Encyclopedia Of Modern Worldwide Extremists And Extremist Groups:

Encyclopedia of Modern Worldwide Extremists and Extremist Groups Stephen E. Atkins, 2004-05-30 These 290 alphabetically organized entries detail the notorious and often violent history activities and beliefs of the most active and influential extremists and extremist groups in operation around the globe Well over three quarters of the entries focus on extremist activity since 1980 providing historical perspectives on groups and people such as English Neo Nazis Argentinean death squads American ecoterrorists Hindu xenophobes and Japanese cults *Encyclopedia of Right-Wing Extremism in Modern American History* Stephen E. Atkins, 2011-09-13 This encyclopedia covers American right wing extremist groups and extremism from the 1930s to the present day including neo Nazis the Ku Klux Klan and various anti government organizations Right wing extremism in America has had an established presence from the 1930s through the present day The election of America s first African American president and the resuscitation of big government policymaking have stimulated a reaction from and a reemergence of right wing extremists Neo Nazis racist skinheads and white supremacists Unfortunately it seems Americans are still living in an age of extremism The Encyclopedia of Right Wing Extremism in Modern American History provides useful authoritative information about these groups and their histories covering conservative extremism from the 1930s onward such as white supremacist groups and neo Nazis Christian Identity and other right wing religious movements and anti American government extremists An introductory overview insightful conclusion chapter and useful up to date bibliography are also included **Handbook of Terrorist and Insurgent Groups** Scott N. Romaniuk, Animesh Roul, Pamela Fabe, János Besenyő, 2024-10-24 Handbook of Terrorist and Insurgent Groups A Global Survey of Threats Tactics and Characteristics examines the most current and significant terrorist and insurgent groups around the world The purpose is to create a descriptive mosaic of what is a pointedly global security challenge The volume brings together conceptual approaches to terrorism insurgency and cyberterrorism with substantive and empirical analyses of individual groups organisations and networks By doing so not only does the coverage highlight the past present and future orientations of the most prominent groups but it also examines and illustrates their key characteristics and how they operate including key leaders and ideologues Highlighting specific individual groups the chapters collectively present a robust and comprehensive outlook on the current geography of terrorism and insurgency groups operating in the world today This comprehensive volume brings the collective expertise and knowledge of more than 50 academics intelligence and security officials and professionals together all of whom are considered subject experts in their respective areas of research and practice The volume is based on both desk based and fieldwork conducted by experts in these areas incorporating analyses of secondary literature but also the use of primary data including first hand interviews on the various groups regions of operation their tactics and how their ideologies motivate their actions *The 50 Worst Terrorist Attacks* Edward F. Mickolus, Susan L. Simmons, 2014-08-11 In the last 50 years terrorists have committed hundreds of horrific acts of violence to

further their causes This accessible single volume text covers the most significant terrorist acts across contemporary history worldwide Since the attacks on September 11 2001 terrorism has remained the chief threat to international stability and security The 50 Worst Terrorist Attacks draws on all forms of terrorism international transnational and domestic anywhere in the world covering all types of acts e g bombings assassinations armed attacks skyjackings by any organization and ideology The work goes beyond documenting the key events that occurred in or involved the United States it also covers important terrorist attacks by left and right wing organizations religiously motivated groups and separatists that are largely unknown among Western audiences Each entry supplies the details of the attack the perpetrators victims and eventual resolution as well as the political social and international contexts in which the event occurred Readers will grasp the evolution of terrorist activities and methodologies in the 20th and 21st centuries understand the importance of each event in the development of the terrorist repertoire and gauge the responses intended to counter these new kinds of attacks

Hasan al-Turabi, the Last of the Islamists Abdullahi A. Gallab, 2018-07-15 This book is not a typical biography of Hasan al Turabi It is a project in the study of a Sudanese human experience at the heart of which Hasan al Turabi was an actor a victim and a victimizer Hasan al Turabi the rise and fall of his Islamism and the dramatic life of generations of the Sudanese community of state that link the underlying causes to the capacity of the state not only as a throwback to oppression and exploitation of the colonial state but also accompanied by an alarming persistence of violence and corruption that exists within the wilding and greed of al Turabi s Islamists Here the Sudanese experience of al Turabi Islamism stands as a very important one in the history of the Sudan the region and in general This not because of its success but because of its total failure It proved that what has been advocated as al Islam howa al Hal Islam is the solution turned into violence is the solution Hence what the Sudanese Islamism al Turabi Islamism presented to the world that such a state is itself an unachievable idea neither by default nor by design It is as Hasan al Turabi himself has stated that his Islamists tarnished the Image of Islam Hasan al Turabi endured more suffering under the hands of his merciless disciples more than he suffered from his enemies Gallab argues that Islamism like other isms is crucible for violence and evil Nevertheless al Turabi remains an albatross around the neck of the Islamist movement the Islamist movement remains as an albatross around his neck too This book illuminates al Turabi s life the human experience of his generation and his Islamists by brining into sharp focus a Turabi the man and his time without reproducing a giant of either one of them

