## **Encyclopedia Of Religion And War:**

*Encyclopedia of Religion and War* Gabriel Palmer, 2024-07-31 The Encyclopedia of Religion and War provides authoritative information about the history of religious wars and violence around the world and across cultures. It does not examine religious teachings on love, compassion, or benevolent service. Instead, it provides authoritative historical and cross-cultural information that will help readers understand war and other forms of political violence in the major religions of the world. Editor Gabriel Palmer Fernandez is the director of the Dr. James Dale Ethics Center at Youngstown State University in Ohio. Exploring the complex relationship between war and religion, this substantial volume offers more than 130 alphabetically arranged entries that discuss major religions, cultures, groups, and events and attitudes toward killing human beings. These articles, contributed by international scholars, present the historical perspective of changing proscriptions against and sanctioned reasons for war throughout a religion's or culture's development and current teachings. Some entries describe major social revolts, wars, or persecutions. The religious elements tied to these movements are revealed in the discussions. Pacifistic groups such as Anabaptists, Quakers, Bahá'í adherents, and Mennonites also take their places among the articles. This volume is a comprehensive resource for historical and current views of many significant religions in Europe, Asia, North and South America, and Africa. *School Library Journal*

**War and Religion [3 Volumes]** Jeffrey M. Shaw, Timothy J. Demy, 2017-03-27 This three-volume reference provides a complete guide for readers investigating the crucial interplay between war and religion from ancient times until today, enabling a deeper understanding of the role of religious wars across cultures. Containing some 500 entries covering the interaction between war and religion from ancient times, the three-volume *War and Religion: An Encyclopedia of Faith and Conflict* provides students with an invaluable reference source for examining two of the most important phenomena impacting society today. This all-inclusive reference work will serve readers researching specific religious traditions, historical eras, wars, battles, or influential individuals across all time periods. The A-Z entries document ancient events and movements such as the First Crusade that began at the end of the 10th century, as well as modern-day developments like ISIS and Al Qaeda. Subtopics throughout the encyclopedia include religious and military leaders, other key people, ideas, and weapons, and comprehensive examinations of each of the major religious traditions. Views on war and violence are presented. The work also includes dozens of primary source documents, each introduced by a headnote that enables readers to go directly to the source of information and better grasp its historical significance. The in-depth content of this set benefits high school and college students as well as scholars and general readers. Enables readers to explore the ongoing and important relationship between war and religion across history through coverage of the wars themselves, the important leaders, battles, and campaigns, and the treaties that resulted from these wars. Directs readers to further reading material and supplies a comprehensive bibliography that guides further inquiry into the topic of war and religion. Supplies primary source documents that include letters written by participants of the Crusades.

proclamations and declarations from the Protestant Reformation and UN documents related to war and religion      **War and Religion: A-G (Alphabetical List of Entries; List of Primary Documents; Chronology; Guide to Related Topics)**

Shaw Ph.D., Timothy J. Demy, 2017-03-27 This three volume reference provides a complete guide for readers investigating the crucial interplay between war and religion from ancient times until today enabling a deeper understanding of the role of religious wars across cultures Containing some 500 entries covering the interaction between war and religion from ancient times the three volume War and Religion An Encyclopedia of Faith and Conflict provides students with an invaluable reference source for examining two of the most important phenomena impacting society today This all inclusive reference work will serve readers researching specific religious traditions historical eras wars battles or influential individuals across all time periods The A Z entries document ancient events and movements such as the First Crusade that began at the end of the 10th century as well as modern day developments like ISIS and Al Qaeda Subtopics throughout the encyclopedia include religious and military leaders or other key people ideas and weapons and comprehensive examinations of each of the major religious traditions views on war and violence are presented The work also includes dozens of primary source documents each introduced by a headnote that enable readers to go directly to the source of information and better grasp its historical significance The in depth content of this set benefits high school and college students as well as scholars and general readers      *Encyclopedia of Global Religion* Mark Juergensmeyer, Wade

