*Perspectives on Spirit Baptism* Chad Brand, 2004-11-01 Views presented include the

Charismatic the Pentecostal the Reformed the Sacramental and the Wesleyan      The Language of Battered Women Carol L. Winkelmann, 2012-02-01 Winner of the 2005 Outstanding Book Award presented by the Organization for the Study of Communication Language and Gender OSCLG This study of battered women living in a shelter offers a rhetorical analysis of survivors personal theologies Author Carol L Winkelmann holds that while it is virtually ignored in the domestic violence literature the Christian heritage of many battered women plays a significant if complicated role in their language thoughts and lives The women s religious faith serves not only to sustain them through periods of profound suffering but also to develop solidarity with other culturally different women in the shelter Designed to assist women to greater independence the shelter actually functions as a culture of surveillance where women turn to one another and to their faith to cope with the trauma of violence To heal the women engage in dialogue that is dense in religious imagery talking about the relationship of God and the church to suffering and evil At the same time these women also acknowledge that organized religion is very much involved in the maintenance of patriarchal marriage and its attendant abuses in their own lives Together battered women are sometimes able to construct creative theological responses to the problem of suffering and evil A mix of religious and secular languages compels them to devise new ways of thinking about their role in family church and society

**Subject Guide to Books in Print** ,1993      The Historic Church Archpriest John W. Morris, 2011-07-19 The Historic Church is a survey of Christian history written for Orthodox Christians by an Eastern Orthodox scholar Although one can find many excellent studies of Christian history in the United States none of them considers the development of Christianity from an Eastern Orthodox point of view The work begins by laying a foundation for the study of Christian history by discussing the beliefs and practices of the ancient Church during the age of the Fathers and the Seven Ecumenical Councils The author then discusses the development of Roman Catholicism and the theological and cultural reasons for the split between Rome and Orthodoxy and relations between East and West following the schism He concludes his work with a discussion the origins and historical development of every major Protestant group and tells how they differ from Orthodoxy      The Evangelicals Robert Krapohl, Charles H. Lippy, 1999-04-30 The different facets of American religious life are more thoroughly understood with an awareness of the Evangelical heritage that intersects the different denominational boundaries Since Evangelicalism is not confined to one religious denomination or group it has associations with a number of American religious movements such as Fundamentalism Pentecostalism the Charismatic Movement and Revivalism This study modeled after the popular Greenwood Denominations in America series analyzes the people institutions and the religious culture of modern American Evangelicals Divided into three sections the book presents a history of American Evangelicalism discusses themes and issues in modern American Evangelicalism and provides a biographical dictionary of modern American Evangelical leaders The combination of critical narrative and reference will appeal to religion scholars and American culture scholars alike Separate bibliographies unique to the history section and to the themes and issues section provide valuable resources for further

research Equally helpful is the bibliographic material that completes each entry in the biographical dictionary section of the book The three part organization makes this an accessible research tool clearly organized for easy cross referencing
