Encounter With Anthropology:

Anthropology & the Colonial Encounter Talal Asad, 1973 The papers in this book analyse and document ways in which anthropological thinking and practice have been affected by British colonialism They approach this topic from different points of view and at different levels Each stands as an original contribution to an argument which is only just beginning

Encounter With Anthropology Robin Fox, This volume is at once an introduction to anthropology an account of a personal odyssey and a call for action Acknowledged as one of anthropology s most brilliant practitioners Robin Fox shows in a series of linked essays on such topics as race evolution sex marriage language and witchcraft and the range potential and inherent weaknesses of anthropology as a science The author offers a view of the human side of anthropology as well as its ruthlessly professional side a side he characterizes as so obsessed with field work and obsolete ideology that it is failing its task of exploring human nature

Being There John Borneman, Abdellah Hammoudi, 2009 In recent decades anthropologists have learned to think of themselves as prisoners of text In the new orthodoxy ethnography is best viewed as a certain kind of literary genre textual criticism provides a master theory for understanding all manner of social and cultural phenomena and young anthropologists show a reluctance to leave the comfort zone of the archive and the library where whatever else happens no unruly interlocutor is going to do something unseemly like answering back This brilliant and humane volume promises to put paid to all that Anthropology is the product of an encounter with the world we call fieldwork and fieldwork is an edgy business in which researchers necessarily put themselves at intellectual political and ethical risk This volume restores that edgy business to the heart of our concerns and reminds anthropologists that their distinctive way of engaging the world can be the source of real intellectual excitement and as worthy of sophisticated theoretical reflection as anything they do Jonathan Spencer University of Edinburgh

Being Changed by Cross-Cultural Encounters David Earl Young, David E Young, Jean-Guy Goulet, 1994 Annotation Personal Encounters Linda S. Walbridge, April Kay Sievert, 2003 This reader offers 31 original articles each of which centers on the encounters between an anthropologist and a person from whom the anthropologist has learned something about another culture In telling the stories of specific individuals the anthropologist can address a current topic in anthropology by situating it vividly within the lives and worlds of people in a variety of cultural settings

ENCOUNTER OF ANTHROPOLOGY ENCOUNTER WITH ANTHROPOLOGY. ROBIN. FOX, 1975 A STUDY OF INDIGENOUS SOCIETIES Anthropology & the Colonial Encounter Talal Asad, 1998 We have been reminded time and again by anthropologists of the ideas and ideals of the Enlightenment in which the intellectual inspiration of anthropology is supposed to lie But anthropology is also rooted in an unequal power encounter between the West and the Third World which goes back to the emergence of bourgeois Europe an encounter in which colonialism is merely one historical moment It is this encounter that gives the West access to cultural and historical information about the societies it has progressively dominated and thus not only generates a certain kind of universal understanding but also reenforces the inequalities in capacity

between the European and the non European worlds and derivatively between the Europeanized elites and the traditional masses in the Third World from the Introduction The chapters in this book analyze and document ways in which anthropological thinking and practice have been affected by British colonialism They approach this topic from different points of view and at different levels Each stands as an original contribution to an argument which is only just beginning

Personal Encounters Linda S. Walbridge, April K. Sievert, The Routledge Companion to Practicing Anthropology and Design Jenessa Mae Spears, Christine Z Miller, 2024-11-29 The Routledge Companion to Practicing Anthropology and Design provides a comprehensive overview of the history of the relationship between these two fields and their current state outlining key concepts and current debates as well as positing directions for future practice and research Bringing together original work from a diverse group of established and emerging professionals this volume joins a wider conversation about the trajectory of this transdisciplinary movement inspired by the continuing evolution of anthropology and design as they have adapted to accelerating and unpredictable conditions in arenas that span sectors economies socio cultural groups and geographies It homes in on both the growing convergence and tensions between them while exploring how individuals from both fields have found ways of mixing experimenting and evolving theory and new forms of practice highlighting the experimental theories and practices their transdisciplinarity has generated The Routledge Companion to Practicing Anthropology and Design is a valuable reference tool for practitioners scholars and upper level students in the fields of anthropology and design as well as related disciplines

Extraordinary Encounters Katherine Smith, James Staples, Nigel Rapport, 2015-03-01 Given the anthropological focus on ethnography as a kind of deep immersion the interview poses theoretical and methodological challenges for the discipline This volume explores those challenges and argues that the interview should be seen as a special productive site of ethnographic encounter a site of a very particular and important kind of knowing In a range of social contexts and cultural settings contributors show how the interview is experienced and imagined as a kind of space within which personal biographic and social cues and norms can be explored and interrogated The interview possesses its own authenticity therefore true to the persons involved and true to their moment of interaction whilst at the same time providing information on human capacities and proclivities that is generalizable beyond particular social and cultural contexts

Anthropological Lives Virginia R Dominguez, Brigitte M. French, 2020-05-15 Anthropological Lives introduces readers to what it is like to be a professional anthropologist It focuses on the work anthropologists do the passions they have the way that being an anthropologist affects the kind of life they lead The book draws heavily on the experiences of twenty anthropologists interviewed by Virginia R Dominguez and Brigitte M French as well as on the experiences of the two coauthors Many different kinds of anthropologists are represented and the book makes a point of discussing their commonalities as well as their differences Some of the anthropologists included work in the academy some work outside the academy and some work in institutions like museums Included are cultural anthropologists linguistic

Social Experience and Anthropological Knowledge Kirsten Hastrup, Peter Hervik, 2003-12-16 Anthropology poses an explicit challenge to standard notions of scientific knowledge It claims to produce genuine insights into the workings of culture in general on the basis of individual social experience in the field Social Experience and Anthropological Knowledge traces the process from the ethnographic experience to the analytical results showing how fieldwork enables the ethnographer to arrive at an understanding not only of culture and society but also of the processes by which cultures and societies are transformed The contributors challenge the distinction between subjectivity and objectivity redefine what we should mean by empirical and demonstrate the complexity of present day epistemological problems through concrete examples By demystifying subjectivity in the ethnographic process and re-emphasizing the vital position of fieldwork they do much to renew confidence in the anthropological project of comprehending the world *The Challenge of Anthropology* Robin Fox, 1994-01-01 The Challenge of Anthropology is a companion to Robin Fox's highly successful Encounter with Anthropology Fox illustrates how anthropology must constantly learn from the natural and behavioral sciences The Challenge of Anthropology takes the author's own work as a barometer of the state of discipline and shows the range of possibilities anthropology offers Fox covers a vast array of topics the psychology of aggression war and ideology Frazer and Virgil social complexity kinship and marriage prejudice and cognition mythology and Marxism among others **The Minority**
