Remedios naturales para aumentar la testosterona Stephen Harrod Buhner,2017-08-29 C mo mantener los niveles ptimos de testosterona en el hombre mediante el uso de hierbas suplementos nutricionales y la alimentaci n Revela pruebas cient ficas sobre agentes ambientales que bloquean la testosterona y que alteran el funcionamiento qu mico del cuerpo masculino en la medida en que este envejece Presenta medicinas herbarias org nicas y seguras que pueden restablecer los niveles ptimos de testosterona Contiene los tratamientos naturales m s recientes para tratar la impotencia la infertilidad y las disfunciones de pr stata La identificaci n de la andropausia la etapa que ocurre durante la madurez en los hombres y que es comparable a la menopausia femenina se ve obstaculizada por la falta de una clara manifestaci n externa en la qu mica y fisiolog a propias de los individuos de edad avanzada Los hombres son capaces de fecundar m s all de la edad madura Sin embargo su deseo y potencia sexual var an a menudo de acuerdo con su nivel de testosterona Estudios recientes muestran que los bajos niveles de testosterona prevalentes en varones de edad avanzada un descenso gradual que es bastante normal se ven agravados por elementos del medio ambiente Pero como indican investigaciones m dicas recientes la terapia de reemplazo de testosterona

con dosis bajas de la hormona no es una opción adecuada porque aumenta el riesgo de problemas cardiovasculares como el infarto del miocardio o derrames cerebrales y además porque el cuerpo puede hacerse dependiente de la testosterona farmacológica y dejar de producirla por sí mismo. En este libro Stephen Harrod Buhner muestra por qué los hombres necesitan ayuda para mantener los niveles de testosterona a medida en que envejecen y explica cómo fitoandrogénos naturales (plantas medicinales que contienen hormonas masculinas) pueden corregir sin riesgos la disminución de testosterona que ejerce el medio ambiente. Buhner detalla cómo funciona cada fitoandrogénico cuando puede usarse y el método más apropiado de empleo de forma que proporcione a todos los hombres medios seguros naturales y eficaces que conserven sus niveles óptimos de testosterona hasta bien entrada la tercera edad.
