John Bradley

Encounters With Hirshima Making Sense Of The Nuclear Age:

Nagasaki Spirits, Hiroshima Voices Walter Enloe, Randy Morris, 2003 **Art and Activism in the Nuclear Age** Roman Rosenbaum, Yasuko Claremont, 2023-05-12 This book explores the contemporary legacy of Hiroshima and Nagasaki following the passage of three quarters of a century and the role of art and activism in maintaining a critical perspective on the dangers of the nuclear age It closely interrogates the political and cultural shifts that have accompanied the transition to a nuclearised world Beginning with the contemporary socio political and cultural interpretations of the impact and legacy of the destruction of Hiroshima and Nagasaki the chapters examine the challenges posed by committed opponents in the cultural and activist fields to the ongoing development of nuclear weapons and the expanding industrial uses of nuclear power It explores how the aphorism that all art is political is borne out in the close relation between art and activism This multi disciplinary approach to the socio political and cultural exploration of nuclear energy in relation to Hiroshima Nagasaki via the arts will be of interest to students and scholars of peace and conflict studies social political and cultural studies fine arts and art and aesthetic studies **The Age of Hiroshima** Michael D. Gordin, G. John Ikenberry, 2020-01-14 A multifaceted portrait of the Hiroshima bombing and its many legacies On August 6 1945 in the waning days of World War II the United States dropped an atomic bomb on the Japanese city of Hiroshima The city's destruction stands as a powerful symbol of nuclear annihilation but it has also shaped how we think about war and peace the past and the present and science and ethics The Age of Hiroshima traces these complex legacies exploring how the meanings of Hiroshima have reverberated across the decades and around the world Michael D Gordin and G John Ikenberry bring together leading scholars from disciplines ranging from international relations and political theory to cultural history and science and technology studies who together provide new perspectives on Hiroshima as both a historical event and a cultural phenomenon As an event Hiroshima emerges in the flow of decisions and hard choices surrounding the bombing and its aftermath As a phenomenon it marked a revolution in science politics and the human imagination the end of one age and the dawn of another The Age of Hiroshima reveals how the bombing of Hiroshima gave rise to new conceptions of our world and its precarious interconnectedness and how we continue to live in its dangerous shadow today *James B. Conant: Harvard to Hiroshima and the Making of the Nuclear Age* James Hershberg, 2019-07-31 James B Conant 1893 1978 was one of the titans of mid 20th century American history attaining prominence and power in multiple fields Usually remembered as an educational leader he was president of Harvard University for two tumultuous decades from the Depression to World War II to the Cold War and McCarthyism To take that job he gave up a scientific career as one of the country's top chemists and he left it twenty years later to become Eisenhower's top diplomat in postwar Germany Hershberg's prize winning study however examines a critical aspect of Conant's life that was long obscured by government secrecy his pivotal role in the birth of the nuclear age During World War II as an advisor to Roosevelt and then Truman on the elite Interim Committee that considered

how to employ the bomb against Japan Conant was intimately involved in the decisions to build and use the atomic bomb During and after the Manhattan Project he also led efforts to prevent a postwar nuclear arms race between the United States and the Soviet Union that he feared threatened the survival of civilization an apocalyptic prospect he glimpsed in the first instant of the new age when he witnessed the first test of the new weapon at Alamogordo on July 16 1945 a vivid inquiry a model of historiography evocative reading Conant was central to atomic policy and progress the bomb would be as much Conant's as it was anyone's in Government His inner response to that burden responsibility has long been obscured but it is illuminated here Philip Morrison The New York Times Book Review In his splendid portrait of Conant James Hershberg has illuminated the life of a pivotal figure in the making of U S nuclear scientific educational and foreign policy for almost a half century But the book is much more It is not only an insightful narration of Conant's life it is also a brilliant and important account of the making of the nuclear age a chronicle that contains much that is new Hershberg's superb study is a chronicle of Conant's moral journey and we are the wiser for his having charted Conant's path S S Schweber Washington Post Book World James G Hershberg ably comes to grips with Conant and his hazardous times His book is vibrantly written and compelling and it breaches Conant's shield of public discretion in masterly fashion making extensive use of unpublished interviews diaries reports and correspondence pried from private and governmental repositories It is a huge ambitious work a history of the Cold War as Conant encountered it as well as a study of the man Daniel J Kevles The New Yorker a well written comprehensive nonjudgmental but sensitive biography Conant was involved in so many and such critical events that students of almost any aspect of our public life over the past half century will find useful the new material and helpful insights in this book This fine biography of one of the most important and complicated of America's twentieth century leaders immediately establishes James Hershberg as one of America's outstanding young historians Stephen E Ambrose Foreign Affairs magnificent Any reader interested in nuclear weapons Cold War history or American politics from FDR to JFK will find this biography riveting Priscilla McMillan Chicago Tribune masterful The prose is clear the narrative forceful and the author's judgments are balanced and judicious This is simply splendid biography The highest praise one can give for a book of this sort is that the historian has not shrunk from speaking truth to power This book quietly but insistently does so It should be read by the public at large as one of the definitive texts on the cold war and the nuclear age Hershberg's triumph is that he has prevailed over all the official lies to give us one more layer of the historical truth Kai Bird The Nation riveting an impressive achievement honest and comprehensive in its scholarship the author has shown himself to be a historian of notable achievement and promise McGeorge Bundy Nature Hershberg's outstanding balanced biography lifts the self imposed secrecy surrounding a key architect of U S Cold War policy and of the nuclear age Publisher's Weekly an impressive and substantial achievement Hershberg has used the life of one strategically placed individual to illuminate the most important issues surrounding America's role and conduct in the nuclear age His book will be invaluable to scholars assessing

