Handbook of Social Work Practice with Vulnerable and Resilient

Populations Alex Gitterman, 2001 Role in forming balanced assessments Social Work and Social Development James Midgley, Amy Conley, 2010-05-19 Social workers have been involved in social development for many years but it is only recently that these ideas have been explicitly applied to social work practice The result is that a new and distinctive approach to social work practice known as developmental social work has emerged Developmental social work emphasizes the role of social investment in professional practice These investments meet the material needs of social workers clients and facilitate their full integration into the social and economic life of the community Developmental social workers believe that client strengths and capabilities need to be augmented with public resources and services if those served by the profession are to live productive and fulfilling lives Although developmental social work is inspired by international innovations particularly in the developing countries it is highly relevant to practice in the United States and other Western nations In the first book to lay out a clear framework for developmental social work practice chapters will focus on the traditional fields of social work practice showing how social investment strategies can be adopted by social workers in their daily practice with populations including families and children people with mental illness homeless youth people with disabilities the elderly and those in the correctional system By facilitating clients full social and economic participation through a variety of strategies such as microenterprise or asset building programs practitioners can help bring about meaningful changes in clients lives and throughout their communities The editors and contributors offer a highly original exposition of developmental social work theory and practice providing a definitive guide to an emerging and exciting new approach to practice

Religion, Spirituality, and Aging Harry R Moody, 2012-12-06 Learn how to make a more positive impact with your social work with the aged Religion is an important coping mechanism for many aging adults Religion Spirituality and Aging A Social Work Perspective presents the latest research that shows how religion and spirituality can improve quality of life for elders Respected social work researchers and scholars provide insight and practical methods for fostering positive aging while also considering how spirituality and religion can affect practitioners themselves The full range of advantages and ethical implications are discussed in clear detail from a social work viewpoint Case studies plainly illustrate the positive impact that the inclusion of spirituality and religion in an aging persons life may have on their physical and mental welfare Organized

social work in the early twentieth century actively tried to distance itself from its roots as a form of religious charity in favor of becoming a scientific and professional endeavor. Religion, Spirituality, and Aging once again bridges the gap between social work and spiritual matters by presenting penetrating articles that discuss the issues of the aging soul while examining ways to improve care. Creative strategies are offered to contribute to the spiritual side of aging while considering every implication and ethical question. The compilation is extensively referenced and includes helpful figures and tables to clearly illustrate data and ideas. Religion, Spirituality, and Aging discusses the latest social work trends and attitudes toward spirituality, prayer, meditation, and acts of altruism as interventions; an empirical study of how social workers use religion and spirituality as an intervention; ethical considerations and best practices; religion and spirituality during long-term care; the Postcards to God project; dreams and their relationship to the search for meaning in later life; a spiritual approach to positive aging through autobiography; dementia and spirituality; creating new rituals for sacred aging; spiritual master Henri Nouwen's principles of aging; and his approaches to caring for older people; an interview study on elders' spirituality and the changes manifested in their views of religion. Religion, Spirituality, and Aging is a remarkable reminder that elders are our future selves. This erudite, well-reasoned examination of aging and spirituality from a social work perspective is crucial reading for social workers, human service professionals who work with the aged, and gerontology scholars.

Integrative Body-Mind-Spirit Social Work Mo Yee Lee, 2009-03-25. In recent years, interest in non-Western curative techniques among Americans has grown by leaps and bounds. *Integrative Body-Mind-Spirit Social Work* is the first book to strongly connect Western therapeutic techniques with Eastern philosophy and practices while also providing a comprehensive and pragmatic agenda for social work and mental health professionals. This breakthrough text, written by a cast of highly regarded researchers from both Asia and America, presents a holistic therapeutic approach that ties Eastern philosophy and practical techniques to Western forms of therapy in order to help bring about positive transformative changes in individuals and families. Integrative therapy focuses on the mind-body-spirit relationship, recognizes spirituality as a fundamental domain of human existence, acknowledges and utilizes the mind's power as well as the body's, and reaches beyond self-actualization or symptom reduction to broaden a perception of self that connects individuals to a larger sense of themselves and to their communities. Here, the authors provide a pragmatic, step-by-step description of assessment and treatment techniques that employ an integrative, holistic perspective. They begin by establishing the conceptual framework of integrative body-mind-spirit social work, then expertly describe step-by-step assessment and treatment techniques that utilize integrative and holistic perspectives. Several case studies demonstrate the approach in action, such as one with breast cancer patients who participated in body-mind-spirit and social support groups, and another in which trauma survivors used meditation to get onto a path of healing. These examples provide solid empirical evidence that integrative body-mind-spirit social work is indeed a practical therapeutic approach in bringing about tangible changes in clients. The authors also discuss ethical issues and give

tips for learning integrative body mind spirit social work Professionals in social work psychology counseling and nursing as well as graduate students in courses on integral alternative or complementary clinical practice will find this a much needed resource that complements the growing interest in alternatives to traditional Western psychotherapy Technology in Social Work Education and Curriculum Florence W Vigilante, Richard L Beaulaurier, Martha F Haffey, 2016-05-06 Save time and trouble as you incorporate technology into your social work curriculum The dramatic increase in the use of computers and other forms of technology in social work education and practice has educators trainers and administrators investing valuable time money and effort into trying to make the transition from traditional teaching to a Web assisted learning environment Technology in Social Work Education and Curriculum takes the mystery out of the online experience with practical information on using technology to enhance and enrich learning but not at the expense of the human approach to social work This unique book presents a variety of creative and interesting methods for incorporating technology that is affordable and user friendly and for developing online skills that won't become obsolete as computer hardware and software evolves Technology in Social Work Education and Curriculum transforms technology into an everyday resource for agency field instructors human service educators trainers and social work administrators The book addresses concerns that educators with limited technical skills may have in using technology to teach cultural competency group work research direct practice social policy and advocacy and field practicum presenting hands on approaches that are innovative but accessible And by focusing on approaches rather than simply reviewing available hardware and software the book provides you with background knowledge that makes it easier for you to successfully incorporate online learning into the classroom Technology in Social Work Education and Curriculum examines using instructional technology to emotionally engage students in the learning process using digital video and qualitative data analysis software to teach group practice the role technology plays in advocacy distance education technologies in policy education incorporating Web assisted learning into a traditional classroom setting the advantages of distance education over more conventional approaches a model for planning the use and integration of computer technology in schools of social work how the behaviors of computer consultants can affect the students who seek their help using innovation diffusion theory in technology planning and much more Social workers have traditionally embraced the latest technologies and scientific developments since the earliest days of the profession Technology in Social Work Education and Curriculum helps continue that tradition offering invaluable guidance to educators and administrators no matter how experienced or inexperienced they are in dealing with communications technologies
