Everyday eBay Ken Hillis, Michael Petit, Nathan Scott Epley, 2012-12-06 Everyday eBay is the first scholarly analysis of the internet marketplace that has become a global social cultural and economic phenomenon The eighteen new and classic essays gathered here examine eBay from a wide variety of perspectives as a bellwether of taste and material culture as a rich site of cultural racial and sexual discourse and practice as an emergent media form and as a facilitator of global consumerism From old toys steeped in nostalgia to rare limited edition shoes the contributors demonstrate that value on eBay is never simply about price On any given day more than two million items are listed for sale on eBay from everyday objects to kitsch and collectibles to the truly bizarre Since its debut ten years ago eBay has quickly become a central destination for millions of web browsers According to eBay itself up to 165 000 Americans now make their living by selling through the website and other business analysts project that hundreds of thousands of individuals worldwide now make their living through eBay