Upheavals in the Middle East Ronen A. Cohen, 2014-02-27 Upheavals in the Middle East The Theory and Practice of a Revolution engages with some of the most sensitive issues in the Middle East revolutions and social protests The book offers theoretical paradigms that suit the Middle East s conditions culturally religiously and historically It deals with seventeen case studies from a range of Muslim and Arab states and provides a theoretical framework to study other situations all over the world including cases from the recent Arab Spring Revolution as political action can occur in all societies but in recent years it has appeared most frequently in the Middle East Will this trend

continue What makes the Middle Eastern revolution unique and surprising This book seeks to answer these questions placing side by side those cases that were successful and those that were doomed to fail **Shadow Worlds** Andrew Wood,2023-07-13 A vigorous strand of interest in the occult the spooky and the mysterious has been part of New Zealand s history since 1840 Shadow Worlds takes a lively look at communicating with spirits secret ritualistic societies the supernatural the New Age everything from The Golden Dawn and Rosicrucianism to Spiritualism witchcraft and Radiant Living and introduces the reader to a cast of fascinating characters who were generally true believers and sometimes con artists It s a fresh and novel take on the history of a small colonial society that was not quite as ploddingly conformist as we may have imagined **Their Second Republic** Abdullahi A. Gallab,2016-02-17 Building on his successful book The First Islamist Republic Abdullahi A Gallab s Their Second Republic Islamism in the Sudan from Disintegration to Oblivion deals with Islamism its representations history and transformations in the region Continuing the study of Islamism in power the book affirms the continuous disintegration of the Islamist movement in the Sudan taking a critical look at its institutions and their ideological and rhetorical stances The book provides an entry point into Hasan al Turabi s Islamism its local regimes and their disintegration The book addresses the profound transformations that stem from the anachronistic qualities of political Islam as it deploys violence to maintain power Gallab describes this as savage separation of religion and state The main focus of the book is to provide a socio historical analysis of developments and transformations of historic forms of Islamism and its runaway world as well as situating it in its local and global contexts Traces of Terrorism Matthias Plügge,2023-04-28 Terrorism usually is a consequence of geopolitical decisions Therefore this book chooses a historical approach it shows the most important terrorist attacks and their contexts After all terrorism is ultimately not a string of disconnected events rather follows a line of development that this book seeks to trace in a chronicle *Islamist Radicalisation in Europe* Daniela Pisoiu,2012-01-25 This book examines the Islamist radicalisation process in Europe developing a new theoretical model based on an empirical study of the evolution of Islamist radicals in their social environment The approach of this book is to examine how and under what conditions people choose to radicalise It focuses on the experience of radicalisation from the perspective of those who have undergone it The study is based on trial and court material along with an extensive number of interviews collected from many different European countries and this biographical approach is used to address individuals and the details of their social environment Overall the explanatory framework departs from the existing deterministic paradigm with grievances as causes also present in some psychological models and argues that radicalisation is a process much like occupational choice a rational choice made with social and ideational significance It addresses critically the assumption that because the result of the radicalisation process could be seen as abnormal the cause of it might be of a similar nature Parallels are drawn with other forms of extremism and European counter radicalisation policies are considered critically This book will be of great interest to students of terrorism

studies and political violence political Islam social movements European politics and IR security studies in general

Religious Conversion in India Manohar James, 2022-03-14 In this book Dr Manohar James explores how Hindu intolerance has contributed to anti Christian propaganda over the centuries how such intolerance has informed the conclusions of the Niyogi Committee Report and how the Report's ongoing publications redactions and recessions have intensified anti Christian rhetoric in India over the last six decades

