The Encyclopedia of Group Activities J. William Pfeiffer, 1989 **The Encyclopedia of Group Activities** Pfeiffer and Co. Staff, Carol Nolde, 1991-10 The New Encyclopedia of Group Activities, CD-ROM Included Lorraine L. Ukens, 2011-08-09

Helping groups become their most effective and productive is a major task for a group leader and facilitator. By immersing group members in active learning experiences that focus on working together to accomplish objectives, group members will learn to draw on their personal insights and integrate this knowledge into practical applications. The New Encyclopedia of Group Activities, the sequel to the best-selling encyclopedia that was first published more than a decade ago, is an expansive collection of hands-on activities and games that will help you explore the many elements of group process skills. This thoroughly revised and updated resource covers a multitude of content topics that you can use in a variety of group settings. The 150 new activities offer creative exercises that will give you the tools you need to provide appropriate interventions for any group purpose. Whether searching for a serious foundational process activity or for a light transitional learning game, you will find something here to meet your needs. Praise for The New Encyclopedia of Group Activities: A vast collection of excellent team activities spanning a wide range of topics. You will find great options at your fingertips. Mel Silberman, author *Active Training* and *The Best of Active Training*. Both new and seasoned training professionals will find The New Encyclopedia of Group Activities to be a great addition to their resource libraries. I find Ms. Ukens' activities to be easy to facilitate and applicable to many different courses and audiences. Madeline Collins, independent performance consultant specializing in teamwork, communication, and customer service training. The Encyclopedia of Group Activities, Loose-Leaf Package J. William Pfeiffer, 1991-01-16

Here are 150 activities that provide just the right pick-me-up for any workshop, conference, course, or training program. Use these activities to foster interaction, begin sessions with impact, stimulate creative thinking, challenge basic assumptions, illustrate new concepts, re-energize participants, introduce material, and more. The activities are divided into six categories: Energizers and Tension Reducers, Feedback and Disclosure Games and Brainteasers, Getting Acquainted, Openers and Warm-Ups, Professional Development Topics. Almost all of the icebreakers in this invaluable resource require less than 30 minutes, demand little if any advance preparation, are simple to implement, and are flexible enough to be used with an unlimited range of topics. *Developing a Learning Culture in Nonprofit Organizations* Stephen J. Gill, 2010

Nonprofit organizations are under increasing pressure to demonstrate impact, and that the funds raised to operate their organizations are maximized and used effectively. This book demonstrates how to create a culture of learning, intentional learning from reflection and feedback, focused on successes and failures that will lead to ongoing performance measurement and improvement. Because nonprofit organizations rely heavily on volunteers and are focused on mission, not money, it is critical for them to create a culture in which learning is a motivator for change. The book breaks down learning into four levels: individual, team, whole organization, and community. Learning at each of these levels is

described and then specific tools are presented The tools are hands on and practical which facilitate reflection and feedback
