Science and Applications Guido Guido Fumagalli,Nancy Getchell,Arja Sääkslahti,Patrizia Tortella,2022-11-07 **Young Children and Families in the Information Age** Kelly L. Heider,Mary Renck Jalongo,2014-12-05 This edited book presents the most recent theory research and practice on information and technology literacy as it relates to the education of young children Because computers have made it so easy to disseminate information the amount of available information has grown at an exponential rate making it impossible for educators to prepare students for the future without teaching them how to be effective information managers and technology users Although much has been written about information literacy and technology literacy in secondary education there is very little published research about these literacies in early childhood education Recently the National Association for the Education of Young Children and the Fred Rogers Center for Early

Learning and Children's Media at Saint Vincent College published a position statement on using technology and interactive media as tools in early childhood programs. This statement recommends more research to better understand how young children use and learn with technology and interactive media and also to better understand any short and long term effects. Many assume that today's young children are digital natives with a great understanding of technology. However, children may know how to operate digital technology but be unaware of its dangers or its value to extend their abilities. This book argues that information and technology literacy include more than just familiarity with the digital environment. They include using technology safely and ethically to demonstrate creativity and innovation to communicate and collaborate to conduct research and use information and to think critically solve problems and make decisions.

The Importance of Play in Early Childhood Education Marilyn Charles, Jill Bellinson, 2019-05-29 The Importance of Play in Early Childhood Education presents various theories of play and demonstrates how it serves communicative developmental and relational functions highlighting the importance and development of the capacity to play in terms useful to early childhood educators. The book explicitly links trauma development and interventions in the early childhood classroom specifically for teachers of young children offering accessible information that can help teachers better understand the meanings of children's expressive acts. Contributors from education, psychoanalysis and developmental psychology explore techniques of play how cultural influences affect how children play the effect of trauma on play factors that interfere with the ability to play and how to apply these ideas in the classroom. They also discuss the relevance of ideas about playfulness for teachers and other professionals. The Importance of Play in Early Childhood Education will be of great interest to teachers, psychoanalysts and psychotherapists as well as play therapists and developmental psychologists.

Urban Mental Health Dinesh Bhugra, Antonio Ventriglio, João Castaldelli-Maia, Layla McCay, 2019-06-11 Over the past fifty years we have seen an enormous demographic shift in the number of people migrating to urban areas proliferated by factors such as industrialisation and globalisation. Urban migration has led to numerous societal stressors such as pollution, overcrowding, unemployment and resource scarcity which in turn has contributed to psychiatric disorders within urban spaces. Rates of mental illness, addictions and violence are higher in urban areas and changes in social network systems and support have increased levels of social isolation and lack of social support. Part of the Oxford Cultural Psychiatry series, Urban Mental Health brings together international perspectives on urbanisation, its impacts on mental health, the nature of the built environment and the dynamic nature of social engagement. Containing 24 chapters on key topics such as research challenges, adolescent mental health and suicides in cities, this resource provides a refreshing look at the challenges faced by clinicians and mental health care professionals today. Emphasis is placed on findings from low and middle income countries where expansion is rapid and resources limited, bridging the gap in research findings.

Promoting Physical Development and Activity in Early Childhood Jackie Musgrave, Jane Dorrian, Joanne Josephidou, Ben Langdown, Lucy Rodriguez Leon, 2024-04-11 Getting young children active

and supporting their physical development right from the start is essential for children's all round development and good health. However, children's levels of physical activity are declining. This book helps readers increase their understanding to support young children's overall development, health and wellbeing. Breaking current physical activity guidelines into bite size chunks, the book provides key advice on caring for and educating babies and young children on how to meet the recommended amount of physical activity each day. Current research is accessibly explored, including links with screen time and neuroscience, and informs a range of flexible, open ended activities and practical strategies to use in every early years setting. Chapters include: Suggestions on planning an enabling environment to support young children's physical development without expensive equipment or classes; Steps for making physical activity inclusive for all children, including those with special educational needs and physical conditions; Key research translated into easy to understand, informative guidance; The voice of the child and the importance of listening to children; woven throughout; Opportunities for readers to assess how their own setting supports physical activity; The importance of early physical development to communication and future academic performance. Grounded in best practice for supporting physical development in the early years and working with parents, this book is essential reading for trainee and practising early years educators as well as parents and carers of young children.