the impact and legacy of the group who acquired the epithet wise men now that the Cold War has receded Carol S Gruber Science definitive a far more textured picture than one finds in Conant s own guarded and unrevealing autobiography an important and rewarding book illuminating Conant led a remarkable and eventful life in remarkable and eventful times James Hershberg has explored that life and those times in exhaustive and revealing detail Paul Boyer The New Republic James G Hershberg has achieved the impossible He has written a huge biography of a Harvard president that is fascinating informative and as valuable a piece of American history as anything I have read in years Mr Hershberg has brought us back vividly to an age that seems remote so long ago but the questions about nuclear proliferation are the same even while the answers are still ambiguous As we watch men struggling with unanticipated post Cold War problems and civil wars sprouting like Jason s men at arms it is good to read this story about a complex man who deserves an important place in our history because he helped make that history possible Arnold Beichman The Washington Times engrossing A magisterial study of an awesome and intriguing public career Kirkus Reviews entertaining thought provocative Dick Teresi The Wall Street Journal Hershberg s book helps us more clearly understand the postwar Establishment and offers a challenging appraisal of the role of elites of universities and of the state Gar Alperovitz In These Times Hershberg deserves great credit for cracking a tough New England walnut analyzing this very important public figure demonstrating how he fit into his own time and showing us what we can learn from the man Daniel R Mortensen The Friday Review of Defense Literature a compelling account an engaging examination of one of the central figures of the nuclear age It succeeds in showing one man s intersection with great events and issues and in the process illuminates those issues for us all American Historical Review well written Conant s participation in one of our country s most dynamic periods is thanks to Hershberg now much better understood Library Journal A reader of the book will enter the realm of the greats the shapers of worlds created by the atomic blasts at Hiroshima and Nagasaki Conant was no bit player in Cold War history the book is very successful in weaving Conant s subsurface persona in with his ups and downs as a prominent and committed public figure And it leaves out little detail in describing top level decisions involving the Cold War geopolitics of nuclear weaponry Conant was a participant in most of these decisions with Presidents Roosevelt and Truman themselves their Secretaries of War and State and of course all the major scientific figures of the time Chemical Engineering News A wonderfully rich portrait that emerges from a carefully documented account of Conant s role in the development of the atomic bomb and post war nuclear policy An extraordinarily well written text Hershberg lays bare the person behind the persona warts dimples and all Stanley Goldberg Bulletin of the Atomic Scientists

Learning to Glow John Bradley,2000 Provides personal accounts of people who were raised during the Cold War and of those who were directly in contact with nuclear weapons during World War II the Korean War and the Persian Gulf War focusing on the health and environmental hazards of nuclear weapons James B. Conant James G. Hershberg,1995 James B Conant 1893 1978 was one of the giants of the American establishment in the twentieth century

