, **Gathering a Heritage** Thomas M. Prymak, 2015-01-15 Since the 1970s and 1980s the study of immigration and ethnicity has grown to become an essential aspect of North American history In *Gathering a Heritage* Thomas M Prymak uses the essays and articles he has written over the past thirty years as a historian of Ukrainian and Ukrainian Canadian history to reflect on the evolution of ethnic studies in Canada and the United States The essays included in this book explore the history of Ukrainian and Slavonic immigration to North America and the literature through which these communities and their historians have sought to recapture their past Each previously published essay is revised and expanded and several more appear here for the first time including the fascinating story of French Canadian writer Gabrielle Roy's connections with Ukrainian Canadians and her tumultuous affair with a Ukrainian Canadian nationalist in pre war London **Canada** ,

The Prairie Agrarian Movement Revisited Kenneth Murray Knuttila, 2007 The formation of the Territorial Grain Growers Association in 1901 was not the only important event in the early history of what has come to be known broadly as the agrarian movement in the Canadian prairies but it was a defining moment in some respects Arguably it signalled the formation of an agrarian class but at least it was an indicator of an awakening of a democratic consciousness among family farmers Ultimately the Association provided a venue for analysis and critique the development of strategies and tactics and of course the nurturing of leadership and organizational forms that would have a profound influence upon politics and the state in the three prairie provinces and the Dominion as well as the creation of co-operatives and other forms of direct action These eighteen essays honouring the 100th anniversary in 2001 of the formation of the TGGGA explore important aspects of the historical legacy of the agrarian movement and contemplate their relevance to the current setting for the rural prairies

Canada's most famous suffragists from Nellie McClung and Cora Hind to Emily Murphy and Henrietta Muir Edwards lived and campaigned in the Prairie provinces the region that led the way in granting women the right to vote and hold office In

Ours by Every Law of Right and Justice award winning author Sarah Carter challenges the myth that grateful male legislators simply handed western settler women the vote in recognition that they were equal partners in the pioneering process Suffragists worked long and hard to overcome obstacles persuade doubters and build allies But their work also had a dark side Even as settler suffragists pressured legislatures to grant their sisters the vote they often approved of that same right being denied to foreigners and Indigenous men and women By situating the suffragists struggle in the colonial history of Prairie Canada this powerful and passionate book shows that the right to vote meant different things to different people political rights and emancipation for some domination and democracy denied for others **A Handbook of Scandinavian**

concern Stalled Linda Trimble, Jane Arscott, Manon Tremblay, 2013-05-31 Following significant increases in women's electoral representation in the 1980s and 90s progress has stalled. Despite some high profile successes at the provincial level there are now only a few more women in Canada's parliament and legislatures than a decade ago. What has happened to the representational gains for women and why does gender parity remain so elusive? To answer these questions *Stalled* provides a detailed roadmap of women's political representation as candidates, office holders, cabinet ministers, party leaders and as representatives of the Crown at all levels of government across Canada. Prospects for gender parity in political office are assessed in each jurisdiction and institution. Explanations are re-examined and analyzed using data from across the country. The representation of women in elected and appointed offices is an important indicator of both gender equality and the overall health of democratic governance. By this measure Canada continues to fall short. **Five Ages of Canada** Graham Gibbs, 2016-04-18 *Five Ages of Canada* tells the comprehensive tale of the nation's origins and formation. Graham's First Age introduces Canada's First Inhabitants, the Palaeo Indians from Northern Asia, their descendants and the First Nations, Inuit and Métis peoples of today. The Second Age began in the early 1500s with fishing fleets from England, France, Portugal and the Basque region of Spain who spent their summers fishing offshore Newfoundland. One hundred years later permanent British settlements were established in our Atlantic Province. Samuel de Champlain's efforts to create New France and the battle for dominion between England and France constitutes Graham's Third Age and his Fourth Age covers the fur trade that was responsible for the exploration, mapping and eventual settlement of the west. Lastly, the Fifth Age which Graham calls *The Road to Confederation* is the story of Sir John A. Macdonald, George-Étienne Cartier and the other Fathers of Confederation. It is also the story of the Royal Canadian Mounted Police, legendary Métis leader Louis Riel and much more. Having long been passionate about the country's history, Graham and his wife Jay travelled 40,000 km in a Roadtrek camper van visiting over two hundred historic and heritage sites and countless museums throughout Canada. Graham's book draws on journal notes, conversations with locals and research. Vast in its scope yet personal in its perspective, *Five Ages of Canada* illuminates the country's past in a riveting and original way, garnering deep appreciation and admiration for the people who were here first and those who strove to achieve independent nationhood. *Cultivating Connections* Alison R. Marshall, 2014-06-18 In the late 1870s thousands of Chinese men left coastal British Columbia and the western United States and headed east. For these men the Prairies were a land of opportunity; there they could open shops and potentially earn enough money to become merchants. The result of almost a decade's research and more than three hundred interviews, *Cultivating Connections* tells the stories of some of Prairie Canada's Chinese settlers, men and women from various generations who navigated cultural difference. These stories reveal the critical importance of networks in coping with experiences of racism and establishing a successful life on the Prairies. This book offers an incisive look at the organizations, relationships and ties that were critical in forging and sustaining life; yet it also serves as a remarkable record of the voices of

