Routledge Readings on Colonial to Contemporary Northeastern India Sumi Krishna, 2023-06-16 Routledge Readings on Northeastern India Colonial Encounters Customary Practices Gender Livelihoods presents some of the finest essays on a region that stretches across the Northeastern Himalaya eight Indian States and many tribal and non tribal peoples With a lucid new Introduction it covers a vast range of issues and offers a compelling guide to understanding the northeastern India from colonial and missionary encounter to contemporary security and developmental issues in South Asia

The book covers several critical themes and unravels the complexities fraught by the unique biogeography and socio political history of the region. The fifteen chapters in the volume divided into three sections examine gender, community, customary law and practices, land, agriculture, livelihoods, work, health and education. This multi disciplinary volume interweaves geography and history, culture and politics, the contested construction of identities, communities and nationalities, the political interplay of ethnicities and resource appropriation in a modernizing, globalizing economy, conflicts and violence in highly militarized spaces. It includes engaged and insightful perspectives from major authors who have contributed to the academic and or policy discourse of the subject. Routledge Readings on Northeastern India brings together a cluster of key readings to capture important research directions, policy suggestions, current trends and aspects of history and future trajectories in the humanities and social sciences. It will serve as essential reading for students, scholars, policymakers, practitioners and the general reader interested in a nuanced understanding of India's northeastern region and especially those in South Asian studies, Northeast India studies, area studies, history, politics and international relations, labour studies, conflict and peace studies, gender studies, sociology and social anthropology. Northeast India and India's Act East Policy M. Amarjeet Singh, 2019-07-05. This book offers an understanding of the expectations and challenges of Northeast India in the context of India's Act East policy. It critically examines how the policy is being pursued by the incumbent Bharatiya Janata Party led central government and analyses its relevance from local perspectives. Contributors to the book provide an examination of the differences between Look East and Act East policy and explanations of the expectations of India's neighboring countries, particularly Myanmar, towards Northeast India. They ask the following questions: a) What is to be done to integrate India's Northeast region meaningfully into the Act East policy? What is the motive of linking this policy with these states? How is this policy received by the local communities? b) What are the challenges of the Northeast region? What are their needs and priorities? How can these states showcase their potentials to Southeast Asia and East Asia? c) What is the significance of the changes from Look to Act East Policy? Has the regime change affected the continuity in the policy? What are the short and long term goals? d) What are the expectations of Southeast Asia and East Asia? By addressing these questions, they bridge the knowledge gaps that exist in the understating of the Northeast region of India vis-à-vis the Act East policy. The first book to combine a balanced view of India's Act East policy and Northeast India, it will be of interest to policy makers and academics in the fields of Development Studies, International Relations, Northeast India and South Asian Politics.
