and other times abrupt and revolutionary In this study of American menswear from the Civil War to the twenty first century that evolution is chronicled and documented with more than 700 illustrations In addition to the main categories of suits sportswear and outerwear each era also includes a detailed examination of sleepwear underwear swimwear hats neckwear footwear and accessories Further Daniel Delis Hill examines not only American men s dress and the structures of the menswear industry but also the historical and socioeconomic drivers that affected men s style particularly the shifting conventions and iconoclasm of American ideas and ideals of masculinity **Australia 1944-45** Peter J. Dean,2016 Thoroughly researched and generously illustrated Australia 1944 45 is the compelling final instalment in Peter Dean s Pacific War series War and Displacement in the Twentieth Century Sandra Barkhof,Angela K. Smith,2014-03-14 Human displacement has always been a consequence of war written into the myths and histories of centuries of warfare However the global conflicts of the twentieth century brought displacement to civilizations on an unprecedented scale as the two World Wars shifted participants around the globe Although driven by political disputes between European powers the consequences of Empire ensured that Europe could not contain them Soldiers traversed continents and civilians often followed them or found themselves living in territories ruled by unexpected invaders Both wars saw fighting in Europe Africa the Middle East and the Far East and few nations remained neutral Both wars saw the mass upheaval of civilian populations as a consequence of the fighting Displacements were geographical cultural and psychological they were based on nationality sex gender or age They produced an astonishing range of human experience recorded by the participants in different ways This book brings together a collection of inter disciplinary works by scholars who are currently producing some of the most innovative and influential work on the subject of displacement in war in order to share their knowledge and interpretations of historical and literary sources The collection unites historians and literary scholars in addressing the issues of war and displacement from multiple angles Contributors draw on a wealth of primary source materials and resources including archives from across the world military records medical records films memoirs diaries and letters both published and private and fictional interpretations of experience **Captivity in War during the Twentieth Century** Marcel Berni,Tamara Cubito,2021-08-27 This book offers new international perspectives on captivity in wartime during the twentieth century It explores how global institutions and practices with regard to captives mattered how they evolved and most importantly how they influenced the treatment of captives From the beginning of the twentieth century international organisations neutral nations and other actors with no direct involvement in the respective wars often had to fill in to support civilian as well as military captives and to supervise their treatment This edited volume puts these actors rather than the captives themselves at the centre in order to assess comparatively their contributions to wartime captivity Taking a global approach it shows that transnational bodies whether non governmental organisations neutral states or individuals played an essential role in dealing with captives in wartime Chapters cover both the largest wars such as the two World Wars but also lesser known conflicts to

highlight how captives were placed at the centre of transnational negotiations
