The Essentials of Ibadi Islam Valerie J. Hoffman, 2012-05-22

Ibadi Islam is a distinct sect of Islam neither Sunni nor Shi'ite that emerged in the early Islamic period and remains active today in small pockets of North Africa and as the dominant sect of Oman Despite its antiquity it has often been misunderstood and remains little known Seeking to redress this gap and to introduce this Islamic school to the non Arabic speaking world Hoffman offers the first book length overview of Ibadī theology published in English Beginning with a concise overview of Ibadi history Hoffman delineates the movement's role in the development of Islamic thought tracing its distinctive teachings and literary history In the second section she provides annotated translations of two complementary modern Ibadi theological texts This unique volume elucidates Ibadi religious and political thought by allowing its tradition to speak for itself The Essentials of Ibadi Islam gives readers specialists and nonspecialists alike a rare opportunity to understand the major teachings of Ibadī Islam

Islamic Jurisprudence, Islamic Law, and Modernity Mohammad H. Fadel, 2023-08-01 Mohammad Fadel's scholarship on Islamic law and legal history ranges from medieval institutions and the history of Islamic legal interpretation to urgent problems relating to the modern reception and re-assessment of Islamic legal doctrine Fadel's intellectual concerns focus primarily on the compatibility of the Islamic legal tradition with modern liberal political arrangements but in his research and writing he also delves into the realm of premodern Islamic legal thought and institutions His Rawlsian approach leads him to a political reading of the Islamic legal tradition which he accomplishes by teasing out jurists' assumptions about politics economics and the domestic sphere Fadel's readings of Islamic legal sources

suggest that Islamic law remains relevant to a society in which legitimate disagreements over law and morality seem intractable At the same time from the Rawlsian perspective he adopts Fadel reminds us that premodern Muslim jurists formulated Islamic law also under conditions of substantial controversy over matters of law and morality as well as over questions of religion politics theology and metaphysics The studies gathered together in this volume adroitly illustrate Fadel's interest in Islamic law as a domain of Islamic political thought and as a framework that might be deployed in today's pluralistic and secularized societies

political reasons for leaving the original countries and the cultures in the new places Topics discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures including the arts they bring the struggles they face and some of the cities that are in the forefront of receiving immigrant cultures Diaspora Communities include over 60 portraits of specific diaspora communities Each portrait follows a standard outline to facilitate comparisons The Encyclopedia of Diasporas can be used both to gain a general understanding of immigration and immigrants and to find out about particular cultures topics and communities It will prove of great value to researchers and students curriculum developers teachers and government officials It brings together the disciplines of anthropology social studies political studies international studies and immigrant and immigration studies
