Enchanted Ecstasy:

Enchanted Ecstasy Constance O'Banyon, C O'Banyon, 1984 Heretical Fictions LAWRENCE I. BERKOVE, Joseph Csicsila, 2010-04-15 Challenging the prevailing belief that Mark Twain's position on religion hovered somewhere between skepticism and outright heresy Lawrence Berkove and Joseph Csicsila marshal biographical details of Twain's life alongside close readings of his work to explore the religious faith of America's most beloved writer and humorist They conclude not only that religion was an important factor in Twain's life but also that the popular conception of Twain as agnostic atheist or apostate is simply wrong *Heretical Fictions* is the first full length study to assess the importance of Twain's heretical Calvinism as the foundation of his major works bringing to light important thematic ties that connect the author's early work to his high period and from there to his late work Berkove and Csicsila set forth the main elements of Twain's countertheological interpretation of Calvinism and analyze in detail the way it shapes five of his major books *Roughing It* *The Adventures of Tom Sawyer* *Adventures of Huckleberry Finn* *A Connecticut Yankee in King Arthur's Court* and *No. 44 The Mysterious Stranger* as well as some of his major short stories The result is a ground breaking and unconventional portrait of a seminal figure in American letters

The Art of Losing Control Jules Evans, 2017-04-25 Since the Enlightenment western culture has written off ecstatic experience as a form of mental illness But why should rationality be considered the highest part of human nature when we are capable of so many more states of experience Piecing together interviews analysis of ancient and modern philosophy and his own eclectic encounters with the sublime philosopher Jules Evans mounts an investigation into what we can gain from mastering the art of losing control From Aristotle and Plato to the Bishop of London and Sister Bliss radical jihadis to Silicon Valley transhumanists *The Art of Losing Control* is a funny life enhancing journey that will change the way you think about how you feel *Harper's New Monthly Magazine*, 1899 **The English Review** Ford Madox Ford, 1917

The Wisdom of Mental Illness Jez Hughes, 2021-11-09 This book explores how the ancient path of shamanism can help us to understand the nature of mental illness recasting psychological breakdown as a potentially transformational experience What we label as pathological could actually be an initiation into a better relationship with ourselves and the world Written for those who are experiencing or who have experienced mental illness or whose loved ones are going through such episodes or who are mental wellbeing practitioners this is a guide to the potentially transformational experience of that which we label mental illness It explores the ancient concept of the shamanic sickness whereby the prospective shaman underwent many years of mental distress as part of their initiation and looks at what this can teach us about mental health It argues that in some cases what we seek to medicate could actually be a calling to a path of service and healing The book also explores our cultural biases around mental illness What we define as pathological many cultures see as a sign of being inspired and in touch with greater powers It looks at our uneasy relationship with altered states of consciousness and how these might hold the key to healing many symptoms of mental illness Finally it looks at how we as

species have come out of balance in our relationship to nature and the devastating affect this is having on our mental health By learning from ancient indigenous cultures who have remained in balance with the natural world this book looks at solutions to heal this modern imbalance and find a way forward for the Earth and ourselves **Deafening Silence** Aliya Siddiqui, 2025-01-10 In this book *Deafening Silence* the raw edges of the human experience are laid bare through verses that explore the depths of suffering torment and pain Each poem is a window into a soul grappling with despair a voice struggling to be heard amidst the chaos of inner turmoil From the darkest corners of the mind to the fragile moments of fleeting hope these poems capture the essence of what it means to endure This collection is a journey through the shadows where every line bleeds with emotion and every stanza reflects the echoes of a heart in anguish Whether you are seeking solace shared suffering or simply wish to witness the beauty that can emerge from pain *Deafening Silence* offers a haunting yet profoundly moving exploration of the human condition Prepare to be captivated challenged and ultimately changed by the powerful words within these pages **Filthy Material** Chris Forster, 2019 Modernist literature is inextricable from the history of obscenity The trials of figures like James Joyce D H Lawrence and Radclyffe Hall loom large in accounts twentieth century literature *Filthy Material* Modernism and The Media of Obscenity reveals the ways that debates about obscenity and literature were shaped by changes in the history of media Judgments about obscenity which hinged on understanding how texts were circulated and read were often proxies for the changing place of literature in an age of new technological media The emergence of film photography and new printing technologies shaped how literary value was understood altering how obscenity was defined and which texts were considered obscene *Filthy Material* rereads the history of obscenity in order to discover a history of technological media behind debates about moral corruption and sexual explicitness The shift from the intense censorship of the early twentieth century to the effective end of obscenity for literature at the middle of the century it argues is not simply a product of cultural liberalization but of a changing media ecology *Filthy Material* brings together media theory and archival research to offer a fresh account of modernist obscenity and novel readings of works of modernist literature It sheds new light on figures at the center of modernism s obscenity trials such as Joyce and Lawrence demonstrates the relevance of the discourse obscenity to understanding figures not typically associated with obscenity debates like T S Eliot and Wyndham Lewis and introduces new figures to our account of modernism like Norah James and Jack Kahane It reveals how modernist obscenity reflected a contest over the literary in the face of new media technologies **Poetry** Harriet Monroe, 1917 **Crossings** John Sallis, 1991-04-09 Boldly contesting recent scholarship Sallis argues that *The Birth of Tragedy* is a rethinking of art at the limit of metaphysics His close reading focuses on the complexity of the Apollinian Dionysian dyad and on the crossing of these basic art impulses in tragedy Sallis effectively calls into question some commonly accepted and simplistic ideas about Nietzsche s early thinking and its debt to Schopenhauer and proposes alternatives that are worth considering Richard Schacht Times Literary Supplement **To Re-Enchant the World** Richard

