Encyclopedia Of War And Ethics

Igor Primoratz

Encyclopedia Of War And Ethics:

An Encyclopedia of War and Ethics Donald A. Wells, 1996-03-25 This is the first encyclopedia that critically surveys the ethics of warmaking from a variety of perspectives. Noted experts raise basic questions about what is just in war, describe the views of historic and contemporary thinkers on ethical matters, survey practices at different periods, and discuss key issues. The over 250 entries arranged in alphabetical order cover efforts to curb the havoc of war from medieval to modern times, from accidental war to Zagreb Resolution, different religious perspectives, genocide, UN peacekeeping, and much more. Sources for further reading accompany the entries, and internal cross references and an index make this major reference easily accessible for students and teachers in military peace and world affairs studies. This is the first encyclopedia that critically surveys the ethics of warmaking from a variety of perspectives. Historically, efforts to curb the havoc of war have confronted three military maxims: military necessity, the right of reprisal, and the obligation of soldiers to obey superior orders. The medieval efforts of just war theorists to protect the innocent, avoid needless havoc, and prohibit excessive weapons rarely affected military practice. Modern congresses have pointed out the inconsistency in concerns about war crimes or crimes against humanity and the weapons and strategies of modern war. The pressures of the military industrial complex, the profits to be gained by war production, and the demands of sovereign nationalism contradict such alternative concerns as those raised by the United Nations and the International Red Cross. Noted experts raise basic questions about what is just in war, describe the views of historic and contemporary thinkers on ethical matters, survey practices at different periods, and discuss key issues. The over 250 entries arranged in alphabetical order cover efforts to curb the havoc of war from medieval to modern times, from accidental war to Zagreb Resolution, different religious perspectives, genocide, UN peacekeeping, and much more. Sources for further reading accompany the entries, and internal cross references and an index make this major reference easily accessible to students and teachers in military peace and world affairs studies.

In War We Trust Chris J. Dolan, 2018-01-18 There is a long standing tradition in Western culture of differentiating between just and unjust wars. 11 September 2001 has stimulated a debate in the West which holds that although people who are opposed to war in principle may disagree that any such distinction can possibly be made, the basic ideas involved seem to present a plausible argument that there are times when war is at the very least just and politically necessary. These and other issues are addressed in this study. The consistent theme throughout this book is that significant ethical issues and moral dilemmas have been raised as they pertain to the forceful expression of American power via the Bush Doctrine's assertion of the right to engage in first strikes against states and non states in the wake of the 11 September 2001 terrorist attacks. This book is intended for those with an interest in political science, history, leadership studies, and foreign policy analysis.

Military Ethics Igor Primoratz, 2017-05-15 Recent developments such as the new wars or the growing privatisation of warfare and the ever more sophisticated military technology present the military with difficult ethical challenges. This book offers a selection of the best

scholarly articles on military ethics published in recent decades It gives a hearing to all the main ethical approaches to war just war theory consequentialism and pacifism Part I includes essays on justice of war *jus ad bellum* focussing on defence against aggression and humanitarian armed intervention but also addressing topics such as conscientious objection and the relation of patriotism to war Articles in Part II deal with the central problems of justice in war *jus in bello* civilian immunity and collateral damage to civilian life and property Essays in Part III look into the moral issues facing the military as a profession such as the civil military relations the responsibilities of officers to their soldiers and to their military superiors and the status and responsibilities of prisoners of war **Modern Just War Theory** Michael P. Farrell, 2013-06-20

Contributions to Illuminations A Scarecrow Press Series of Guides to Research in Religion provide students and scholars lay readers and clergy with a road map to research in key areas of religious study All commonly constructed with introductions to the topic and reviews of key thinkers concepts and events each volume includes surveys of the primary and secondary sources with critical evaluations of their places in the canon of thought and research on the topic Focusing primarily on the knowledge required by today's students and scholars each guide is a must have for any student of religion The twentieth century saw an explosion of wars and an accompanying explosion of literature on the morality of war Thinking among Christian clerics and scholars on the idea of just war shifted with developments on the battlefield Alternatives to just war theory such as pacifism and realism found new proponents in the published work of the neo Anabaptists and Niebhurians Meanwhile proponents of Christian just war theory had to address challenges from competing ideologies as well as those presented by the changing nature of warfare **Modern Just War Theory A Guide to Research** by scholar and librarian Michael Farrell serves as a manual for students and scholars studying Christian just war theory helping them navigate the wealth of just war literature produced in the twentieth and twenty first centuries Farrell's guide provides an introduction to the major developments of just war theory in the twentieth century including sections on how to research just war theory an overview of some of the most important theorists and developments of the twentieth century and discussions of key search terms and related topics Farrell then surveys and evaluates key primary and secondary sources for researchers on just war theory as well as related sources on Christian realism and the responses of just war theorists to proponents of pacifism and secular just war theories **Modern Just War Theory** will appeal to students and scholars of theology military history international law and Christian ethics **Moral Constraints on War** Bruno Coppieters, N. Fotion, 2002-01-01 **Moral Constraints on War** offers a principle by principle presentation of the transcultural roots of the ethics of war in an age defined by the increasingly international nature of military intervention Parts one and two trace the evolution of Just War theory analyzing the principles of *jus ad bellum* and *jus in bello* the principles that determine under what conditions a war may be started and then conducted Each chapter provides the historical background of the principle under discussion an explanation of the principle and numerous historical examples of its application In Part three case studies apply the theories discussed to the Gulf War

