Refounding Education: Creating Safe and Enchanted Learning Places Sylvia Boltz Tucker, 2019-08-14 Every learning space should be a safe inviting and enchanting environment Every learning space called a classroom should be safe physically emotionally socially and academically It should be a place where every learner has the opportunity to become everything they were created to be This book explores ideas about teaching and learning that allow these magical places to be created Often students come to our learning places starry eyed and curious but leave wondering who they are They need learning places that celebrate their worth that build on their curiosity and desire for exploration of their world They need learning places filled with positive energy where diverse thinking and diverse problem solving methods are valued where they are safe to disagree where they are accepted and loved They can grow in a learning space that has heart Learning spaces change our lives This book is an amalgam of ideas gathered practiced and lived over seven decades of passion for learning and teaching and the creation of these safe and enchanting learning spaces It is about the magic that learning can be It challenges much about our monopolistic education system It offers ways to reach new horizons in learning as we tap into the deep well of the human spirit and potential Space and Place in Childrens Literature, 1789 to the Present Maria Sachiko Cecire, Hannah Field, Malini Roy, 2016-03-09 Focusing on questions of space and locale in children s literature this collection explores how metaphorical and physical space can create landscapes of power knowledge and identity in texts from the early nineteenth century to the present The collection is comprised of four sections that take up the space between children and adults the representation of real world places fantasy travel and locales and the physical space of the children s book as object In their essays the contributors analyze works from a range of sources and traditions by authors such as Sylvia Plath Maria Edgeworth Gloria Anzald a Jenny Robson C S Lewis Elizabeth Knox and Claude Ponti While maintaining a focus on how location and spatiality aid in defining the child s relationship to the world the essays also address themes of borders displacement diaspora exile fantasy gender history home leaving and homecoming hybridity mapping and metatextuality With an epilogue by Philip Pullman in which he discusses his own relationship to image and locale this collection is also a valuable resource for understanding the work of this celebrated author of children s literature *The Politics of Sacred Places* Nimrod Luz, 2023-09-07 The Politics of Sacred Places is a study of the socio political dimensions of sacred sites in Israel Palestine drawing on over 20 years of in depth ethnographic research which introduces cutting edge theories on secularization struggles for recognition and diversity issues This book focuses on contemporary sacred sites and their socio political meanings for minorities within a hegemonic and a secularizing state system It argues that sacred places provide a space that is less scrutinized by the state and where alternative visions of the socio political may be produced A plethora of sites and case studies are examined including the rural shrine of Maqam abu al Hijja in the lower Galilee the Mosque of Hassan Bek in the heart of Tel Aviv Jaffa and the most disputed sacred place in the region the Haram al Sharif in Jerusalem

These sites are explored through mostly a phenomenological lens and in various contexts from the individual body to the global This book offers a critical analytical study of the socio political aspects of sacred sites in contemporary societies within the broader understanding of scale and the spatial turn in the study of religion
