The Indo-German Identification Robert Cowan, 2010 The nineteenth century development and later consequences of the imagined relationship between ancient India and modern German culture In the early nineteenth century German intellectuals such as Novalis Schelling and Friedrich Schlegel convinced that Germany s cultural origins lay in ancient India attempted to reconcile these origins with their imagined destiny as saviors of a degenerate Europe then shifted from Indomania to Indophobia when the attempt foundered The philosophers Hegel Schopenhauer and later Nietzsche provided alternate views of the role of India in world history that would be disastrously misappropriated in the twentieth century Reconstructing Hellenistic and humanist views of the ancient Brahmins and Goths French Enlightenment debates over the postdiluvian origins of the arts and sciences and the Indophilia and protonationalism of Herder Robert Cowan focuses on turning points in the development of an Indo German ideal an ideal less focused on intellectual imperialism than many studies of the Aryan Myth and Orientalism would have us believe Cowan argues that the study of this ideal continues to offer lessons about cultural difference in the post national twenty first century Of great interest to historians philosophers and literary scholars this cross cultural study offers a new understanding of the Indo German story by showing that attempts to establish identity necessarily involve a reconciliation of origins and destinies of self and other of individual and collective Robert Cowan is Assistant Professor of English at Kingsborough Community College of the City University of New York

on today's religious landscape Zen in Plain English Stephan Schuhmacher, 2012-01-01 No other book quite engages the reader in the kinds of perceptions and experiences that the seeker will have while following this path. The Zen masters are famous for their unorthodox ways of teaching the wisdom of the thing itself. Their Koans, paradoxical stories and questions are designed to rid the mind of over-sophisticated responses. A selection of tales from the great Zen teachers in this book coaxes the reader into a direct encounter with the life-changing perceptions of the Zen mind. Challenging us to find a solution that resolves and dissolves the knots in heart and mind, the chronic cramp that prevents us from breathing freely, from giving ourselves without reserve to life in all its delightful and painful facets and from being at peace with life and with death. In this process we are confronted by the limits of rational meaning and we begin to understand why Zen masters use humour and paradox to lead us to the very edge of the precipice of reason and why at that critical point we are gently pushed over. Stephan Schumacher's innovative format and his fresh interpretations of this fine selection of stories from the great teachers are a useful introduction to Zen practice and more importantly a welcome return to the fundamental Dharma of no self, not knowing the thing itself and the beauty and precision of this moment by moment precious moment of our lives.