Clark Roof, 2012 Presents entries A to L of a two volume encyclopedia discussing religion around the globe including biographies concepts and theories places social issues movements texts and traditions War and Religion Arnaud Blin, 2019-03-19 The resurgence of violent terrorist organizations claiming to act in the name of God has rekindled dramatic public debate about the connection between violence and religion and its history Offering a panoramic view of the tangled history of war and religion throughout Europe and the Mediterranean War and Religion takes a hard look at the tumultuous history of war in its relationship to religion Arnaud Blin examines how this relationship began through the concurrent emergence of the Mediterranean empires and the great monotheistic faiths Moving through the Middle Ages and the Renaissance and into the modern era Blin concludes with why the link between violence and religion endures For each time period Blin shows how religion not only fueled a great number of conflicts but also defined the manner in which wars were conducted and fought War and Religion after Westphalia, 1648-1713 David Onnekink, 2016-03-03 Many historians consider the Peace of Westphalia which ended the Thirty Years War in 1648 to mark a watershed in European international relations It is generally agreed that Westphalia brought to an end more than a century of religious conflicts and marked the beginning of a new era in which secular power politics was the prime motivating factor in international relations and warfare The purpose of this volume is to question this assumption and reconceptualise the relationship between war foreign policy and religion during the period 1648 to 1713 Some of the contributions to the volume directly challenge the idea that religion ceased to play a role in war and foreign policy Others confirm the traditional view that religion did not play a dominant role after 1648 but seek to re evaluate its significance and thereby redefine religious influences on policy in this period By exploring this issue from various perspectives the volume offers a unique opportunity to reassess the influence of religion in international politics It also yields deeper insights into concepts of secularisation and complements the research of many social and cultural historians who have begun to challenge the idea of a decline in the influence of religion in domestic politics and society By matching the relationship between conflict and religion with this scholarship a more nuanced appreciation of the European situation begins to emerge *The European Wars of Religion* Wolfgang Palaver, Harriet Rudolph, Dietmar Regensburger, 2016-12-05 In recent years religion has resurfaced amongst academics in many ways replacing class as the key to understanding Europe s historical development This has resulted in an explosion of studies revisiting issues of religious change confessional violence and holy war during the early modern period But the interpretation of the European wars of religion still remains largely defined by national boundaries tied to specific processes of state building as well as nation building In order to more thoroughly interrogate these concepts and assumptions this volume focusses on terms repeatedly used and misused in public debates such as religious violence and holy warfare within the context of military conflicts commonly labelled religious wars The chapters not only focus on the role of religion but also on the emerging state as a driver of the escalation of violence in the so called age of religious war By using different

