*Encyclopedia of World Cultures* Terence E. Hays, David Levinson, 1991 **South Coast New Guinea Cultures** Bruce M. Knauft, 1993-03-25 The communities of south coast New Guinea were the subject of classic ethnographies and fresh studies in recent decades have put these rich and complex cultures at the centre of anthropological debates Flamboyant sexual practices such as ritual homosexuality have attracted particular interest In the first general book on the region Dr Knauft reaches striking new comparative conclusions through a careful ethnographic analysis of sexuality the status of women ritual and cosmology political economy and violence among the region's seven major language culture areas The findings suggest new Melanesian regional contrasts and provide for a general critique of the way regional comparisons are constructed in anthropology Theories of practice and political economy as well as post modern insights are drawn upon to provide a generative theory of indigenous social and symbolic development

*Dobu* Susanne Kuehling, 2021-09-30 This is an ethnography of Dobu a Massim society of Papua New Guinea which has been renowned in social anthropology since Reo Fortune's *Sorcerers of Dobu* 1932 Focusing on exchange and its underlying ethics this book explores the concept of the person in the Dobu world view The book examines major aspects of exchange such as labor mutual support apologetic gifts revenge and punishment kula exchange and mortuary gifts It discusses in detail the characteristics of small gifts such as betel nuts big gifts kula valuables pigs and large yams and money as they appear in exchange contexts The ethnography begins with an analysis of the construct of the Dobu person and sets out to examine everyday practices and values The belief system incorporating witches sorcerers and a Christian God is shown to have a powerful influence on individual conduct due to its panoptic character The institutions that link Dobu with the outside world are examined in terms of the ideology concerning money the Church receives offerings for God the difficulties faced by trade store owners evince conflicting notions concerning monetary wealth The last two chapters delve into lived experience in two major domains of Dobu exchange kula and the sagali feast

**Symbols of Leadership in Traditional and Modern Societies** Thomas E. Pickenpaugh, 2022-08-17 Symbols of Leadership in Traditional and Modern Societies By Thomas E Pickenpaugh Discover the role that psychology plays in the how rulers across the world have traditionally dressed as well as the logic behind them From the use of the teeth of dominant predators in cultural dress to the modern day businessman's necktie Symbols of Leadership in Traditional and Modern Societies examines trends in fashion that have historically been symbolic of rank power and authority

The Evolution of Social Institutions Dmitri M. Bondarenko, Stephen A. Kowalewski, David B. Small, 2020-09-12 This book presents a novel and innovative approach to the study of social evolution using case studies from the Old and the New World from prehistory to the present This approach is based on examining social evolution through the evolution of social institutions Evolution is defined as the process of structural change Within this framework the society or culture is seen as a system composed of a vast number of social institutions that are constantly interacting and changing As a result the structure of society as a whole is also evolving and changing The authors posit that the combination of evolving social institutions explains the non linear character of social evolution and that every society develops along its own pathway and pace Within this framework society should be seen as the result of the compound effect of the interactions of social institutions specific to it Further the transformation of social institutions and relations between them is taking place not only within individual societies but also globally as institutions may be trans societal and even institutions that operate in one society can arise as a reaction to trans societal trends and demands The book argues that it may be more productive to look at institutions even within a given society as being parts of trans societal systems of institutions since despite their interconnectedness societies still have boundaries which their members usually know and respect Accordingly the book is a must read for researchers and scholars in various disciplines who are interested in a better understanding of the origins history successes and failures of social institutions

**New Britain Diary, 1954** Daris R.

Swindler,2007 An excellent glimpse into what anthropology was like in the not too far distant past Daris Swindler s six month daily journal written while on expedition to Melanesia from the University of Pennsylvania with Dr Ward Goodenough and Dr Ann Chowning fifty three years ago is human and captivating and shows us yet another time that is gone forever Generously illustrated with photos from the trip the account takes us through unexpected adventures and routine data collection all with a touch that is accessible and entertaining and introduces us to a generous independent people living in a natural setting and learning to adapt to modern life A great book for budding anthropologists seasoned scholars and armchair travelers alike and a valuable text to accompany college level courses

*Cross-cultural Approaches to Research on Aggression and Reconciliation* Jesús Martín Ramírez,Deborah South Richardson,2001 Violence concerns humans Preparing responsible citizens demands attention to the causes and consequences of violent action But reducing and preventing violence requires an understanding of the complexity of the phenomenon and recognition of its multiple causes A better knowledge of aggression is not only a window into an understanding of humanity but it also informs us that violence involves an intensely emotional experience on the parts of perpetrators victims and witnesses Perceived cultural differences are often cited as the reason for armed conflict and war This volume examines violence in a cross cultural vein allowing for an exploration of the different causes and contexts for violence

**Gender Rituals** Nancy Lutkehaus,Paul Roscoe,2013-09-13 This volume draws together ethnographies of female initiation rites in Melanesia which require anthropologists to rethink their analysis of initiations and their perceptions of gender The contributors argue that female initiation rites express more than cultural notions of femininity narrow definitions of reproduction or coming of age rituals instead they play an important role in other life cycle rituals and in the political and economic organization of society

War, Peace, and Human Nature Douglas P. Fry,2015-02 The chapters in this book posit that humans clearly have the capacity to make war but since war is absent in some cultures it cannot be viewed as a human universal And counter to frequent presumption the actual archaeological record reveals the recent emergence of war It does not typify the ancestral type of human society the nomadic forager band and contrary to widespread assumptions there is little support for the idea that war is ancient or an evolved adaptation Views of human nature as inherently warlike stem not from the facts but from cultural views embedded in Western thinking Amazon com

Traditional Micronesian Societies Glenn Petersen,2009-06-30 Traditional Micronesian Societies explores the extraordinary successes of the ancient voyaging peoples who first settled the Central Pacific islands some two thousand years ago They and their descendants devised social and cultural adaptations that have enabled them to survive and thrive under the most demanding environmental conditions The dispersed matrilineal clans so typical of Micronesian societies ensure that every individual every local family and lineage and every community maintain close relations with the peoples of many other islands When hurricanes and droughts or political

struggles force a group to move they are sure of being taken in by kin residing elsewhere Out of this common theme shared patterns of land tenure political rule philosophy and even personal character have flowed To describe and explain Micronesian societies the author begins with an overview of the region including a brief consideration of the scholarly debate about whether Micronesia actually exists as a genuine and meaningful region This is followed by an account of how Micronesia was originally settled how its peoples adapted to conditions there and how several basic adaptations diffused throughout the islands He then considers the fundamental matters of descent ideas about how individuals and groups are bound together through ties of kinship and descent groups and the closely interlinked subjects of households families land and labor Because women form the core of the clans their roles are particularly respected and their contributions to social life honored Socio political life art religion and values are discussed in detail Finally the author examines a number of exceptions to these common Micronesian patterns of social life Traditional Micronesian Societies illustrates the idiosyncrasies of individual Micronesian communities and celebrates the Micronesians shared ability to adapt survive and thrive over millennia At a time when global climate change has seized our imaginations the Micronesians historical ability to cope with their watery environment is of the greatest relevance American Anthropology in Micronesia Robert C.
