Investments in Conflict Zones Tobias Ackermann, Sebastian Wuschka, 2020-12-15. Investments in Conflict Zones addresses the topical and underexplored role of international investment law in armed conflicts, disputed territories, and frozen conflicts. The edited collection explores how these different conflict situations impact the application and interpretation of international investment law and how the protection of investors can be reconciled with the politically charged circumstances and state interests involved. Written by a selected group of experts from different fields of international law, the volume moves beyond the confines of investment law, offering novel insights on its intersection with the law of armed conflict, human rights law, the law of the sea, general international law, and national laws, including those adopted by de facto regimes which lack recognition as states.

Business and Investments in Asia Jorge Mongay, 2012. Today's globalization is changing the gravity center of Business on a worldwide basis. The classic triangle New York-London-Paris has been substituted by a new strategic axis located in emerging nations. Asian countries are changing the dimensions of international trade and investments from a Global perspective. Locations like the Strait of Malacca in Malaysia or APEC will become extremely strategic in trade and commerce for the next 20 years, and the most relevant demographic growth will be located in Asian nations. Asia is moving quickly and it does it in the right direction. Governments are facilitating investment processes to local and foreign companies. Not only China and India must be taken into consideration; other new Challengers are increasing very rapidly: Vietnam, Thailand, or Malaysia, which despite some internal problems like lack of democratic maturity and transparency, show very admirable values in Business activities. Social order, respect, family orientation, or hard work are some of these assets. This book offers an in-depth analysis of ten Asian nations: China, Cambodia, Vietnam, Japan, Laos, South Korea, Singapore, Thailand, India, and Hong Kong, in order to help western managers and investors to do Business efficiently in this dynamic economic region. La globalización actual está cambiando el centro de gravedad de los negocios en

Salacuse, 2021-02-18 Investment treaties grant special international protection to foreign investors and give them a means to enforce those rights against States in which they have invested This book systematically examines the law of international investment treaties particularly with respect to its origins structure content and effects Although the precise provisions of investment treaties are not uniform virtually all investment treaties address the same issues This book examines those issues in detail including the scope of application conditions for the entry of foreign investment and general standards of treatment of foreign investments Investment treaty law has continued to evolve rapidly and dramatically since publication of the second edition of this work in 2015 The field has seen considerable growth in the number and scope of investment treaties now estimated at 3300 and investor state arbitrations cases which reached over 1000 in 2020 The field has also experienced significant changes and reforms In 2018 eleven Pacific Basin Countries despite the withdrawal of the United States forged ahead to conclude the Comprehensive and Progressive Agreement for Trans Pacific Partnership CPTTP a potentially far reaching regional trade and investment agreement The next year the three north American nations replaced the North American Free Trade Agreement NAFTA with the United States Mexico Canada Agreement USMCA And in 2020 European Union member states terminated over 100 intra EU BITs leaving intra EU investors to rely on EU law and legal processes alone for protection from unfavourable government acts This edition of The Law of Investment Treaties incorporates a consideration of all of these and other reforms into its analysis of the body of law created by investment treaties since World War II