methodological and theoretical approaches historians philosophers and theologians engage in an interdisciplinary debate that contributes to a better understanding of the religious political situation of early modern Europe and the interpretation of violent conflicts interpreted as religious conflicts today By adopting a multi disciplinary approach new and innovative perspectives are opened up that question if in fact religion was a primary driving force behind these conflicts *The Age of Wars of Religion, 1000-1650* Cathal J. Nolan, 2006 Offers a variety of entries on the cultural military and political history as well as geography biography and philosophy of this period This work also offers detailed information on the major events places battles figures technologies and ideas behind six centuries of global conflicts **Beyond "Holy Wars"** Christoffer H. Grundmann, 2014-04-23 The 9 11 al Qaeda attacks on the U S in 2001 shocked the world not only because of their viciousness but also because of the disillusionment that holy wars are a phenomenon of the past Holy wars rather are a reality in today's world too threatening global peace like never before In this volume Christoffer Grundmann pleads for the cultivation of religious literacy and interreligious dialogue First he attempts to regain an adequate understanding of religion by showing the incompatibility of abstract concepts of religion with religions actually lived So Grundmann suggests perceiving religion as the lived relationship toward an Ultimate Given that interreligious dialogue is communication about diverse ways of relating to the Ultimate the religiously embedded primarily Jewish philosophy of encounter and dialogical thinking with its personalistic nature comes into focus here as uniquely suited for such communication Even though interreligious encounter implies risk Christians cannot but engage in it fearlessly says Grundmann because they trust that the risen Christ will reveal himself anew as the one he really is wherever and whenever Christians take part in dialogue with people of other faiths **The Encyclopedia of Religion** Mircea Eliade, Charles J. Adams, 1987 A comprehensive guide to the history beliefs concepts practices and major figures of religions past and present Politicization of Religion, the Power of State, Nation, and Faith G. Ognjenovic, J. Jozelic, Gorana Ognjenovic, Jasna Jozeli, 2014-12-16 Abuse of religion as a political means to an end the achievement of nationalist political goals analyzing how through which mechanisms this phenomenon has been and still is practiced in South Eastern Europe *The New Schaff-Herzog Encyclopedia of Religious Knowledge* Johann Jakob Herzog, Albert Hauck, Samuel Macauley Jackson, Charles Colebrook Sherman, George William Gilmore, 1912 **Fighting Words** Hector Avalos, Is religion inherently violent If not what provokes violence in the name of religion Do we mischaracterize religion by focusing too much on its violent side In this intriguing original study of religious violence Prof Hector Avalos offers a new theory for the role of religion in violent conflicts Starting with the premise that most violence is the result of real or perceived scarce resources Avalos persuasively argues that religion creates new scarcities on the basis of unverifiable or illusory criteria Through a careful analysis of the fundamental texts of Judaism Christianity Islam and Hinduism Dr Avalos explains how four scarce resources have figured repeatedly in creating religious violence sacred space e g the perception by three world religions that Jerusalem is sacred the creation of holy scriptures believed to be privileged

revelations of God's will group privilege stemming from such beliefs as a chosen people or predestination which also creates a group of outsiders and salvation by which concept some are accepted and others rejected Thus Avalos shows religious violence is often the most unnecessary violence of all since the scarce resources over which religious conflicts ensue are not actually scarce or need not be scarce Comparing violence in religious and nonreligious contexts Avalos makes the compelling argument that if we condemn violence caused by scarce resources as morally objectionable then we must consider even more objectionable violence provoked by alleged scarcities that cannot be proven to exist He also examines the Nazi Holocaust and the Stalinist Terror which have been attributed to the pernicious effects of atheism or secular humanism By contrast Avalos pinpoints underlying religious factors as the cause of these horrific instances of genocidal violence This serious philosophical examination of the roots of religious violence adds much to our understanding of a perennial source of widespread human suffering Hector Avalos Ames IA is associate professor of Religious Studies at Iowa State University the author of five books on biblical studies and religion the former editor of the Journal for the Critical Study of Religion and executive director of the Committee for the Scientific Examination of Religion

**Stress of War, Conflict and Disaster** George Fink, 2010-11-25  
Stress is a universal phenomenon that impacts adversely on most people Following on the heels of Stress Science Neuroendocrinology and Stress Consequences Mental Neuropsychological and Socioeconomic this third derivative volume will provide a readily accessible and affordable compendium that explains the phenomenon of stress as it relates physically and mentally to war conflict and disaster The first section will be dedicated to study of the link between stress and various forms of conflict Specific instances of conflict will be discussed the Gulf wars Korea Hiroshima bombing the Holocaust 9 11 Northern Ireland terrorism in general torture The second section will explore the stress impact of more general physical disasters such as airline and vehicle accidents earthquakes floods and hurricanes The final section will focus on the clinical relationship between conflict stress and various mental diseases PTSD suicide disaster syndrome etc as well as the adverse impact of stress on human physical health in general Comprised of about 100 top articles selected from Elsevier's Encyclopedias of Stress the volume will provide a valuable desk reference that will put relevant articles readily at the fingertips of all scientists who consider stress Chapters offer impressive and unique scope with topics addressing the relationship between stress generated by war conflict and disaster and various physical mental disorders Richly illustrated with over 200 figures dozens in color Articles carefully selected by one of the world's most preeminent stress researchers and contributors represent the most outstanding scholarship in the field with each chapter providing fully vetted and reliable expert knowledge

