## **Enacting Past And Present:**

**Enacting History** Scott Magelssen, Rhona Justice-Malloy, 2011-03-18 *Enacting History* is a collection of new essays exploring the world of historical performances. The volume focuses on performances outside the traditional sphere of theatre among them living history museums battle reenactments pageants renaissance festivals and adventure tourism destinations. This volume argues that the recent surge in such performances have raised significant questions about the need for interest in and value of such nontraditional theater. Many of these performances claim a greater or lesser degree of historical accuracy or authenticity and the authors tease out the representational and historiographic issues related to these arguments. How for instance are issues of race ethnicity and gender dealt with at museums that purport to be accurate windows into the past? How are politics and labor issues handled in local or state funded institutions that rely on volunteer performers? How do tourists expectations shape the choices made by would be purveyors of the past? Where do matters of taste or censorship enter in when reconciling the archival evidence with a family friendly mission? Essays in the collection address among other subjects reenactments of period cookery and cuisine at a Maryland renaissance festival the roles of women as represented at Minnesota's premiere living history museum Historic Fort Snelling and the Lewis and Clark bicentennial play as cultural commemoration. The editors argue that historical performances like these regardless of their truth telling claims are an important means to communicate document and even shape history and allow for a level of participation and accessibility that is unique to performance. *Enacting History* is an entertaining and informative account of the public's fascination with acting out and watching history and of the diverse methods of fulfilling this need.

**Enacting Musical Time** Mariusz Kozak, 2020 A compelling approach among works on temporality phenomenology and the ecologies of the new sound worlds. *Enacting Musical Time* argues that musical time is itself the site of the interaction between musical sounds and a situated embodied listener created by the moving bodies of participants engaged in musical activities.

**History as Re-enactment** William H. Dray, 1999 A central motif of R G Collingwood's philosophy of history is the idea that historical understanding requires a re enactment of past experience. However there have been sharp disagreements about the acceptability of this idea and even its meaning. This book aims to advance the critical discussion in three ways by analysing the idea itself further concentrating especially on the contrast which Collingwood drew between it and scientific understanding by exploring the limits of its applicability to what historians ordinarily consider their proper subject matter and by clarifying the relationship between it and some other key Collingwoodian ideas such as the place of imagination in historical inquiry the sense in which history deals with the individual the essential perspectivity of historical judgement and the importance of narrative and periodization in historical thinking. Professor Dray defends Collingwood against a good deal of recent criticism while pointing to ways in which his position requires revision or development. *History as Re enactment* draws upon a wide range of Collingwood's published writings and makes considerable use of his unpublished manuscripts. It is the most systematic study

yet of this central doctrine of Collingwood's philosophy of history and will stand as a landmark in Collingwood studies For many years William Dray has been working at the task of retrieving Collingwood for contemporary philosophy It is something of an event then to have this new work the culmination of a lifetime of thought appear in his retirement As one would expect it is a deeply considered book lucidly written and scrupulously fair to all parties a sound and serious philosophical commentary anyone interested in either Collingwood or the philosophy of history should consider joining the dialogue and will learn much in the process Canadian Journal of History

*Late Medieval Liturgies Enacted* Sally Harper, P Barnwell, Magnus Williamson, 2017-07-12 This book critically explores ways in which our understanding of late medieval liturgy can be enhanced through present day enactment It is a direct outcome of a practice led research project led by Professor John Harper and undertaken at Bangor University between 2010 and 2013 in partnership with Salisbury Cathedral and St Fagans National History Museum near Cardiff The book seeks to address the complex of ritual devotional musical physical and architectural elements that constitute medieval Latin liturgy whose interaction can be so difficult to recover other than through practice In contrast with previous studies of reconstructed liturgies enactment was not the exclusive end goal of the project rather it has created a new set of data for interpretation and further enquiry Though based on a foundation of historical musicological textual architectural and archaeological research new methods of investigation and interpretation are explored tested and validated throughout There is emphasis on practice led investigation and making the need for imagination and creativity and the fact that enactment participants can only be of the present day Discussion of the processes of preparation analysis and interpretation of the enactments is complemented by contextual studies with particular emphasis on the provision of music A distinctive feature of the work is that it seeks to understand the experiences of different groups within the medieval church the clergy their assistants the singers and the laity as they participated in different kinds of rituals in both a large cathedral and a small parish church Some of the conclusions challenge interpretations of these experiences which have been current since the Reformation In addition some consideration is given to the implications of understanding past liturgy for present day worship

**Enactments** Daniel Dervin, 1996 These models begin with analogies to the theater as arena of accepted illusion and dramatic characters as types of imposters Political processes then come into sharper focus as the leader serves as delegate for a host of popular wishes fears and agendas that extend into the unconscious and comprise a group fantasy Group fantasy not only empowers the delegate but also defines and occasionally destroys this chosen figure as well

Collingwood's The Idea of History Peter Johnson, 2012-12-27 The Idea of History is the best known work of the Oxford philosopher and historian RG Collingwood Published posthumously in 1946 it is in effect two books a historiography and a philosophy of history Students look to Collingwood for a history of thinking about history and to discover his ideas about the nature of historical understanding It is an indispensable text for historians and philosophers yet it is also highly challenging and many of Collingwood's innovations have been seriously misunderstood The primary focus of

this book is on Collingwood's actual arguments especially the most radical of these with the aim of elucidating their construction and appraising them in the clearest possible way This guide is the ideal companion to Collingwood's classic text both for students coming to it for the first time and for those wishing to consider its arguments afresh It offers clear and concise accounts of the book's composition the intellectual context of Collingwood's ideas its central arguments concerning the nature of history and its reception and influence

