Multi-disciplinary Lexicography Olga M. Karpova, Faina I. Kartashkova, 2014-08-11 The present book is based on presentations made during the IXth International School on Lexicography: Multi-disciplinary Lexicography: Traditions and Challenges of the XXIst Century at Ivanovo State University, September 8-10, 2011, and continues a series of collective monographs devoted to the theoretical and practical problems of lexicography published by Cambridge Scholars Publishing in 2007, 2009 and 2010. The scope of topics discussed in four parts: Dictionary as a Crossroad of Language and Culture; Dictionary Use and Dictionary Criticism; Terminology and LSP Studies; and Projects of New Dictionaries is rather wide and focuses on burning problems of European, Russian and world lexicography as well as on projects of new dictionaries. This book will be of interest to theoreticians, practitioners and students of linguistic faculties.

Corporate Responsibility for Wealth Creation and Human Rights Georges Enderle, 2021-01-28 Enderle illustrates the importance of corporate responsibility by integrating wealth creation and human rights. An invaluable reference for students, teachers and researchers in business and economic ethics, social sciences and human rights studies as well as for leaders in business, civil society organizations and international institutions.

Manual of Specialised Lexicography Henning Bergenholtz, Sven Tarp, 1995-01-01 From 1990-1994 the Danish Research Council for the Humanities granted a research project entitled 'translation of LSP texts' which was initially split up into five part projects, one of which has been concerned with LSP lexicography. The Manual of Specialised Lexicography is one of the results of the research undertaken by this project. The primary purpose of the Manual is to contribute towards an improved basis for practical specialised lexicography which has so far had but a small share in the explosive development that has taken place in general language lexicography since the early 1970s. One implication of this is that only to a limited extent has it been possible to build upon existing findings. The Manual thus has the twofold aim of offering guidance and direction to authors of specialised dictionaries as well as contributing towards the further development of lexicographical theories.