the 1994 Russian intervention in Chechnya NATO's humanitarian mission in Kosovo and the U S military's actions in Afghanistan in the wake of the World Trade Center attacks Bringing together an international coterie of philosophers and political scientists this accessible and practical guide offers students of military ethics international law and social conflict rich up to the minute insight into the pluralistic character of Just War Theory Philosophy Hans E. Bynagle, 2006-05-30 A newly reorganized up to date overview of key reference works in philosophy reflects a veritable explosion of reference sources both print and online published over the past decade Nearly 300 of the 700 entries consist of new material with an additional 50 entries substantially revised and updated English language sources are emphasized but important non English works are also well represented For professional philosophers philosophy educators students from beginning to graduate and librarians This guide represents a substantial updating and complete re organization of the author's 1997 *Philosophy A Guide to the Reference Literature* 2nd edition 1st edition 1986 It reflects a veritable explosion of reference sources both print and online in the field of philosophy over the past decade Nearly 300 entries or 40 percent are entirely new An additional 50 or so entries have substantial revisions recording new editions changes in serial publications series and websites or additional volumes completed in multi volume sets In addition it has been entirely re organized along topical lines Each of its twenty three chapters is divided into four sections 1 general sources 2 history of philosophy 3 branches of philosophy and 4 miscellanea This new arrangement accords better with the greatly expanded range of philosophy reference sources and makes it easier for the user to identify related sources of different types bibliographies dictionaries web gateways etc on the same topic Like its predecessor *Guide to Reference Sources in Philosophy* the 3rd edition aims to serve a diverse audience of professional philosophers philosophy educators students from beginning to graduate and librarians All entries include generous annotations that are often evaluative as well as descriptive English language sources are emphasized but non English works important to researchers or of interest to users with facility in other languages are also well represented

The ^AOxford Handbook of Ethics of War Seth Lazar, Helen Frowe, 2018-01-12 The 28 commissioned chapters in this volume present a comprehensive overview of the ethics of war as well as make significant and novel contributions **When Soldiers Say No** Andrea Ellner, Paul Robinson, David Whetham, 2016-02-11 Traditionally few people challenged the distinction between absolute and selective conscientious objection by those being asked to carry out military duties The former is an objection to fighting all wars a position generally respected and accommodated by democratic states while the latter is an objection to a specific war or conflict theoretically and practically a much harder idea to accept and embrace for military institutions However a decade of conflict not clearly aligned to vital national interests combined with recent acts of selective conscientious objection by members of the military have led some to reappraise the situation and argue that selective conscientious objection ought to be legally recognised and permitted Political social and philosophical factors lie behind this new interest which together mean that the time is ripe for a fresh and thorough evaluation of the topic This book

brings together arguments for and against selective conscientious objection as well as case studies examining how different countries deal with those who claim the status of selective conscientious objectors. As such it sheds new light on a topic of increasing importance to those concerned with military ethics and public policy within military institutions, government and academia.

Routledge Handbook of Ethics and War Fritz Allhoff, Nicholas G. Evans, Adam Henschke, 2013-06-26 This new Handbook offers a comprehensive overview of contemporary extensions and alternatives to the just war tradition in the field of the ethics of war. The modern history of just war has typically assumed the primacy of four particular elements: *jus ad bellum*, *jus in bello*, the state actor, and the soldier. This book will put these four elements under close scrutiny and will explore how they fare given the following challenges: What role do the traditional elements of *jus ad bellum* and *jus in bello* and the constituent principles that follow from this distinction play in modern warfare? Do they adequately account for a normative theory of war? What is the role of the state in warfare? Is it or should it be the primary actor in just war theory? Can a just war be understood simply as a response to territorial aggression between state actors, or should other actions be accommodated under legitimate recourse to armed conflict? Is the idea of combatant qua state-employed soldier a valid ethical characterization of actors in modern warfare? What role does the technological backdrop of modern warfare play in understanding and realizing just war theories? Over the course of three key sections, the contributors examine these challenges to the just war tradition in a way that invigorates existing discussions and generates new debate on topical and prospective issues in just war theory. This book will be of great interest to students of just war theory, war and ethics, peace and conflict studies, philosophy, and security studies.

