El fin del amor Illouz, Eva,2020-11-01 La cultura occidental ha representado con insistencia los modos en que el amor irrumpió milagrosamente en nuestras vidas desde la febril espera de un correo o de una llamada telefónica hasta la emoción que nos atraviesa de solo pensar en esa otra persona Sin embargo no sucede lo mismo con esos momentos en los que el amor se termina o ni siquiera llega a comenzar Cómo es posible que una cultura que tiene tanto para decir sobre el amor se quede prácticamente muda respecto del tema meno no menos misterioso del desamor En *El fin del amor* Eva Illouz indaga las condiciones sociales y culturales detrás de lo que ha llegado a ser una característica común de las relaciones sexuales y románticas contemporáneas el acto de abandonarlas De distintas maneras ya sea por falta de compromiso por separación o divorcio las relaciones están marcadas hoy por la libertad de retirarse o de no siquiera entrar

Otherness in Hispanic Culture Teresa Fernandez Ulloa,2014-06-26 This book addresses contemporary discourses on a

wide variety of topics related to the ideological and epistemological changes of the 19th 20th and 21st centuries and the ways in which they have shaped the Spanish language and cultural manifestations in both Spain and Hispanic America The majority of the chapters are concerned with otherness in its various dimensions the alien Other foreign immigrant ethnically different disempowered female or minor as well as the Other of different sexual orientation and or ideology Following Octavio Paz otherness is expressed as the attempt to find the lost object of desire the frustrating endeavour of the androgynous Plato wishing to embrace the other half of Zeus who in his wrath tore off from him Otherness compels human beings to search for the complement from which they were severed Thus a male joins a female his other half the only half that not only fills him but which allows him to return to the unity and reconciliation which is restored in its own perfection formerly altered by divine will As a result of this transformation one can annul the distance that keeps us away from that which not being our own turns into a source of anguish The clashing diversity of all things requires the human predisposition to accept that which is different Such a predisposition is an expression of epistemological ethical and political aperture The disposition to co exist with the different is imagined in the de anthropocentricization of the bonds with all living realms And otherness is in some way the reflection of sameness *mismidad* The other is closely related to the self because the vision of the other implies a reflection about the self it implies consciously or not a relationship with the self These topics are addressed in this book from an interdisciplinary perspective encompassing arts humanities and social sciences
