Enchantment Thorsten Benkel, Thomas Klie, Matthias Meitzler, 2020-11-16 The culture of burial and mourning is presently in a state of flux The idea of using the cremated remains of loved ones to form jewelry no longer belongs to the

realm of science fiction but has become a fact of modern life Today many countries are open to allowing the ashes of the dead to be turned into ornamental objects Technically this produces remembrance artifacts representing the dead The new aspect is that the mortal remains continue to exist after death in the form of such an artifact for which previous burial culture has no precedent How do such ash diamonds figure into the mourning process How do relatives deal with this phenomenon What is the role of esthetics How does the social environment react to this metamorphosis And does this represent the renewal of the idea of relics This book is based on interviews held with persons who decided to go this route of remembering their deceased loved ones The authors also visited the production facilities of these precious stones talked with experts about the process and attended the delivery rituals In addition to practical theological and sociological assessments the volume includes case studies that provide a forum for those concerned to voice their opinions

All's Well, That Ends Well
William Shakespeare, 2001 Described as one of Shakespeare's most intriguing plays *All's Well That Ends Well* has only recently begun to receive the critical attention it deserves Noted as a crucial point of development in Shakespeare's career this collection of new essays reflects the growing interest in the play and presents a broad range of approaches to it including historical feminist performative and psychoanalytical criticisms In addition to fourteen essays written by leading scholars the editor's introduction provides a substantial overview of the play's critical history with a s

God and Enchantment of Place David Brown, 2004-10-14 David Brown argues for the importance of experience of God as mediated through place in all its variety He explores the various ways in which such experiences once formed an essential element in making religion integral to human life and argues for their reinstatement at the centre of theological discussions about the existence of God In effect the discussion continues the theme of Brown's two much praised earlier volumes *Tradition and Imagination* and *Discipleship and Imagination* in its advocacy of the need for Christian theology to take much more seriously its relationship with the various wider cultures in which it has been set In its challenge to conventional philosophy of religion the book will be of interest to theologians and philosophers and also to historians of art and culture generally

The Uses of Enchantment Bruno Bettelheim, 2010-05-11 Winner of the National Book Award and National Book Critics Circle Award A charming book about enchantment a profound book about fairy tales John Updike The New York Times Book Review Bruno Bettelheim was one of the great child psychologists of the twentieth century and perhaps none of his books has been more influential than this revelatory study of fairy tales and their universal importance in understanding childhood development Analyzing a wide range of traditional stories from the tales of Sindbad to The Three Little Pigs Hansel and Gretel and The

Sleeping Beauty Bettelheim shows how the fantastical sometimes cruel but always deeply significant narrative strands of the classic fairy tales can aid in our greatest human task that of finding meaning for one's life **All's well that ends well** William Shakespeare, 1887 **Technologies of Enchantment?** Duncan Garrow, Chris Gosden, 2012 This volume connects Celtic art to its archaeological context looking at how it was made used and deposited Based on a comprehensive database it brings together current theories concerning the links between people and artefacts arguing that Celtic art was used to negotiate social position and relations in an unstable Iron Age world **School Reform and the Arts of Re-enchantment** David Kalim Diehl, 2011 Disenchantment has been a consistent trope in sociology since Weber's appropriation of the term nearly a century ago In this work I argue that in contrast to the standard modernization story organizations have long been subject to countervailing forces other than that of rationalization This has been especially true in schools institutions that exist at the intersection of the logics of bureaucracy democracy and expressive youth cultures In this dissertation I identify a uniquely contemporary organizational response to these tensions one I associate with the notion of re-enchantment I use this term to refer to reforms that identify emotional and intellectual alienation as the primary institutional problems to be overcome and find a solution in the reinvigoration of organizational practices with imagination creativity and collaboration The result is a genre of reform that accepts the logic of standardized and rationalized outcomes but attempts to transform the process of achieving these goals by re-enchanting organizational experience with a sense of connectedness and creativity In this dissertation I discuss small school reform generally and a particular instance of it at Mill Town high specifically as examples of organizational re-enchantment More than just introducing new practices or structures small school reform entails an effort to reshape the tactic and practical modes of coordination what I call ways of being These are social conventions that allow actors to coordinate with each other and their environment in a way that is grounded in a shared practical understanding of the proper ordering of people and things In contrast to standard account that locate the barrier to change in the minds of organizational actors utilizing a mixed methods approach I show that much of the failure of the reform at Mill Town was not the result of beliefs attitudes or values of teachers but rather concerned the complexity of changing culturally disposed and intersubjectively sustained modes of coordination in the organization As you like it.
