**Minding the Buddha's Business** Daniel Boucher, Shayne Clarke, 2025-06-24 Colleagues and former students of Gregory Schopen honor his path breaking contributions to Buddhist studies with these articles on the early Mahayana the monastic codes and Buddhism's art historical and epigraphical remains This volume honors the profoundly transformative influence of Gregory Schopen's many contributions to Buddhist studies Eighteen articles by former students and colleagues focus on the areas of Schopen's most noteworthy influence the study of the Mahayana particularly of its early sutra literature the study of Vinaya especially the narratives accompanying the rules for monks and nuns and the study of Buddhist epigraphy and art history Contributors demonstrate the ongoing significance of Schopen's scholarship including his very first article on the cult of the book in the early Mahayana published fifty years ago Schopen has repeatedly shown how the study of Buddhism has too often focused on scriptures and normative doctrines and not enough on the practical ideas and contexts that significantly impacted the lives of actual Buddhists He sought to reveal these lived concerns in the massive trove of Buddhist inscriptions which often expose the habits and ideas of the tradition's most prominent donors many of whom were monastics as well as the everyday concerns of monks and nuns whose views did not always dovetail with canonical sources Even in his treatment of canonical sources Schopen has shown that the standard portrait of a Buddhist monk or nun fails to match a careful reading of their law codes his work on the Mulasarvastivada vinaya has required scholars to substantially reimagine the legal and ritual obligations as well as the economic concerns that preoccupied the minds of Buddhist jurists Schopen has in essence brought the Buddha down to earth revealing that this is precisely where most Indian Buddhists encountered him The contributions in this celebratory volume reflect this legacy and Schopen's considerable impact on our understanding of Buddhists in India

*The Spirit of Buddhist Meditation* Sarah Shaw, 2014-09-11 Is it

possible to capture the spirit of Buddhist meditation which depends so much upon silence and unspoken wisdom Can this spirit be found after two millennia This wise and reassuring book reminds us that the Buddhist meditative tradition geared to such concerns from its inception has always been transmitted through texts A great variety of early writings poems stories extended practical guides commentaries and chants were purposely designed to pass teachings on from one generation to the next Sarah Shaw a longtime practitioner and teacher of Buddhism investigates a wide and varied range of ancient and later Buddhist writings on meditation Many of these texts are barely known in the West but as the author shows they can be helpful moving and often very funny She begins with early texts of the Pali canon those that describe and involve the Buddha and his followers teaching meditations and moves on to commentaries with their copious range of practical tips anecdotes and accounts of early meditators The author then considers other early texts that were inspirational as Buddhist traditions spread through India and on to China Korea Japan and Tibet Centuries after being written early Buddhist texts have lost none of their relevance this authoritative book shows In a tradition characterized by flexibility and mobility these writings offer wisdom unchanged by time

*Law, Religion and Human Flourishing in Africa* M. Christian Green, 2019-05-19 A shared interest of law and religion is the advancement of human flourishing yet there is no common understanding of what it means for humans to flourish and the means by which to attain a flourishing life The concept of human flourishing is especially important for Africa where community and national development compete with forces of conflict and scarce resources In the broadest sense the concept of human flourishing focuses our attention on having a comprehensively good or worthwhile life but various religious and legal traditions suggest different norms for measuring the quality of life and designing the institutional structures that could best facilitate and preserve it
