Rome. - Vol. 1 - 7 Michael Gagarin,2010 Roman Law A. Arthur Schiller,2011-05-02 No detailed description available for Roman Law Alfonso X, the Justinian of His Age Joseph F. O'Callaghan,2019-05-15 In this magisterial work Joseph O Callaghan offers a detailed account of the establishment of Alfonso X s legal code the Libro de las leyes or Siete Partidas and its applications in the daily life of thirteenth century Iberia both within and far beyond the royal courts O Callaghan argues

that Alfonso X el Sabio the Wise was the Justinian of his age one of the truly great legal minds of human history Alfonso X the Justinian of His Age highlights the struggles the king faced in creating a new coherent inclusive and all embracing body of law during his reign O Callaghan also considers Alfonso X s own understanding of his role as king lawgiver and defender of the faith in order to evaluate the impact of his achievement on the administration of justice Indeed such was the power and authority of the Alfonsine code that it proved the king's downfall when his son invoked it to challenge his rule Throughout this soaring legal and historical biography O Callaghan reminds us of the long term impacts of Alfonso X s legal works not just on Castilian and later Iberian life but on the administration of justice across the world The New American Encyclopedic Dictionary Robert Hunter, Edward Thomas Roe, Le Roy Hooker, Thomas W. Handford, 1906 Construction, Sources, and Implications of Consensualism in Contract Kane Abry, 2023-09-28 This book offers a comprehensive introduction to French contract law with a focus on the role of consent and the evolution of consensualism considering its immediate historical sources The book provides a clear in depth and analytical discussion of the contingency of consensualism and how the development of consensual ideas across time and transnational geographical settings has specifically underpinned modern French contract law which has inspired other legal systems and continues to do so It also challenges the macro narratives of European legal history and redefines consensualism so that it may be properly understood addressing its manifest contemporary misinterpretations Thorough engaging well structured and inventive there is no other English language scholarly work that offers a similar analysis This monograph makes an evident contribution to the field by offering an original interpretation of several provisions in the Code Civil which relate to the law of contract The author demonstrates an impressive grasp of Latin French and English sources as well as knowledge of Roman law legal history and contemporary French law It is well referenced and offers an extensive bibliography Dr Stephen Bogle Senior Lecturer in Private Law University of Glasgow UK The author brings a critical perspective to bear throughout the monograph and develops a clear and guite sophisticated position on the interaction between consensualism and formalism in Roman and French law and the intervening European ius commune Prof Hector MacQueen Emeritus Professor of Private Law University of Edinburgh UK Paul, Politics, and New Creation Najeeb T. Haddad, 2020-12-10 Paul Politics and New Creation Reconsidering Paul and Empire nuances Paul s relationship with the Roman Empire Using rhetorical sociohistorical and theological methods Najeeb T Haddad reevaluates claims of Paul's anti imperialism by situating him in his proper Hellenistic Jewish and Greco Roman contexts Determining Boundaries in a Conflicted World Suzanne Lalonde, 2002 In 1992 when Yugoslavia was on the point of disintegration the Badinter Commission recommended that the issue of its boundaries be resolved according to the principle of uti possidetis the internal boundaries dividing the former Yugoslav Republics should automatically become the international boundaries of the new states Elated by what seemed a clear and workable solution to an impossible problem the international community proceeded to impose the binding principle of uti possidetis on all the