A Moral Military Sidney Axinn, 2009 A new edition of the classic book on what constitutes moral behavior during wartime.

Comparative Just War Theory Luis Cordeiro-Rodrigues, Danny Singh, 2019-10-23 Widespread cross-cultural and cross-ideological agreement on the justifiable limits of war has become an increasingly complex yet vital element of global peace and conflict policies. Luis Cordeiro Rodrigues and Danny Singh bring together a truly international cohort of philosophers, ethicists, political scientists, criminologists, sociologists, and other scholars to address the morality of war from a comparative perspective. While conceptions of when to enter war (*jus ad bellum*) and how to fight war (*jus in bello*) have been well researched in Western liberal contexts, non-Western philosophies have been largely excluded from debate. This volume seeks to correct that imbalance by addressing concrete examples alongside concepts of Confucian Yi, Rightness, Ahimsa, feminism, class struggles, Ubuntu, anarchism, pacifism, Buddhism, Islam, Jihad, among others. Comparative Just War Theory provides a global conceptual framework to deal with the morality of war in our modern world. With fresh insights into how the normative problems that arise from just war can be addressed, the book will be a valuable resource for a wide variety of students, scholars, and policymakers.

Subject Encyclopedias Allan Mirvis, 1999 This useful two-volume set will provide buyers of subject encyclopedias with a substantial amount of valuable information they can use in making their purchasing decisions. It will also provide all types of librarians and their patrons with a quick

one stop method for locating the appropriate subject encyclopedias for their needs and for locating articles in the 100 encyclopedias Librarians who specialize in bibliographic instruction will also find it to be a useful tool for teaching students how to locate needed information

Utilitarianism and the Ethics of War William H. Shaw, 2016-02-15 This book offers a detailed utilitarian analysis of the ethical issues involved in war Utilitarianism and the Ethics of War addresses the two basic ethical questions posed by war when if ever are we morally justified in waging war and if recourse to arms is warranted how are we permitted to fight the wars we wage In addition it deals with the challenge that realism and relativism raise for the ethical discussion of war and with the duties of military personnel and the moral challenges they can face In tackling these matters the book covers a wide range of topics from pacifism to armed humanitarian intervention from the right of national defense to pre emptive or preventive war from civilian immunity to the tenets of just war theory and the moral underpinnings of the rules of war But what is distinctive about this book is that it provides a consistent and thorough going utilitarian or consequentialist treatment of the fundamental normative issues that war occasions Although it goes against the tide of recent work in the field a utilitarian approach to the ethics of war illuminates old questions in new ways by showing how a concern for well being and the consequences of our actions and policies shape the moral constraints to which states and other actors must adhere This book will be of much interest to students of the ethics of war just war theory moral philosophy war and conflict studies and IR

The Communicator's Guide to Media Law and Ethics Mark Pearson, 2023-11-23 This book offers an introduction to the key legal and ethical topics confronting Australian journalists and strategic communicators both at home and internationally and offers a suite of reflective techniques for navigating them It starts by positioning morals ethics and the law in their historical and philosophical frameworks by tracing the evolution of free expression and professional media ethics Media law and ethics are then contextualized in their modern international human rights framework Readers are equipped with a skill set for reflecting on the law and ethics of professional media dilemmas including mindful reflection the Potter Box journaling concept mapping and discussion Such approaches are then applied to key topic areas including free expression reputation confidentiality privacy justice intellectual property national security discrimination and harassment and conflicted interests Each is examined in terms of its philosophical underpinnings relationship to human rights professional ethical context international examples legal principles key Australian laws legal cases and strategies for applying reflective practice techniques It concludes on a confident note imploring communicators to engage in constructive and mindful strategic communication with the authority and confidence that results from a working knowledge of media law and ethics This handbook is for professional communicators and students in all fields but particularly in journalism public relations corporate communication media relations and marketing

Encyclopedia Of War And Ethics Introduction

In the digital age, access to information has become easier than ever before. The ability to download Encyclopedia Of War And Ethics has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Encyclopedia Of War And Ethics has opened up a world of possibilities. Downloading Encyclopedia Of War And Ethics provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Encyclopedia Of War And Ethics has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Encyclopedia Of War And Ethics. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Encyclopedia Of War And Ethics. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Encyclopedia Of War And Ethics, users should also consider the potential security

risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Encyclopedia Of War And Ethics has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Encyclopedia Of War And Ethics Books

What is a Encyclopedia Of War And Ethics PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Encyclopedia Of War And Ethics PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Encyclopedia Of War And Ethics PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Encyclopedia Of War And Ethics PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Encyclopedia Of War And Ethics PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe

Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