some of the Prairies most resilient and resourceful pioneers **Human Ecology of the Canadian Prairie Ecozone** ,
Great Plains Quarterly ,2007 **Canadian Literature and Medicine** Shane Neilson,2023-09-08 Canadian Literature and Medicine breaks new ground by formulating a series of frameworks with which to read and interpret a national literature derived from the very fabric of that literature in this case Canadian Canadian literature is of particular interest because of its consideration of coloniality Indigeneity and coincident development alongside a nascent socialized medical system currently under threat from neoliberalism The first chapters of the book carefully track the development of Canada s socialized medical system as it manifests in the imaginations of the nation s poets and authors who depict care Reciprocal flows are investigated in which these poets and authors are quoted in policy documents The archive based methodology is sustained in subsequent chapters that rely upon a unique interdisciplinary mix of medical history philosophy of medicine medical policy theory inherent to the field of Canadian literature focusing in particular on the garrison mentality as a form of aesthetic protest and the feminist ethics of care and Indigenous ways of knowing **Medicare's Histories** Esyllt W. Jones,James Hanley,Delia Gavrus,2022-05-27 Medicare is arguably Canada s most valued social program As federally supported medicare enters its second half century Medicare s Histories brings together leading social and health historians to reflect on the origins and evolution of medicare and the missed opportunities characterizing its past and present Embedding medicare in the diverse constituencies that have given it existence and meaning contributors inquire into the strengths and weaknesses of publicly insured health care and critically examine medicare s unfinished role in achieving greater health equity for all people in Canada regardless of race status gender class age and ability Fundamental to the stories told in Medicare s Histories is the essential role played by communities of activists critics health professionals First Nations patients families and survivors in driving demands for health reform in identifying particular omissions and inequities exacerbated or even created by medicare and in responding to the realities of medicare for those who work in and rely on it Contributors to this volume show how medicare has been shaped by politics in the broadest sense of that word identities professional organizations and social movements in Canada and abroad As COVID lays bare social inequities and the inadequacies of health care delivery and public health this book shows what was excluded and what was and is possible in health care **Transforming Provincial Politics** Bryan M. Evans,Charles W. Smith,2015-01-01 Transforming Provincial Politics is the first province by province analysis of politics and political economy in more than a decade and the first to directly examine the turn to neoliberal policies at the provincial and territorial level and examines how neoliberal policies have affected politics in each jurisdiction in Canada Prairie Fairies Valerie J. Korinek,2018-06-26 *Prairie Fairies* draws upon a wealth of oral archival and cultural histories to recover the experiences of queer urban and rural people in the prairies Focusing on five major urban centres Winnipeg Saskatoon Regina Edmonton and Calgary *Prairie Fairies* explores the regional experiences and activism of queer men and women by looking at the community centres newsletters magazines and organizations that they created from 1930

to 1985 Challenging the preconceived narratives of queer history Valerie J Korinek argues that the LBTTQ community has a long history in the prairie west and that its history previously marginalized or omitted deserves attention Korinek pays tribute to the prairie activists and actors who were responsible for creating spaces for socializing politicizing and organizing this community both in cities and rural areas Far from the stereotype of the isolated insular Canadian prairies of small towns and farming communities populated by faithful farm families Prairie Fairies historicizes the transformation of prairie cities and ultimately the region itself into a predominantly urban and diverse place **Making Medicare** Gregory P. Marchildon,2012-01-01 This collection fills a serious gap in the existing literature by providing a comprehensive policy history of Medicare in Canada
