological history part informed critique *Encounters* examines the relations between the people of southeastern Labrador and the many visitors who have come to fish heal the sick and extract the region's resources John Kennedy presents the latest archaeological genealogical and ethno historical research that changes scholarly understandings of southeastern Labrador Departing from the conventional view that coastal Labrador has distinct Inuit and non Inuit regions he argues that the coast should be viewed as a continuum of Inuitness *Encounters* unravels the social implications of the region's complex mercantile fishery describes how twentieth century military and resource development have impacted Labrador's seasonal economy and suggests that Newfoundland continues to use Labrador as a colony Kennedy uses field research he conducted in 2013 to describe the origins current economies and future challenges of the region's tiny villages Although he is a strong supporter of Aboriginal land claims Kennedy explores the impact of identity politics in the region showing how land claims based solely on geography can unintentionally create inequities Drawing on decades of field and archival research Kennedy demonstrates how Aboriginal politics are transforming society in southeastern Labrador empowering local people to overcome the stigmas of history and finally acknowledge their Inuit ancestry

Critical Encounters with Texts Margaret Himley, Anne Fitzsimmons, 2005

Reforming the Welfare State Herbert Giersch, 2012-12-06 This book is the sequel to *Fighting Europe's Unemployment* in the 1990s the collection of papers presented at the Salzburg Symposium of the Egon Sohmen Foundation in 1994 Though the problem of unemployment was urgent already then it has not found a practical solution in the meantime and even

intellectually it remains somewhat of a mystery A clue is offered by the contrast with the United States they have the working poor we on the old continent have the welfare recipients This brings the relationship between unemployment and the welfare state to the fore On closer inspection however the matter appears to be much more complicated than the transatlantic contrast suggests Consider only that the welfare state and what is called social policy have a long tradition in Europe They obviously did not prevent or noticeably hamper the decline in unemployment in the 1950s and the emergence of full employment in the 1960s This leaves room for various conjectures Does the welfare state matter only after a long time lag or after it has grown too fast or too much beyond a critical size Is it the welfare state per se that is harmful to employment or do its harmful effects arise only under certain conditions e g

Phenomenologies of the Stranger Richard Kearney, Kascha Semonovitch, 2011 What is strange Or better who is strange When do we encounter the strange This volume takes the question of hosting the Stranger to the deeper level of embodied imagination and the senses It asks How does the embodied imagination relate to the Stranger in terms of hospitality or hostility given the common root of hostis as both host and enemy How do humans sense the dimension of the strange and alien in different religions arts and cultures How do the five physical senses relate to the spiritual senses especially the famous sixth sense as portals to an encounter with the Other Is there a carnal perception of alterity which would operate at an affective prereflective preconscious level What exactly do embodied imaginaries of hospitality and hostility entail And what finally are the topical implications of these questions for an ethics and practice of tolerance and peace

The (Dis)Order of U.S. Schooling Eric Ferris, 2023-06-01 This book critically interrogates the function of schooling in the United States of America using the writings of sociologist Zygmunt Bauman Asking whether the function is to produce citizens workers a combination of the two or something altogether different it argues that the designs of schooling are part of a carefully crafted ordering illustrated via an analysis of the ways in which schooling introduces students to various forms of coercion and seduction that socialize students in particular ways ways that support an order By engaging with the prolific and insightful works of one of the most prominent social thinkers of the 21st century this book considers schooling and its contributions to order Be they solid or liquid modern ordering mechanisms ordering through repression and seduction or supporting ordering through the creation of boundaries separating an orderly inside from its disorderly outside schools imperfectly support the construction of order and in doing so privilege some representations and individuals over others To order is to harness ambivalence and steer it in directions that privilege the in group at the expense of the out group and schools from the curriculum they teach to the values and ideas they promote are desirable captive marketplaces instrumental in steering this ambivalence The author ultimately suggests that the function of schools whether recognized or not are not so much to educate students to be free thinkers but rather to be orderly cogs in a particular functional social machine As such the book will be of interest to faculty scholars and postgraduate level students with interests in the sociology of education schooling sociology and social theory
