[Aerospace Bibliography](#) National Aerospace Education Council (U.S.), 1966 [NASA EP.](#) United States. National Aeronautics and Space Administration, **Spacecraft Technology** Mark Williamson, 2006-02-23 This book covers the development of space technology in the late 1950s and 1960s from the launch of Sputnik 1 in October 1957 to the landing of men on the moon in 1969 The text begins by looking at the challenge of getting into space and the development of the launch of the space launch vehicle and moves on to discussion of unmanned satellites and spaceprobes and the first capsules deployed in Earth orbit and the Apollo missions to the moon *Compendium of Practical Astronomy* Günter D. Roth, 2012-12-06 It is a pleasure to present this work which has been well received in German speaking countries through four editions to the English speaking reader We feel that this is a unique publication in that it contains valuable material that cannot easily if at all be found elsewhere We are grateful to the authors for reading through the English version of the text and for responding promptly for the most part to our queries Several authors have supplied us on their own initiative or at our suggestion with revised and updated manuscripts and with supplementary English references We have striven to achieve a translation of Handbuch for Sternfreunde which accurately presents the qualitative and quantitative scientific principles contained within each chapter while maintaining the flavor of the original German text Where appropriate we have inserted footnotes to clarify material which may have a different meaning and or application in English speaking countries from that in Germany When the first English edition of this work Astronomy A Handbook translated by the late A Beer appeared in 1975 it contained 21 chapters This new edition is over twice the length and contains 28 authored chapters in three volumes At Springer's request we have devised a new title Compendium of Practical Astronomy to more accurately reflect the broad spectrum of topics and the vast body of information contained within these pages [Encyclopedia of Space and Astronomy](#) Joseph A. Angelo, 2019 Encyclopedia of Space and Astronomy Revised Edition offers a complete up to date presentation of the

main concepts terms facilities and people in astronomy The encyclopedia pays special attention to space based astronomy and space exploration Broad coverage includes terms such as astrophysics planetary engineering and cosmology as well as both American and international astronomy and space technology **Using the Engineering Literature** Bonnie A.
