Developmental Science Robert B. Cairns, Glen H. Elder, E. Jane Costello, 1996 Details the new cross disciplinary synthesis as formulated by the Carolina Consortium on Human Development **The First R** Joe R. Feagin, Debra Van Ausdale, 2001-12-11 This study looks into how children learn about the first R race and challenges the current assumptions with case study examples from three child care centers Parents and teachers will find this remarkable study reveals that the answer to how children learn about race might be more startling than could be imagined **Handbook of Life-Span Development** Karen L. Fingerman, 2011 Print CourseSmart **The First R** Debra Van Ausdale, Joe R. Feagin, 2001 The stories of the children are compelling often endearing and unforgettable They will change the way parents teachers and other educators understand the world as seen by children BOOK JACKET Encyclopedia of Sociology Edgar F. Borgatta, 1992 A comprehensive guide to the areas of study history theory and methodology of sociology as practiced in the U S and in other nations *Gods in the Global Village* Lester R. Kurtz, 2012 In an era plagued by religious conflict the Third Edition of Gods in the Global Village directly responds to issues of social problems prevalent in the world today Using an engaging thought provoking style author Lester R Kurtz focuses on the relationship among the major faith traditions that inform the thinking and ethical standards of most people in the emerging global social order This book focuses on a central aspect of that common crisis A major assumption of this book is that all knowledge is shaped by the social context of the knower therefore both religious traditions and our studies of them are shaped by the context in which we construct them The author argues that religious pluralism will be a necessary precondition of the global village for the foreseeable future The question that faces us as a human community is not Which religious tradition is true or even Is any religious tradition true but rather How can we enable the various religious and secular traditions to coexist peacefully on the planet The text supports the belief that the sociology of religion itself a pluralistic discipline can provide invaluable insight into the most pressing problems of our time Leaving Islam, Ex-Muslims and Zemiology Weronika Lenartowicz, 2024-02-28 Cases of ex Muslims in Europe being punished by their former fellow Muslims constitute an unacceptable practice from the standpoint of democratic societies in which human rights are respected and individuals have the freedom to choose their religion or none at all Ex Muslims fear of punishment by their former community should prompt an open candid and measured discussion of the issue Leaving Islam Ex Muslims and Zemiology presents the reasons for and consequences of consciously leaving Islam based on interviews with 80 ex Muslims currently living in Germany and Sweden In their view many of the practices and beliefs of Islam are harmful and unfair Many parts of the Islamic world regard apostasy as treason or a crime As a result emphasis in the book is shifted from crime to harm and a thesis is put forward concerning the decriminalization of apostasy from the perspective of zemiology The book highlights how a broader shift of interest in the democratic structures of Europe could allow ex Muslims to join the discussion on the guaranteed right to religious liberties and freedom of speech in the

context of the apostasy law in Islam This should happen without fear for their own security and without facing potential suppression or social exclusion It will appeal to scholars with interest in Islam and the conflict between religious values and an individual's aspirations and needs