Women against Abortion Karissa Haugeberg, 2017-04-03 Women from remarkably diverse religious social and political backgrounds made up the rank and file of anti abortion activism Empowered by yet in many cases scared of the changes wrought by feminism they founded grassroots groups developed now familiar strategies and tactics and gave voice to the movement's moral and political dimensions Drawing on oral histories and interviews with prominent figures Karissa Haugeberg examines American women's fight against abortion Beginning in the 1960s she looks at Marjory Mecklenburg's attempt to shift the attention of anti abortion leaders from the rights of fetuses to the needs of pregnant women Moving forward she traces the grassroots work of Catholic women including Juli Loesch and Joan Andrews and their encounters with the influx of evangelicals into the movement She also looks at the activism of evangelical Protestant Shelley Shannon a prominent pro life extremist of the 1990s Throughout Haugeberg explores important questions such as the ways people fused religious conviction with partisan politics activists rationalizations for lethal violence and how women claimed space within an unshakably patriarchal movement

War and Peace Christine Kinealy, 2013-06-01 In *War and Peace Ireland* Since 1960 Christine Kinealy explores the political triumphs and travails in Ireland over the last five decades *War and Peace* provides a thorough and up to date account of the unfolding of The Troubles the three decades of violence and social unrest between the Catholic nationalists and the Protestant unionists In addition Kinealy examines the Republic of Ireland's entry into the European Union in 1973 its often contentious relationship with England and the changes in emigration during the period Of additional interest to Kinealy is the effect of the women's movement which has given rise to the election of two female presidents proving Ireland's ability to accept and internalize change

Battle for the heart Jan Albert van den Berg, Chris A. M. Hermans, 2021-09-24 The battle of the heart can be seen as the core problem of the Christian religion in modern culture According to Augustine the complex mixture of longings are the driving forces of human lives These longings are not an intellectual puzzle but rather a craving for sustenance The contributions locate the battle for the heart and transformation of society and church in the context of an ethnic multi religious socio economical divided Africa Where are the authentic voices of leaders who can change the heart How to mend a broken heart How to transform congregations towards inclusion of difference Can we embrace the dignity of difference as attitudes that enable transformation of church and society

Viral Performance Miriam Felton-Dansky, 2018-05-15 Digital culture has occasioned a seismic shift in the discourse around contagion transmission and viral circulation Yet theater in the cultural imagination has always been contagious *Viral Performance* proposes the concept of the viral as an essential means of

understanding socially engaged and transmedial performance practices since the mid twentieth century Its chapters rethink the Living Theatre s Artaudian revolution through the lens of affect theory bring fresh attention to General Idea s media savvy performances of the 1970s explore the digital age provocations of Franco and Eva Mattes and Critical Art Ensemble and survey the dramaturgies and political stakes of global theatrical networks Viral performance practices testify to the age old and ever renewed instinct that when people gather something spreads Performance an art form requiring and relying on live contact renders such spreading visible raises its stakes and encodes it in theatrical form The artists explored here rarely disseminate their ideas or gestures as directly as a viral marketer or a political movement would rather they undermine simplified forms of contagion while holding dialogue with the philosophical and popular discourses old and new that have surrounded viral culture Viral Performance argues that the concept of the viral is historically deeper than immediate associations with the contemporary digital landscape might suggest and far more intimately linked to live performance

Publications Combined: Russia's Regular And Special Forces In The Regional And Global War On Terror , Over 2 400 total pages Russian outrage following the September 2004 hostage disaster at North Ossetia s Beslan Middle School No 1 was reflected in many ways throughout the country The 52 hour debacle resulted in the death of some 344 civilians including more than 170 children in addition to unprecedented losses of elite Russian security forces and the dispatch of most Chechen allied hostage takers themselves It quickly became clear as well that Russian authorities had been less than candid about the number of hostages held and the extent to which they were prepared to deal with the situation Amid grief calls for retaliation and demands for reform one of the more telling reactions in terms of hardening public perspectives appeared in a national poll taken several days after the event Some 54% of citizens polled specifically judged the Russian security forces and the police to be corrupt and thus complicit in the failure to deal adequately with terrorism while 44% thought that no lessons for the future would be learned from the tragedy This pessimism was the consequence not just of the Beslan terrorism but the accumulation of years of often spectacular failures by Russian special operations forces SOF in the apt US military acronym A series of Russian SOF counterterrorism mishaps misjudgments and failures in the 1990s and continuing to the present have made the Kremlin s special operations establishment in 2005 appear much like Russia s old Mir space station wired together unpredictable and subject to sudden startling failures But Russia continued to maintain and expand a large variegated special operations establishment which had borne the brunt of combat actions in Afghanistan Chechnya and other trouble spots and was expected to serve as the nation s principal shield against terrorism in all its forms Known since Soviet days for tough personnel personal bravery demanding training and a certain rough or brutal competence that not infrequently violated international human rights norms it was supposed that Russian special operations forces steeped in their world of threats to the state and associated with once dreaded military and national intelligence services could make valuable contributions to countering terrorism The now widely perceived link between corrupt special forces on

