Chilcote, Ulrike Schuler, 2018-08-06 Despite the fact that women are often mentioned as having played instrumental roles in the establishment of Methodism on the Continent of Europe very little detail concerning the women has ever been provided to add texture to this historical tapestry This book of essays redresses this by launching a new and wider investigation into the story of pioneering Methodist women in Europe By bringing to light an alternative set of historical narratives this edited volume gives voice to a broad range of religious issues and concerns during the critical period in European history between 1869 and 1939 Covering a range of nations in

Continental Europe some important interpretive themes are suggested such as the capacity of women to network their ability to engage in God's work and their skill at navigating difficult cultural boundaries This ground breaking study will be of significant interest to scholars of Methodism but also to students and academics working in history religious studies and gender

*Renovating Rhetoric in Christian Tradition* Elizabeth Vander Lei, Thomas Amorose, Beth Daniell, Anne Ruggles Gere, 2014-02-28 Throughout history determined individuals have appropriated and reconstructed rhetorical and religious resources to create effective arguments In the process they have remade both themselves and their communities This edited volume offers notable examples of these reconstructions ranging from the formation of Christianity to questions about the relationship of religious and academic ways of knowing The initial chapters explore historic challenges to Christian doctrines and gender roles Contributors examine Mormon women's campaigns for the recognition of their sect women's suffrage and the statehood of Utah the Seventh day Adventist challenge to the mainstream designation of Sunday as the Sabbath a female minister who confronted the gendered tenets of early Methodism and created her own sacred spaces women who across three centuries fashioned an apostolic voice of humble authority rooted in spiritual conversion and members of the Woman's Foreign Missionary Society of the Methodist Episcopal Church who redefined notions of women's intellectual capacity and appropriate fields for work from the Civil War through World War II Considering contemporary learning environments other contributors explore resources that can help faculty and students of composition and rhetoric consider more fully the relations of religion and academic work These contributors call upon the work of theologians philosophers and biblical scholars to propose strategies for building trust through communication The final chapters examine the writings of Apostle Paul and his use of Jewish forms of argumentation and provide an overarching discussion of how the Christian tradition has resisted rhetorical renovation and in the process missed opportunities to renovate spiritual belief

**Embracing the Past--Forging the Future** Wm. Andrew Schwartz, John M. Bechtold, 2015-09-17 The times they are a changin As such our theology needs to adapt to be responsive to the changing landscape The idea for *Embracing the Past Forging the Future* A New Generation of Wesleyan Theology came from our assessment that Wesleyan theology has yet to fully adapt to this changing landscape and that the future of Wesleyan theology requires the bringing together of old and new voices The difficult task of balancing between continuity and change keeping up with the developments of our culture and staying true to the roots of our tradition requires the dual focus of looking forward and backward simultaneously In this volume we have brought together contributions by young Wesleyan scholars graduate students and junior faculty as a way of illustrating and articulating a new generation of Wesleyan theology These younger voices demonstrate the desire to push Wesleyan theology in new directions Additionally we have included contributions from senior scholars who have been doing important work and who have already made significant contributions to Wesleyan theology This is not simply the old guard but the voices of scholars who continue to make a profound impact on Wesleyan theology

**Methodist Worship** R. Matthew

Sigler,2018-07-04 What makes Methodist worship Methodist or Wesleyan How do Methodists evaluate emerging forms of worship in light of their own liturgical heritage This book considers these questions by bringing to light the work and significance of three Methodist liturgists who have until now received precious little scholarly focus Thomas O Summers 1812 1882 Nolan B Harmon 1892 1993 and James F White 1932 2004 Exploring each one s contribution to the Methodist movement it evaluates their continuing legacies as scholars and practitioners of Methodist worship Importantly the work of all these men occurred during times of cultural change which gave rise to new ways of worship within the landscape of American Methodism Addressing them in chronological order this study shows how each figure enacted liturgical reform and renewal by drawing from the liturgical textual tradition inherited directly from John Wesley s Sunday Service of the Methodist in North America as well as the hymnody of Charles Wesley It also demonstrates how they sought to inculturate the Wesleyan liturgical tradition in the midst of these significant changes Evaluating historic and emerging trends in Methodist liturgical praxis this is a book that will be of great interest to scholars of Methodism the History of Religion Liturgical Studies and Theology *American Methodism* Russell E. Richey,Kenneth E. Rowe,Jean Miller Schmidt,2012

The Lord's Dominion Neil Semple,1996 The Lord s Dominion describes the development of mainstream Canadian Methodism from its earliest days to its incorporation into the United Church of Canada in 1925 Neil Semple looks at the ways in which the church evolved to take its part in the crusade to Christianize the world and meet the complex needs of Canadian Protestants especially in the face of the challenges of the twentieth century Education and the Creation of Capital in the Early American Republic Nancy Beadie,2010-07-30 This book argues that schools were a driving force in the formation of social political and financial capital during the market revolution and capitalist transition of the early republican era Grounded in an intensive study of schooling in the Genesee Valley region of upstate New York it traces early sources of funding and support for education including common schools and various forms of higher schooling to their roots in different social and economic networks and trade and credit relations It then interprets that story in the context of other major developments in early American social political and economic history such as the shift from agricultural to non agricultural production the integration of rural economies into translocal capitalist markets the organization of the Second Great Awakening the transformation of patriarchy the expansion of white male suffrage the emergence of the Secondary American Party System and the formation of the modern liberal state Thomas Wride and Wesley's Methodist Connexion Clive Murray Norris,2020-02-20 This book highlights the life and writings of an itinerant preacher in John Wesley s Methodist Connexion Thomas Wride 1733 1807 Detailed studies of such rank and file preachers are rare as Methodist history has largely been written by and about its leadership However Wride s ministry shows us that the development of this worldwide movement was more complicated and uncertain than many accounts suggest Wride s attitude was distinctive He was no respecter of persons freely criticising almost everyone he came across and in doing so exposing debates and tensions within

both Methodism and wider society However being so combative also led him into conflict with the very movement he sought to promote Wride is an authentic self educated and non lite voice that illuminates important features of Eighteenth Century life well beyond his religious activities He sheds light on his contemporaries attitudes to issues such as the role of women attitudes towards and the practice of medicine and the experience and interpretation of dreams and supernatural occurrences This is a detailed insight into the everyday reality of being an Eighteenth Century Methodist minister As such this text will be of interest to academics working in Methodist Studies and Religious History as well as Eighteenth Century History more generally

**American Denominational History** Keith Harper, 2008-09-24 This book brings the rigor of scholarly assessment of the current literature to various important topics and groups in American religious history The contributors carefully examine the fruitful historiographic questions that are posed by the positions and experiences of the various groups American Denominational History points the way for the next decade of scholarly effort