parties involved Relying on the Badinter interpretation of uti possidetis five experts in international law have assured the Quebec government that in the event of separation from Canada Quebec could assume legal entitlement under international law of its existing boundaries In Determining Boundaries in a Conflicted World Suzanne Lalonde examines the origins of the uti possidetis principle its evolution and colonial roots as well as more recent applications to determine whether it merits the A Service Beyond All Recompense Kurt Martens, 2018 When Monsignor overriding importance now attributed to it Thomas J Green professor at the School of Canon Law at The Catholic University of America approached his seventy fifth birthday and the fiftieth anniversary of his priestly ordination his colleagues planned on offering him a fitting tribute in the form of a festschrift Six people with different backgrounds but all related to Msgr Green on one way or another have written a laudatio a short congratulatory letter in honor of Monsignor Green No less than fifteen contributions on various topics by colleagues canon law scholars clearly relate and reflect upon the honoree's scholarly contributions to canon law The topics are extremely varied and illustrate how Monsignor Green has been or is active in nearly every area of canon law Virtually every book of the Code of Canon Law is covered if not directly at least indirectly While the book is a tribute to an eminent professor the various scholarly contributions are unique pieces of scholarship The authors of the laudatio are John Garvey President The Catholic University of America Andrew Abela Provost The Catholic University of America Rev Msgr J Brian Bransfield General Secretary of the United States Conference of Catholic Bishops Rev Msgr Ronny E Jenkins Dean School of Canon Law The Catholic University of America Rev Msgr J James Cuneo Diocese of Bridgeport and Sister Sharon Euart RSM Executive Director Resource Center for Religious Institutes Silver Spring MD Mother and Sons, Inc. Kathryn L. Reverson, 2017-09-22 In the late 1320s Martha de Cabanis was widowed with three young sons eleven eight and four years of age Her challenges would be many to raise and train her children to carry on their father's business to preserve that business until they were ready to take over and to look after her own financial well being Examining the visible trail Martha left in Montpellier's notarial registers and other records Kathryn L Reverson reveals a wealth of information about her activities particularly in the area of business commerce and real estate From these formal contractual documents Reverson gleans something of Martha's personality and reconstructs what she may have done and a good deal of what she actually did in her various roles of daughter wife mother and widow Mother and Sons Inc demonstrates that while women were hardly equal to men in the fourteenth century under the right conditions afforded by wealth and the status of widowhood they could do and did more than many have thought Within the space of twenty years Martha developed a complex real estate fortune enlarged a cloth manufacturing business and trading venture and provided for the support and education of her sons Just how the widow Martha maneuvered within the legal constraints of her social economic and personal status forms the heart of the book s investigation Situating Martha s story within the context of Montpellier and medieval Europe more broadly Reverson's microhistorical approach illuminates the opportunities and the limits of what was possible for elite mercantile

women in the urban setting in which Martha lived Hobbes and the Law of Nature Perez Zagorin, 2009-11-16 This is the first major work in English to explore at length the meaning context aims and vital importance of Thomas Hobbes s concepts of the law of nature and the right of nature Hobbes remains one of the most challenging and controversial of early modern philosophers and debates persist about the interpretation of many of his ideas particularly his views about natural law and natural right In this book Perez Zagorin argues that these two concepts are the twin foundations of the entire structure of Hobbes s moral and political thought Zagorin clears up numerous misconceptions about Hobbes and his relation to earlier natural law thinkers in particular Hugo Grotius and he reasserts the often overlooked role of the Hobbesian law of nature as a moral standard from which even sovereign power is not immune Because Hobbes is commonly thought to be primarily a theorist of sovereignty political absolutism and unitary state power the significance of his moral philosophy is often underestimated and widely assumed to depend entirely on individual self interest Zagorin reveals Hobbes s originality as a moral philosopher and his importance as a thinker who subverted and transformed the idea of natural law Hobbes and the Law of Nature is a major contribution to our understanding of Hobbes's moral legal and political philosophy and a book rich in interpretive and critical insights into Hobbes's writing and thought Knowledge, Patents, Power Marius Buning, 2021-12-13 In Knowledge Patents Power Marius Buning tells the complex story of how the emergence of a Dutch patent regime is related to wider issues concerning governmental control and innovation Buning analyses the institutional framework in which innovative knowledge could develop in the Dutch Republic from a variety of perspectives This is not only a comprehensive study of patent law and its administrative and legal framework during the first four decades of the Dutch republic it also opens up new perspectives on a wide range of issues in cultural and political history from truth claims in early modern science to issues concerning mercantilism and Dutch seventeenth century processes of state formation

Engaging New Institutional Economics with New Testament Studies Alex Hon Ho Ip,2024-12-15 In Engaging New Institutional Economics with New Testament Studies Methods and Case Studies on Wealth Poverty Economic Relationships and Material Culture the intersection of economics and biblical scholarship takes center stage offering a groundbreaking approach to understanding the economic underpinnings of the New Testament This book explores how the vast economic landscape of the Roman Empire shaped early Christian communities delving into themes of wealth poverty and material culture through the lens of New Institutional Economics NIE The book also conducts a thorough literature review addressing a common misunderstanding rooted in the confusing use of the term economics Many scholars have narrowly assumed that economics refers exclusively to neo classical economics However this work deliberately advocates for the merits of NIE demonstrating how it offers a more nuanced framework for analyzing the economic realities of the ancient world and their impact on New Testament narratives Through detailed case studies including an analysis of wealth possession in the Gospel of Luke the book illustrates how NIE can unlock new insights into the New Testament's engagement with economic

structures Far from being merely an academic exercise this book argues that the New Testament offers profound wisdom for navigating the ethical and moral complexities of economic behavior in the modern world Scholars and readers alike will find a valuable resource for exploring the rich yet often overlooked economic dimensions of the New Testament