the one hand and counterterrorism failures on the other reflected the further erosion of Russia's national security infrastructure in the eyes of both Russian citizens and international observers. There have been other more ambiguous but equally unsettling dimensions of Russian SOF activity as well that have strong internal and external political aspects. These constitute the continuing assertions from Russian media, the judicial system and other Federal agencies and officials that past and current members of the SOF establishment have organized to pursue interests other than those publicly declared by the state or allowed under law. This includes especially the alleged intent to punish by assassination those individuals and groups that they believe have betrayed Russia. The murky nature of these alleged activities has formed a backdrop to other problems in the special units.

Holocaust Denial as an International Movement Stephen E. Atkins, 2009-04-30

The end of World War II saw an emergence of Holocaust dissent that began in Europe and has since developed into an international movement with adherents in almost every country in the world. At first this denial was fueled by the desire to rehabilitate Adolf Hitler and the Nazi regime in an effort to reestablish a neo-Nazi state. In the following years coupled with the renewal of anti-Semitism, this dissent has been used as a means of denying the legitimacy of the state of Israel. Despite these motivations, the ultimate cause for concern is in the way this denial attracts its members by both challenging the existence of the Holocaust and the testimony of its witnesses. By tracing the history, causes and spread of Holocaust denial, Atkins reveals the dangers this mindset poses to rational thinkers who become vulnerable to fringe ideas. This book traces the state of the international Holocaust denial movement in the early 21st century, grounding contemporary thought in the history of the movement. Since Holocaust deniers have distorted the facts about this mass genocide, Atkins discusses just what is known about the Holocaust from historical research conducted since World War II. The role of negative racial genetics is explored in both Hitler's intellectual makeup and among the leaders of the German right wing, including historians' assessments of Hitler's anti-Semitism, motivations and decision making. Also provided is a roll call of Holocaust dissenters in countries such as the United States, Germany, France, Great Britain, Russia and Italy among many others. By analyzing the arguments of leaders within this expanding dissent movement, this book demonstrates how extremists build informational links that have wide-ranging effects.

The New Terrorism Stefan Goertz, Alexander E. Streithparth, 2019-05-07

In light of asymmetrical security threats in western democracies as well as in conflict regions, this timely book examines the actors' strategies and tactics of Islamist terrorism and transnational organized crime around the globe. The authors develop an interdisciplinary approach to understanding the ideologies, forms of cooperation and technological means used in new forms of terrorism. The book starts with an empirical analysis of the new Jihadism as a global Islamist theology and strategy. Furthermore, it investigates the interaction, cooperation and fusion of transnational organized crime and Islamist terrorism and highlights new communication technologies as vital tools for terrorism. Lastly, the book provides an analysis of asymmetrical strategies and tactics used by terrorist organisations and of low-level terrorism. As such, it will appeal to all political scientists and

criminologists studying terrorism as well as to professionals at various national and international security services **The People Behind Cult Murders** Pete Schauer, 2016-07-15 High school psychology students will read about what motivates the criminals behind cult murders After introducing the wide range of cults that exist in the world this book focuses on those cults that often feature violence abuse ritual death and mass murder Religious doomsday and terrorist cults are just some of the cults covered in this detailed book Historical accounts of cult murders are followed by descriptions of the psychology of the minds of cult leaders and followers The Routledge Handbook of Terrorism Research Alex Schmid, 2011-02-25 This major new Handbook synthesises more than two decades of scholarly research and provides a comprehensive overview of the field of terrorism studies The content of the Handbook is based on the responses to a questionnaire by nearly 100 experts from more than 20 countries as well as the specific expertise and experience of the volume editor and the various contributors Together they guide the reader through the voluminous literature on terrorism and propose a new consensus definition of terrorism based on an extensive review of existing conceptualisations The work also features a large collection of typologies and surveys a wide range of theories of terrorism Additional chapters survey terrorist databases and provide a guide to available resources on terrorism in libraries and on the Internet It also includes the most comprehensive World Directory of Extremist Terrorist and other Organizations associated with Guerrilla Warfare Political Violence Protest and Organized and Cyber Crime The Routledge Handbook of Terrorism Research will be an essential work of reference for students and researchers of terrorism and political violence security studies criminology political science and international relations and of great interest to policymakers and professionals in the field of counter terrorism
