Budge,2013-10-14

Sir E A Wallis Budge 1857 1934 was Keeper of the British Museum's department of oriental antiquities from 1894 until his retirement in 1924. Carrying out many missions to Egypt in search of ancient objects, Budge was hugely successful in collecting papyri, statues and other artefacts for the trustees of the British Museum, numbering into the thousands and of great cultural and historical significance. Budge published well over 100 monographs which shaped the development of future scholarship and are still of great academic value today, dealing with subjects such as Egyptian religion, history and literature. First published in 1899 as part of the Egypt and Chaldaea series, *Egyptian Religion* explores the principal ideas and beliefs held by the ancient Egyptians with regard to the doctrine of the resurrection and the future life. Although no systematic account dealing solely with this doctrine has been discovered, the Book of the Dead and various other religious texts from which this work is derived, reflect ancient Egyptian beliefs, ideals and superstitions. Wallis Budge explores the Gods of the Egyptians and the themes of resurrection and immortality in a classic work of great significance to students and scholars with an interest in ancient Egyptian and Middle Eastern history and religion.

**Religions of the Ancient World** Sarah Iles Johnston, 2004-11-30. This groundbreaking first basic reference work on ancient religious beliefs collects and organizes available information on ten ancient cultures and traditions including Greece, Rome and Mesopotamia and offers an expansive comparative perspective on each one.

*Egyptian Religion* Jens Daniel Carolus Lieblein, 1884.

**The Egyptian Book of the Dead** Eva Von Dassow, 2008-06-02. Reissue of the legendary 3 500 year old Papyrus of Ani, the most beautiful of the ornately illustrated Egyptian funerary scrolls ever discovered, restored in its original sequences of text and artwork.

**Bible Myths, and Their Parallels in Other Religions** Thomas William Doane, 1884.

*Egyptian Religion* Jan Quaegebeur, 1998. The final stages of Egyptian religion from the Saite period until the rise of Christianity are studied here by nearly a hundred scholars from all over the world. The book represents the state of the art on a fascinating period when paganism in all its forms gradually yielded to monotheism. It combines philology and archaeology with more than twenty contributions offering a presentation of unknown textual and iconographic material. Egyptian deities and temples are discussed both from the point of view of institutions and of personal religion. In the multicultural society of Graeco-Roman Egypt, the relationship between native Egyptians and Greek culture is always at the center of the interest. Thanks to the indexes, this will become a standard work of reference in the field of Egyptian religion. The volume is dedicated to Jan Quaegebeur and reflects his wide scope of interests and his impact upon present day study of Egypt in the Graeco-Roman period.
