**Phenomenology for Therapists** Linda Finlay, 2011-08-08 This book provides an accessible comprehensive exploration of phenomenological theory and research methods and is geared specifically to the needs of therapists and other health care professionals An accessible exploration of an increasingly popular qualitative research methodology Explains phenomenological concepts and how they are applied to different stages of the research process and to topics relevant to therapy practice Provides practical examples throughout      Phenomenology and the Extreme Sport Experience Eric Brymer, Robert Schweitzer, 2017-03-27 Understanding the motivations behind those who partake in extreme sports can be difficult for some If the popular conception holds that the incentive behind extreme sports participation is entirely to do with risking one's life then this confusion will continue to exist However an in depth examination of the phenomenology of the extreme sport experience yields a much more complex picture This book revisits the definition of extreme sports as those activities where a mismanaged mistake or accident would most likely result in death Extreme sports are not necessarily synonymous with risk and participation may not be about risk taking Participants report deep inner transformations that influence world views and meaningfulness feelings of coming home and authentic integration as well as a freedom beyond the everyday Phenomenologically these experiences have been interpreted as transcendent of time other space and body Extreme sport participation therefore points to a more potent life enhancing endeavour worthy of further investigation This book adopts a broad hermeneutic phenomenological approach to critique the assumed relationship to risk taking the death wish and the concept of No Fear in extreme sports and repositions the experience in a previously unexplored manner This is valuable reading for students and academics interested in Sports Psychology Social Psychology Health Psychology Tourism Leisure Studies and the practical applications of phenomenology      **The SAGE Handbook of Interview Research** Jaber F. Gubrium, 2012-02-14 The complete handbook on interviewing the Second Edition deals with conceptual and methodological challenges to interviewing in addition to the nuts and bolts of the interview process      **Hermeneutic Phenomenology in Education** Norm Friesen, Carina Henriksson, Tone Sævi, 2012-09-05 Hermeneutic phenomenology is a combination of theory reflection and practice that interweaves vivid descriptions of lived experience phenomenology together with reflective interpretations of their meanings hermeneutics This method is popular among researchers in education nursing and other caring and nurturing practices and professions Practical and adaptable it can be at the same time poetic and evocative As

this collection shows hermeneutic phenomenology gives voice to everyday aspects of educational practice particularly emotional embodied and empathic moments that may be all too easily overlooked in other research approaches By explicating illustrating and demonstrating hermeneutic phenomenology as a method for research in education specifically this book offers an excellent resource for beginning as well as more advanced researchers

**The PhD Experience in African Higher Education** John Mashayamombe,Ruth Murambadoro,uMbuso weNkosi,2022-11-08 The PhD Experience in African Higher Education edited by Ruth Murambadoro John Mashayamombe and uMbuso weNkosi addresses the growing call to invest in the humanities and social sciences by exploring the nature of doctoral training in select institutions of higher learning in South Africa In the past two decades South Africa has become a key player in the global higher education landscape and dubbed the hub for doctoral training in Africa because of its developed educational infrastructure and highly ranked universities Given South Africa s positioning the contributors in this volume argue that the government donors universities and faculty have a socio legal duty to ensure that doctoral programs in the humanities and social sciences are not offered to amass numbers of African graduates but are grounded on equipping students with both hard and soft skills necessary to succeed This is achieved by offering skills training and research apprenticeships fostered in communities of practice because as the contributors show the humanities and social sciences are the backbone of society Furthermore they argue that treating doctoral candidates as equal partners is emancipatory because intellectual projects are best nurtured through collaborative learning

By strange lands I mean those relationships teams organizations or foreign lands within which we must deal effectively with new peoples cultures places and technologies Increasingly we confront these lands abroad on global assignments for multinationals in foreign study or intercultural marriage or even as tourists We encounter them face to face or online as we participate more and more in geographically dispersed teams And of course we encounter them at home every time we wander into our culturally diverse office classroom or bar Presence in Strange Lands focuses most significantly on those literal new lands encountered on sojourns abroad though it deals significantly with these others as well Why do we journey to such lands That in a nutshell is what this book is about In spite of ecoshock frustration fatigue failure and sometimes danger what lures we sojourners from home to the road What causes us to journey to these strange lands for an assignment a career or a lifetime What keeps us there And what entices us back there again and again the job the money the adventure the people and cultures we find the challenges we encounter the stories we can later tell That is what this book is about It is also about the tools we need to take with us to be optimally effective in these lands But most particularly it explores the experience of a sense of presence the heightened immediacy broad awareness vividness responsivity and clarity so commonly described by sojourners on these journeys It explores what a sense of presence is what induces it what nurtures it and its key role in helping us deal with the challenges to success encountered in these lands It introduces the presence seekers sometimes presence junkies for whom a heightened presence is the allure of a life on the road And it describes what happens as we return to that once familiar land we called home Presence in Strange Lands unfolds through the words of numerous sojourners on a broad variety of journeys to very diverse lands an excerpt from one such opens this prospectus These descriptions of a sense of presence were elicited through several research projects with methodologies ranging from informal interviews to focus groups to web based forums They are intertwined with interpretation based on current research and theory to guide readers to a better understanding of their own experiences and to better deal with the challenges encountered in their own strange lands

**Love's Pilgrimage** Grace Tiffany,2006 In Love's Pilgrimage Grace Tiffany explores literary adaptations of the Catholic pilgrimage in the Protestant poetry and prose of Edmund Spenser William Shakespeare John Donne John Milton and John Bunyan Her discussion of these authors works illuminates her larger claim that while in the sixteenth century conventional pilgrimages to saints shrines disappeared as did shrines themselves from English life the imaginative importance of the pilgrimage persisted and manifested itself in various ways in English culture

chaplains patients and relatives Describing the messiness uncertainties and paradoxes that are part and parcel of living through an advanced illness dying and bereavement but also what helps and heals it reviews a range of responses to the challenges to patients and carers and the support both personal and organisational Life to be Lived is essential reading for professionals and trained volunteers who work as a part of multidisciplinary teams in palliative and end of life care to improve their understanding of the attitudes and behaviour of patients and carers Families and friends will also benefit from this book as they try to come to terms with their own situations and how they can cope better with them      **General**

**Catalogue of Printed Books** British Museum. Department of Printed Books,1968      Prophets of the Posthuman Christina Bieber Lake,2013-09-30 Prophets of the Posthuman provides a fresh and original reading of fictional narratives that raise the question of what it means to be human in the face of rapidly developing bioenhancement technologies Christina Bieber Lake argues that works by Nathaniel Hawthorne Walker Percy Flannery O Connor Toni Morrison George Saunders Marilynne Robinson Raymond Carver James Tiptree Jr and Margaret Atwood must be reevaluated in light of their contributions to larger ethical questions Drawing on a wide range of sources in philosophical and theological ethics Lake claims that these writers share a commitment to maintaining a category of personhood more meaningful than that allowed by utilitarian ethics Prophets of the Posthuman insists that because technology can never ask whether we should do something that we have the power to do literature must step into that role Each of the chapters of this interdisciplinary study sets up a typical ethical scenario regarding human enhancement technology and then illustrates how a work of fiction uniquely speaks to that scenario exposing a realm of human motivations that might otherwise be overlooked or simplified Through the vision of the writers she discusses Lake uncovers a deep critique of the ascendancy of personal autonomy as America s most cherished value This ascendancy coupled with technology s glamorous promises of happiness helps to shape a utilitarian view of persons that makes responsible ethical behavior toward one another almost impossible Prophets of the Posthuman charts the essential role that literature must play in the continuing conversation of what it means to be human in a posthuman world