Grigg,2004-12-20 Since the seventeenth century Western culture has been undergoing what historians and sociologists call secularization the process via which religious institutions lose more and more of their power in society Whereas Western society was once held together by the Christian Church it is now held together by the rational procedures dictated by modern capitalism But the rules of capitalism whether ultimately helpful or harmful to our society s development are not values or spiritual principles Instead they are simply technical dicta about the most efficient means to an economic end One visible aspect of the process of secularization is the weakening and perhaps eventual withering away of traditional religious institutions This process is already fully visible in Western Europe and is evident on a more subterranean level in American society as well Secularization threatens to disenchant the world Max Weber to cut us off from the sense of the sacred and of Mystery But the withering of the old religious institutions does not mean that religion and spirituality themselves will simply disappear Rather they can take on new forms as is evident in the New Age movement in American society Yet there is a difficulty with New Age sorts of spiritualities when compared with the old time religion these new spiritualities tend to be very individualistic if not idiosyncratic Sociologists point out that our spiritual practices will never appear fully real to us unless they have inter subjective validity unless they are supported by a social plausibility structure Peter Berger That is my view of the world has the aura of reality as long as most of the people around me acknowledge that view and reinforce it But individualistic New Age pieties seem to have no such social reinforcement underpinning them Hence the central argument of To Re Enchant the World the Unitarian Universalist community accomplishes the unique task of re enchanting the world by bringing a host of individual spiritualities into a single community where all of them are affirmed and thus granted social plausibility The U U community then is a particularly powerful site for the re enchantment of the world it puts us back in touch with the sacred and with what the book labels the Mysterious Depth of reality While Unitarian Universalists can bring many different spiritual ways into the U U community five are analyzed in depth in the book namely humanism a focus on nature engagement with the arts commitment to social justice and devotion to a Source Creative Abyss of the universe The book also considers rituals common to the U U community and the experience of sacred space sacred time and sacred word in that community Finally To Re Enchant the World makes some predictions about the future of Unitarian Universalism and even touches on the delicate issue of U U proselytizing The book as a whole attempts to present a philosophical analysis of Unitarian Universalism that draws upon the most important intellectual currents in contemporary Western culture The book operates with the conviction that while other American religious denominations can have their systematic theologies there is no reason why Unitarian Universalists cannot have philosophies of U U pluralism **Three Novel Nymphs** Piers

Tragedies Israel Zangwill, 1907 Gift of Rabbi W Gunther Plaut Transpersonal Psychology in Psychoanalytic Perspective

Michael Washburn, 1994-01-01 In this book Michael Washburn provides a psychoanalytic foundation for transpersonal psychology Using psychoanalytic theory Washburn explains how ego development both prepares for and creates obstacles to ego transcendence Spiritual development he proposes can be properly understood only in terms of the ego development that precedes it For example many difficulties encountered in spiritual development can be traced to repressive underpinnings of ego development and significant gender differences in spiritual development can be traced to corresponding gender differences that emerge during ego development Washburn draws on a wide range of psychoanalytic perspectives in discussing ego development and uses both Eastern and Western sources in discussing spiritual development In rethinking transpersonal psychology in psychoanalytic terms he explains how essential elements of Jungian thought can be grounded in psychoanalytic theory **Empire de L'éphémère** Gilles Lipovetsky, 2002-07-21 This text draws on the history of fashion to demonstrate that the modern cult of appearance and superficiality actually serves the common good It argues that mass produced fashion offers many choices which in turn enable consumers to become complex individuals within a consolidated society

The Indicted South Angie Maxwell, 2014-04-15 By the 1920s the sectional reconciliation that had seemed achievable after Reconstruction was foundering and the South was increasingly perceived and portrayed as impoverished uneducated and backward In this interdisciplinary study Angie Maxwell examines and connects three key twentieth century moments in which the South was exposed to intense public criticism identifying in white southerners responses a pattern of defensiveness that shaped the region's political and cultural conservatism Maxwell exposes the way the perception of regional inferiority confronted all types of southerners focusing on the 1925 Scopes trial in Dayton Tennessee and the birth of the anti evolution movement the publication of I'll Take My Stand and the turn to New Criticism by the Southern Agrarians and Virginia's campaign of Massive Resistance and Interposition in response to the Brown v Board of Education decision Tracing the effects of media scrutiny and the ridicule that characterized national discourse in each of these cases Maxwell reveals the reactionary responses that linked modern southern whiteness with anti elitism states rights fundamentalism and majoritarianism *A New Dictionary of the Portuguese and English Languages ...* Henriette Michaelis, 1923 A New Dictionary of the Portuguese and English Languages: Portuguese-English Henriette Michaelis, 1905 **New Dictionary of the Portuguese and English Languages** Henriette Michaelis, 1893 **Duino Elegies, Deluxe Edition** Rainer Maria
