An Unnatural History of Religions Leonardo Ambasciano,2018-12-27

An Unnatural History of Religions examines the origins development and critical issues concerning the history of religion and its relationship with science The book explores the ideological biases logical fallacies and unwarranted beliefs that surround the scientific foundations or lack thereof in the academic discipline of the history of religions positioning them in today s post truth culture Leonardo Ambasciano provides the necessary critical background to evaluate the most important theories and working concepts dedicated to the explanation of the historical developments of religion He covers the most important topics and paradigm shifts in the field such as phenomenology postmodernism and cognitive science These are taken into consideration chronologically each time with case studies on topics such as shamanism gender biases ethnocentrism and biological evolution Ambasciano argues that the roots of post truth may be deep in human biases but that historical justifications change each time resulting in different combinations The surprising rise of once fringe beliefs such as conspiracy theories pseudoscientific claims and so called scientific creationism demonstrates the alarming influence that post truth ideas may exert on both politics and society Recognising them before they spread anew may be the first step towards a scientifically renewed study of religion

SPECIES & SAPIENS Augustin Ostace,2020-04-03

Has our Species Sapiens a guardian angel around her Eine Schutzengel herum Or just a little devil Oder nur ein kleiner Teufel Could survive our Species in this extra stressing condition which in the third decade of the March 2020 seems to be unbearable particularly for western Europe Italy and Spain and United States Could one write could one think a book of all books of Sapiens a verse of

all verses of Sapiens a formula of all formulas of Sapiens an equation of all equations of Sapiens a theory about all theories about Sapiens a principle of all principles about Sapiens in order to save Sapiens or at least to alleviate its ordeal and misery of this present pathology which Thursday 26 March 2020 has reached worldwide about 500 000 cases with fast 22 000 deaths Since Mid December 2019 a strange and dangerous epidemic outbreak of an infectious virus a viral disease originating in Far East China mainland with epicentre in Wuhan province having at North the Nanjing city and province at East is placed the Hangzhou province at south is Changsha province and at West is Chongqing province But within the next three months Mid December till mid February China has succeeded to stop the extension of disease by following the official reports of Chinese authorities while in Western Europe and United States the ravages of this Seuchung disease are enormous This infectious outbreak has been ravaged the world by sweeping over countries and continents reaching its peak of mortality in mid March 2020 in Western Europe more exactly in Italy over 60 000 cases with over 6 000 deaths and Spain over 35 000 cases with over 3 000 deaths The whole of Sapiens is haunted by this virus phantom by this nanometric haunt which can provoke serious diseases in human some of them with lethal ending through aggravated respiratory weaknesses both in upper and down of respiratory system called SARS Severe Acute Respiratory Syndrome with the particularity of Middle East area called MERS Middle East Severe Acute Respiratory System The measures of closing businesses schools universities museum expositions sport events including even the Olympic Games in July this year in Japan then industry of tourism through airports and agreements places then congresses and symposiums including those of medical ones with harsh boundaries controls between states or between regions of the same countries here are a sombre development of this viral disease called in scientific terms COVID 19 or by other as SARS COVID 2 All of a sudden billions and billions of Euro and Dollars have been pushed in all forms of medical precautionary of anti viral measures in hospitals clinics researching of new drugs or an efficient vaccine in this battlefield of all called by myself as SAPIENS against CORONA VIRUS It is reported that some drugs already used for other diseases could have some positive actions for the treatment of this overspreading illness Among millions and millions of doctors and assistants of researcher and clinicians throughout the world there is also a theoretical searcher and researcher in this area particularly in THEORETICAL MEDICINE in recombining MEDICINE with PHILOSOPHY as PHILOSOPHICAL MEDICINE who is just myself It is noted that my previous two books regarding this dramatic topics SAPIENTOLOGY CORONA VIRUS and CORONA IS SAPIENS are already published on line through Amazon KDP waiting also in days their publishing on GooglePlay Books Now around of 25 March 2020 is to hope the online publishing of the third book about Corona virus called SAPIENTOCOVID 2020 But at 26 March 2020 through a supra synthesis of Corona online books it is thought the fourth virus book in row under the title SAPIENTOSOPHY VIRUSOSOPHY Two wisdoms in SOPHOS both in battlefield of the present pathology Why not because Sapiens itself has been built on for battle likewise the Corona virus in its endemic and pandemic overspreading But as fight against Corona virus goes on and on