**The Age of Wars of Religion, 1000-1650** Cathal J. Nolan, 2006-04-30 The Age of Wars of Religion saw navies armies armed merchant companies and mercenaries battle one another and local potentates in many lands and along numerous shores Wars of religion were fought in and between all the major religions and civilizations from Europe to China in Africa and in the isolated Americas mixing motives of knightly idealism mercenary greed and competing claims of

divine sanction This unparalleled work traces the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict It offers nearly 2 000 discrete but cross referenced entries on cultural military religious and political history as well as geography biography and military literature Close to 2 000 entries offer detailed information on the major events places battles figures technologies and ideas one must know to begin to make sense of the past six centuries of global conflicts Though especially ferocious and intense the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in world or military history The Byzantine Empire bastion of Christian Orthodoxy staggered to the tortuous end of its long conflict with the Ottoman Empire the Great Power of the Sunni Muslim world The Ottomans in turn were still engaged in an equally ancient intra Muslim war between Sunnis and Shi ites In India the Hindu Rajputs and Marathas and also the Sikhs organized armies around religious communities to throw off the Muslim Yoke Mughul Empire and also fought against Christian invaders from Europe As for the isolated Americas ideas of divine kingship sustained by powerful priesthoods and religious warfare also prevailed as exemplified by the Inca and Aztec empires     *A.L.A. Catalog* American Library Association,1923     **American Religious History** Gary Scott Smith,2020-12-07 A mix of thematic essays reference entries and primary source documents covering the role of religion in American history and life from the colonial era to the present Often controversial religion has been an important force in shaping American culture Religious convictions strongly influenced colonial and state governments as well as the United States as a new republic Religious teachings values and practices deeply affected political structures and policies economic ideology and practice educational institutions and instruction social norms and customs marriage and family life By analyzing religion s interaction with American culture and prominent religious leaders and ideologies this reference helps readers to better understand many fascinating often controversial religious leaders ideas events and topics The work is organized in three volumes devoted to particular periods Volume one includes a chronology highlighting key events related to religion in American history and an introduction that overviews religion in America during the period covered by the volume and roughly 10 essays that explore significant themes These essays are followed by approximately 120 alphabetically arranged reference entries providing objective fundamental information about topics related to religion in America Each volume presents nearly 50 primary source documents each introduced by a contextualizing headnote A selected general bibliography closes volume three     *Socio-Cultural and Religious Conflicts and the Future of Nigeria* Lotanna Olisaemeka,2022-12-10 With the prevailing violent conflict situation of our world perpetuated sometimes even in the name of religion humanity today faces extinction To reverse this ugly trend humanity has no choice than to build a society where every tribe and tongue can coexist in peace This work analyzed the violent conflicts from anthropological behavioral politico philosophical and theological perspectives and makes a demand on humanity to save herself through proper education and dialogue with all men and religions Lotanna Olisaemeka is a

researcher in Missiology affiliated with the Philosophisch Theologische Hochschule Vallendar Germany      *Seven Myths of Military History* John D. Hosler, Alfred J. Andrea, Andrew Holt, 2022-03-01 This brief provocative and accessible book offers snapshots of seven pernicious myths in military history that have been perpetrated on unsuspecting students readers moviegoers game players and politicians It promotes awareness of how myths are created by the spurious misuse and ignorance of history and how misleading ideas about a military problem as in asymmetric warfare can lead to misguided solutions Both scholarly and engaging this book is an ideal addition to military history and historical methodology courses In fact it could be fruitfully used in any course that teaches critical thinking skills including courses outside the discipline of history Military history has a broad appeal to students and there s something here for everyone From the so called Western Way of War to its sister myth technological determinism to the academic party game of once faddish Military Revolutions the book shows that while myths about history may be fun myth busting is the most fun of all Reina Pennington Norwich University
