Reclaiming the Black Past Pero G. Dagbovie, 2018-11-13 The past and future of Black history In this information overloaded twenty first century it seems impossible to fully discern or explain how we know about the past But two things are certain Whether we are conscious of it or not we all think historically on a routine basis And our perceptions of history including African American history have not necessarily been shaped by professional historians In this wide reaching and timely book Pero G. Dagbovie argues that public knowledge and understanding of black history including its historical icons has been shaped by institutions and individuals outside academic ivory towers Drawing on a range of compelling examples Dagbovie explores how in the twenty first century African American history is regarded depicted and juggled by diverse and contesting interpreters from museum curators to filmmakers entertainers politicians journalists and bloggers Underscoring the ubiquitous nature of African American history in contemporary American thought and culture each chapter unpacks how black history has been represented and remembered primarily during the Age of Obama the so called era of post racial American society Reclaiming the Black Past is Dagbovie's contribution to expanding how we understand African American history during the new millennium

**Resources in Education**, 1989 Let America Live Stella Immanuel, 2021-09-07 Against all odds our fight for freedom is our responsibility we must RISE This book will expose you to the hidden realities of the media's silencing and

opposition to those against the Left's agenda. You will have an increased confidence to stand strong for your beliefs about your health, faith, and personal life despite what is going on around you. When the COVID-19 pandemic hit the United States, Dr. Stella Immanuel started treating her patients with hydroxychloroquine and saw surprising success. To date, she says she has treated more than seven thousand COVID patients with the drug, and only eight have passed away. The rest recovered. Yet Dr. Immanuel has been ripped in the media and even by the medical community who say the drug not only doesn't work but is harmful, the complete opposite of her experience. Her videos and accounts have been blocked on social media. The backlash has been so intense that she began to wonder if more sinister forces weren't behind the attacks against her and other doctors who advocate using hydroxychloroquine to treat COVID. In *Let America Live*, Dr. Immanuel shares her story from unassuming Houston physician to one of the Left's favorite punching bags. A minister as well as a physician, Dr. Immanuel also exposes the dark spiritual agenda she believes is behind the medical community's opposition to hydroxychloroquine as a COVID treatment and the vaccination push. Despite intense opposition, Dr. Immanuel refuses to be silenced. She issues a clarion call to believers and all who love liberty to stand boldly against the spiritual and natural forces that are threatening Americans' health and the future of the nation. Secret Service Reginald Whitaker, Gregory S. Kealey, Andrew Parnaby, 2012-01-01

Drawing on previously classified government records, the authors reveal that for over 150 years, Canada has run spy operations largely hidden from public or parliamentary scrutiny, complete with undercover agents, secret sources, agent provocateurs, coded communications, elaborate files, and all the usual apparatus of deception and betrayal so familiar to fans of spy fiction. As they argue, what makes Canada unique among Western countries is its insistent focus of its surveillance inwards and usually against Canadian citizens. The Mexican American Community College Experience Blanca Campa, 2017-03-01

The Mexican American Community College Experience addresses the challenge of educating Mexican American students, the largest segment of the growing Latino population in community colleges, the largest institutions in today's landscape of higher education. It describes the cultivation of resilience in these students and how engaging dynamic faculty help them succeed in their studies. This blending of psychology and education theory with a critical twist shows how faculty help students develop a foundation of resilience and a larger sense of purpose based on their unique knowledge, pedagogies, and culture, an area not traditionally addressed in curriculum and instruction. Creative teaching, resilience, and energetic student stories make this a celebration of Mexican American success at a major regional community college on the U.S.-Mexico border.