Structural Idealism Douglas Mann, 2006-01-01 Do we determine our actions or are our actions ruled by the structure of our society Does our culture create us or do we create our culture Within history and social theory there is a fundamental division of opinion between those who explain human action by considering the intentions reasons and motives of individuals and those who use broader social structures Structural Idealism presents a theory of social and historical explanation which argues that idealists such as Hegel who champion human agency and materialists such as Marx who support social structure have grasped but part of a larger truth The book contends that we have to explain human actions simultaneously by both the ideas human actors bring to a situation and the way in which previous actions have created social structures that condition those ideas Through this realization we can see how all forms of knowledge from the historical roots of modern philosophy to today's popular culture both condition and are conditioned by structural ideals This book challenges our perception of how cultures and ideals are formed and shows that while structural ideals allow people to co operate as they work toward goals their own or those of their community these images of perfection so easily accepted as the unalterable structure of our society can be changed and are changed by individuals Structural Idealism asks us to think beneath the surface of our society and will be of special interest to philosophers sociologists historians and cultural theorists

**Reconstruction, Replication and Re-enactment in the Humanities and Social Sciences** Sven Dupré, Anna Harris, Julia Kursell, Patricia Lulof, Maartje Stols-Witlox, 2025-10-01 Performative methods are playing an increasingly prominent role in research into historical production processes materials bodily knowledge and sensory skills and in forms of education and public engagement in classrooms and museums This book offers for the first time sustained interdisciplinary reflections on performative methods variously known as Reconstruction Replication and Re enactment RRR practices across the fields of history of science archaeology art history conservation musicology and anthropology Each of these fields has distinct histories approaches tools and research questions Researchers in the historical disciplines have used reconstructions to learn about the materials and practices of the past while anthropologists and ethnographers have more often studied the re enactments themselves

O'Brien, 2019-01-10 This volume responds to calls in visual and material cultural studies to move beyond the visual and to explore the multi sensory impact of the image across a wide range of cultural and historical contexts What does it mean to practise art history after the material and sensory turns What is an image if not a purely visual phenomenon and how does it prompt non visual sensory experiences The multi sensoriality of the image was a less challenging concept before the ocularcentric modern age and so this volume brings together a global array of scholars from multiple disciplines to ask these questions of imagery in premodern or non western contexts ranging from Minoan palace frescoes to Roman statues early church sermons tombs of Byzantine saints museum displays of Islamic artefacts of scent medieval depictions of the voice and Stuart court masques Each chapter presents a means of appreciating images beyond the visual demonstrating the new information and understanding that consequently can be gleaned from their material As a collection these chapters offer the student and scholar of art history and visual culture an array of exciting new approaches that can be applied to appreciate the multi sensoriality of images in any context as well as prompts for reflection on future directions in the study of imagery The Multi Sensory Image thus illustrates that it is not only possible to explore the non visual impact of images but imperative

**The Place of Michael Oakeshott in Contemporary Western and Non-Western Thought** Noel

O'Sullivan, 2017-08-01 The continuing growth of worldwide interest in Michael Oakeshott's philosophy and political theory has recently 2016 been marked by the publication of two Companion to Oakeshott volumes This event provides a welcome opportunity to explore the reasons for his influence both within the West and beyond it Essays by contributors from Britain Canada Hong Kong India and the USA provide a comprehensive critical assessment of the principal aspects of Oakeshott's thought that account for his contemporary relevance The unusually multi national background of the authors aims to give the volume a wide appeal extending not only to those already familiar with Oakeshott's writings but also to those as yet unfamiliar with them regardless of their cultural background All the contributors have attempted to write in a way that makes Oakeshott as accessible as possible Followership Development and Enactment among the Acholi of Uganda David

Wesley Ofumbi, 2019-07-25 The industrial era organizations used dualistic leadership theory which regarded followers as objects of leaders influence to socialize them into passive followership irrespective of context and outcome Consequently organizations focused on leadership and condemned active followership as a toxic behavior that sabotages organizational processes and outcomes However the emergence of relational leadership theory in the information era flattened organizational structure which created a greater need for collaboration within and across sectors In this new era organizations cannot survive without responsible individuals who could be productive as both leaders and followers As a

result organizations are experiencing high demand for active followership throughout organizational ranks roles and relationships Nonetheless since followership studies are still in their infancy there is hardly any information on how followers develop and enact active followership Whereas some studies established followership identity role and behaviors and identified factors influencing their development none has explored how they do so This study offers a theory of followership development and enactment anchored in a seamless paradigm that can be used to expand leadership theory beyond dualistic tendencies that absolutized the differences among leadership variables despite their seamlessness Therefore it enhances organizational desire and capacity to develop and engage star followers effectively      **Studia Phaenomenologica XI /**

**Enactment** Steven J. Ellman,Michael Moskowitz,1998-03-01 For many therapists it has replaced previous action terms such as acting in and acting out Something new has been captured by this concept a recognition of a process that may involve words but goes beyond words For some enactment addresses a continuous undercurrent in the interaction between patient and therapist in the realm of intersubjectivity Others ask whether this concept adds either clarity or a new perspective to the clinical situation This volume addresses the questions Does the current focus on enactments entail a shift in our model of therapeutic change Are enactments essential Can they be dangerous and if so under what circumstances Enactment is essential reading for all psychotherapists      Routine Dynamics Christian A. Mahringer,Brian T. Pentland,Birgit Renzl,Kathrin Sele,Paul Spee,2024-07-22 Exploring the power of routines in navigating our increasingly complex world this volume argues that routines are as much engines of change as they are of stability and that organizations are in a position to benefit from both