around 30 March 2020 another online book EIDOS CORRONA the fifth book in row is ready for challenging this pandemic damnation of humanity Now the books are writing one after another with the sixth book in row under title SPECIES SAPIENS Therefore let s try it let s encourage and re encourage this kind of behaviour in publishing books primarily online about this world wide plague the sad dominance in our virus plague time or era of CORONA VIRUS through these sets of books of booklets and possible bookishes all relating this pandemic infectious of worldwide disease by making ill history hopes and deities alike Sapientologist of Theoretical Sapiens *Volume 10: Philosophy of Religion* Guttorm Fløistad,2009-10-31 The present volume is a continuation of the series Contemporary Philosophy As with the earlier volumes in the series the present Chronicles purport to give a survey of significant trends in contemporary philosophy The need for such surveys has I believe increased rather than decreased over the years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the increasing contact between philosophers from various cultures the emergence of new schools of thought particularly in philosophical logic and in the philosophy of language and ethics and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the most important contributing factors Surveys of the present kind are a valuable source of knowledge of this complexity The surveys may therefore help to strengthen the Socratic element of modern philosophy the intercultural dialogue or Kommunikationsgemeinschaft So far nine volumes have been published in this series viz Philosophy of Language and Philosophical Logic Volume 1 Philosophy of Science Volume 2 Philosophy of Action Volume 3 Philosophy of Mind Volume 4 African Philosophy Volume 5 Medieval Age Philosophy Volumes 6 1 and 6 2 Asian Philosophy Volume 7 Philosophy of Latin America Volume 8 and Aesthetics and Philosophy of Art Volume 9 **Fate and Life** Michael Allen Fox,2024-05-14 Some believe that fate rules our lives while others dismiss the idea outright Fate remains central to many cultural outlooks and in our age of conflict climate change and pandemic it features conspicuously in debates about the future A careful examination of this important idea its background many meanings and significance for everyday life is not only informative and intriguing but also timely In Fate and Life Michael Fox confronts the idea of fate head on and demonstrates that how we interpret and apply this concept can make it work for rather than against us Many discussions characterize fate negatively or as part of the occult representing it as a supernatural force that stifles our freedom Fateful ideas have also helped rationalize and promote the persecution of certain groups But viewed more positively fate can be understood as the given conditions of existence and the imponderable way certain unanticipated events momentarily alter the path we follow over time Thinking about fate teaches us about who we are how we see the world and our evaluation of the possibilities of life Fate and Life provides a multicultural and global account of how we talk about the idea of fate how we use and misuse it and how it contrasts with notions like destiny and karma Fox s original perspective a breakthrough in philosophy and the history of ideas shows that fate is supported by experience it is compatible with our sense of agency and purpose and it helps us make sense of our lives

David, Marc Hirshman, 2014-04 This volume of essays presents a compelling and comprehensive analysis of the intriguing issue of the gift of the land of Israel and the fate of the Canaanites as presented in diverse biblical sources Jewish thought has long grappled with the moral and theological implications and challenges of this issue Innovative interpretive strategies and philosophical reflections were offered modified and sometimes rejected over the centuries Leading contemporary scholars follow these threads of interpretation offered by Jewish thinkers from antiquity to modern times **Through a Glass Darkly** Frances Di Lauro, 2006-12-06 *Through a Glass Darkly* Reflections on the Sacred is a collection of research articles on the influence of religion on music literature and art The book was edited by Frances Di Lauro with an introduction by Victoria Barker

Ritual and Religion in the Making of Humanity Roy A. Rappaport, 1999-03-25 Roy Rappaport argues that religion is central to the continuing evolution of life although it has been displaced from its original position of intellectual authority by the rise of modern science His book which could be construed as in some degree religious as well as about religion insists that religion can and must be reconciled with science Combining adaptive and cognitive approaches to the study of humankind he mounts a comprehensive analysis of religion's evolutionary significance seeing it as co extensive with the invention of language and hence of culture as we know it At the same time he assembles the fullest study yet of religion's main component ritual which constructs the conceptions which we take to be religious and has been central in the making of humanity's adaptation The text amounts to a manual for effective ritual illustrated by examples drawn from anthropology history philosophy comparative religion and elsewhere **International Handbook of Violence Research** Wilhelm Heitmeyer, John Hagan, 2005-08-12 An international manual is like a world cruise a once in a lifetime experience All the more reason to consider carefully whether it is necessary This can hardly be the case if previous research in the selected field has already been the subject of an earlier review or even several competing surveys On the other hand more thorough study is necessary if the intensity and scope of research are increasing without comprehensive assessments That was the situation in Western societies when work began on this project in the summer of 1998 It was then too that the challenges emerged any manual especially an international one is a very special type of text which is anything but routine It calls for a special effort the state of the art has to be documented for selected subject areas and its presentation made as compelling as possible The editors were delighted therefore by the cooperation and commitment shown by the eighty one contributors from ten countries who were recruited to write on the sixty two different topics by the constructive way in which any requests for changes were dealt with and by the patient response to our many queries This volume is the result of a long process It began with the first drafts outlining the structure of the work which were submitted to various distinguished colleagues Friedheim Neidhardt of Berlin Gertrud Nunner Winkler of Munich and Roland Eckert of Trier to name only a few supplied valuable comments at this stage **Writing Journeys across Cultural Borders** Elena V. Shabliy, Kimarie Engerman, 2021-10-13

Narratives of journeys voyages and pilgrimages often guide readers to questions about humanism and humanity from a holistic perspective The chapters in this volume explore narratives of both real and imagined journeys and examine their religious psychological psychoanalytical philosophical educational and historical implications What emerges is an understanding of narratives of journeys across cultural borders as powerful educational tools that can model and contribute to meaningful dialogue with other states cultures and civilizations

Muslims as Actors Jacques Waardenburg,2012-02-13 This book deals with Islamic studies and with the question how the scholarly study of religion can contribute to the study of Islam The author advocates studying Islamic phenomena as signs and symbols interpreted and applied in diverse ways in existing traditions He stresses the role of Muslims as actors in the ongoing debate about the articulation of Islamic ways of life and construction of Islam as a religion A careful study of this debate should steer clear of political religious and ideological interests Research in this area by Muslims and non Muslim scholars alike should address the question of what Muslims have made of their Islam in specific circumstances Current political contexts have created an unhealthy climate for pursuing an open approach to Islam based on reading observing listening and reflecting Yet precisely nowadays we need to look anew at ways of Muslim thinking and acting that refer to Islam and to avoid certain schemes of interpreting Muslim realities that are no longer adequate for present day Muslim life situations Muslim recourse to Islam can be studied as human constructions of value and meaning and relations between Muslims and others can be seen in terms of human interaction without blame always falling on Islam as such

Da'wa Matthew J. Kuiper,2021-03-31 In this engaging study Matthew J Kuiper tells the fascinating story of how Islam became a world religion and cultural phenomenon of immense scale astonishing diversity and global impact His starting point is the dramatic upsurge in da wa inviting to Islam or Islamic missionary activism
