**State Accountability for Space Debris** Peter Stubbe, 2017-11-13 In State Accountability for Space Debris Peter Stubbe examines the legal consequences of space debris pollution which he argues is a global environmental concern The study finds that the customary no harm rule and Article IX of the Outer Space Treaty obligate States to prevent the generation of debris and that the international community as a whole has a legitimate interest in their compliance A breach of these obligations entails the responsibility of a State and compensation must be provided for damage caused by space debris The author treats responsibility and liability separately and thoroughly scrutinizes both legal regimes with the help of common analytical elements Finally Peter Stubbe argues that a comprehensive traffic management system is required so as to ensure the safe and sustainable use of outer space