President of Harvard University from 1933 to 1953 he was also a scientist who led the US government's effort to develop weapons of mass destruction and his story mirrors the transition of the United States from isolationism to global superpower at the dawn of the nuclear age This splendid portrait of Conant illuminates the life of a pivotal figure in the making of US nuclear scientific educational and foreign policy for almost half a century But the book is much more it is not only an insightful narration of Conant's life it is also a brilliant and important account of the making of the nuclear age a chronicle that contains much that is new *The Washington Post* The bomb would be as much Conant's as it was anyone's in government His inner response to that burden of responsibility has long been obscured but it is illumined here This is a model of historiography that is evocative reading *The New York Times Book Review* Vibrantly written and compelling it breaches Conant's shield of public discretion in masterly fashion *The Cambridge History of the Cold War* Melvyn P. Leffler, Odd Arne Westad, 2010-03-25 This volume examines the origins and early years of the Cold War in the first comprehensive historical reexamination of the period A team of leading scholars shows how the conflict evolved from the geopolitical ideological economic and sociopolitical environments of the two world wars and interwar period *Eden's Garden* Richard J. Coleman, 2007 The time is ripe for a robust discussion of human nature In *Eden's Garden* Rethinking Sin and Evil in an Era of Scientific Promise Richard Coleman examines the notion of sin in a contemporary world that values scientific and nonreligious modes of thought regarding human behavior This work is not an anti science polemic but rather an argument to show how sin and evil can make sense to the nonreligious mind and how it is valuable to make sense of such phenomena The author reconceptualizes sin and evil as indelible pieces of our evolutionary history preventing them from being ostracized as too religious without substance mired in the past Coleman redeems theology for what it can offer to the understanding of sin and evil while embracing and respecting what science can offer to further the common good Examining themes in religion philosophy and theology it is ideal for use in the numerous courses that move across these disciplines *Bulletin of the Atomic Scientists*, 1980-10 **Bulletin of the Atomic Scientists**, 1976-09 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world *Living with the Bomb: American and Japanese Cultural Conflicts in the Nuclear Age* Laura E. Hein, Mark Selden, 2015-02-18 The development and use of the atomic bombs at Hiroshima and Nagasaki number among the formative national experiences for both Japanese and Americans as well as for 20th century Japan US relations This volume explores the way in which the bomb has shaped the self image of both peoples *Arsenal, Understanding Weapons in the Nuclear Age* Kosta Tsipis, 1983 **Experimental Games** Patrick Jagoda, 2020-12-07 In our unprecedentedly networked world games have come to occupy an important space in many of our everyday lives Digital games alone engage an estimated 2.5 billion people worldwide as of 2020 and other forms of gaming such as board games role playing escape rooms and puzzles command an ever expanding audience At the

same time gamification the application of game mechanics to traditionally nongame spheres such as personal health and fitness shopping habit tracking and more has imposed unprecedented levels of competition repetition and quantification on daily life Drawing from his own experience as a game designer Patrick Jagoda argues that games need not be synonymous with gamification He studies experimental games that intervene in the neoliberal project from the inside out examining a broad variety of mainstream and independent games including StarCraft Candy Crush Saga Stardew Valley Dys4ia Braid and Undertale Beyond a diagnosis of gamification Jagoda imagines ways that games can be experimental not only in the sense of problem solving but also the more nuanced notion of problem making that embraces the complexities of our digital present The result is a game changing book on the sociopolitical potential of this form of mass entertainment **Bulletin of the**

Atomic Scientists ,1980-10 **Bulletin of the Atomic Scientists** ,1985-08 *Proclaim Peace* Theron F.

Schlabach,Richard Thomas Hughes,1997 Congressional Record United States. Congress,1985 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 *Bulletin of the Atomic Scientists* ,1968-10 The Bulletin of the Atomic Scientists is the

premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world *AA Gill is Away* A.A.

Gill,2007-11-01 A A Gill is one of the most feared writers in London noted according to the New York Times for his rapier wit Some even consider the mere assignment of a subject to Gill a hostile act But when the notice AA GILL IS AWAY runs in the Sunday Times of London the city can rest peacefully in the knowledge that the writer is off traveling My editor asked me what I wanted from journalism and I said the first thing that came into my head I d like to interview places To treat a place as if it were a person to go and listen to it ask it questions observe it the way you would interview a politician or a pop star Gill writes Upon his return readers are treated to an account of his vacations to places like famine stricken Sudan the pornography studios of California s San Fernando Valley the dying Aral Sea or the seedy parts of Kaliningrad The result is one of the most fascinating stylish and irreverent collections of travel writing *Bulletin of the Atomic Scientists* ,1985-08

Reviewing **Encounters With Hirshima Making Sense Of The Nuclear Age**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence.
