Eight Tales from the Major Phase : In the Cage & Others Henry James,1969 Eight Tales from the Major Phase Henry James,1958 **The Rise of Multicultural America** Susan L. Mizruchi,2009-06-01 Between the Civil War and World War I the United States underwent the most rapid economic expansion in history At the same time the country experienced unparalleled rates of immigration In *The Rise of Multicultural America* Susan Mizruchi examines the convergence of these two extraordinary developments No issue was more salient in postbellum American capitalist society she argues than the country s bewilderingly diverse population This era marked the emergence of Americans self consciousness about what we today call multiculturalism Mizruchi approaches this complex development from the perspective of print culture demonstrating how both popular and elite writers played pivotal roles in articulating the stakes of this national metamorphosis In a period of widespread literacy writers assumed a remarkable cultural authority as best selling works of literature and periodicals reached vast readerships and immigrants could find newspapers and magazines in their native languages Mizruchi also looks at the work of journalists photographers social reformers intellectuals and advertisers Identifying the years between 1865 and 1915 as the founding era of American multiculturalism Mizruchi provides a historical context that has been overlooked in contemporary debates about race ethnicity immigration and the dynamics of modern capitalist society Her analysis recuperates a legacy with the potential to both invigorate current battle lines and highlight points of reconciliation *Eight Tales* Walter De la Mare,1971 **American Cinema's Transitional Era** Charlie Keil,Shelley Stamp,2004-07-12 This transitional era covered the years 1908 1917 witnessed profound changes in the structure of the motion picture industry in the US involving film genre film form filmmaking practices the emergence of the studio system The pattern which emerged dominated the industry for decades to come *The Attractions of the Moving Image* Tom Gunning,2025-04-30 An essential collection of new and selected essays by influential cinema and media studies scholar Tom Gunning Tom Gunning is the author of multiple books and nearly two hundred essays that have defined the field of cinema and media studies His works have transformed our understanding of early cinema and the American avant garde and reset the terms of many central debates in film and media history and theory His 1986 essay *The Cinema of Attractions* is among the most cited essays on film ever published Gunning s writings articulate a distinctive and powerful model for thinking about cinema s history and likely future addressing the full range of moving image media from film to still photography to digital media His discussions draw on stage melodrama and magic lantern shows as well as criminology world s fairs and Spiritualism surveying the medium as a cultural phenomenon informed by the industrial and information ages psychiatry urban experience discourses on art and aesthetics and more This collection brings together twenty six essays that showcase the depth and range of Gunning s scholarship including four that have never before been published Together they solidify Gunning s place as a scholar who has transformed the way generations of scholars archivists critics and artists

think about cinema **Melting-Pot Modernism** Sarah Wilson, 2011-03-15 Between 1891 and 1920 more than 18 million immigrants entered the United States While many Americans responded to this influx by proposing immigration restriction or large scale Americanization campaigns a few others figures such as Jane Addams and John Dewey adopted the image of the melting pot to oppose such measures These Progressives imagined assimilation as a multidirectional process in which both native born and immigrants contributed their cultural gifts to a communal fund Melting Pot Modernism reveals the richly aesthetic nature of assimilation at the turn of the twentieth century focusing on questions of the individual's relation to culture the protection of vulnerable populations the sharing of cultural heritages and the far reaching effects of free market thinking By tracing the melting pot impulse toward merging and cross fertilization through the writings of Henry James James Weldon Johnson Willa Cather and Gertrude Stein as well as through the autobiography sociology and social commentary of their era Sarah Wilson makes a new connection between the ideological ferment of the Progressive era and the literary experimentation of modernism Wilson puts literary analysis at the service of intellectual history showing that literary modes of thought and expression both shaped and were shaped by debates over cultural assimilation Exploring the depth and nuance of an earlier moment's commitment to cultural inclusiveness Melting Pot Modernism gives new meaning to American struggles to imaginatively encompass difference and to the central place of literary interpretation in understanding such struggles **The Annual of Psychoanalysis, V. 29** Jerome A. Winer, James W. Anderson, 2013-05-13 Sigmund Freud and His Impact on the Modern World volume 29 of The Annual of Psychoanalysis is a comprehensive reassessment of the influence of Sigmund Freud Intended as an unofficial companion volume to the Library of Congress's exhibit Sigmund Freud Conflict and Culture it ponders Freud's influence in the context of contemporary scientific psychotherapeutic and academic landscapes Beginning with James Anderson's biographical remarks which are geared specifically to the objects on display in the Library of Congress exhibit and Roy Grinker Jr's more personal view of Freud the volume branches out in various directions in an effort to comprehend the multidimensional and multidisciplinary richness of Freud's contribution In section II we find authoritative summaries of Freud's scientific contributions of his continuing impact as a thinker of his notion of symbolization in the context of recent neuroscientific findings and of his status as a cultural subversive In section III contributors hone in on more specific aspects of Freud's legacy such as an experimental method to review how Freud's idea of childhood sexuality has fared and a look at the women who became analysts in the United States In the concluding section of the volume contributors turn to Freud's influence in various humanistic disciplines literature drama religious studies the human sciences the visual arts and cinema With this scholarly yet highly accessible compilation the Chicago Institute provides another service to its own community and to the wider reading public Sure to enhance the experience of all those attending Sigmund Freud Conflict and Culture Sigmund Freud and His Impact on the Modern World will appeal to anyone desirous of an up to date overview of the man whose work shaped the psychological sensibility of the century just past and

promises to reverberate throughout the century just born **The Portable Theater** Alan Louis Ackerman,2002 In *The Portable Theater* Alan Ackerman investigates the crucial importance of theater in the works of Walt Whitman Herman Melville William Dean Howells Louisa May Alcott and Henry James Whether as drama critics playwrights amateur actors or simply as avid theater goers each of these authors thought deeply about the theater and represented it in literature

Confession and Complicity in Narrative Dennis A. Foster,1987-05-29 What is the precise relationship between the writer of a text and the reader Contributions to reader response theory have suggested that the reader is relatively passive In this 1987 text Professor Foster argues that the relationship is more complex than that readers enter into complicity with writers and create the illusion of the writer s mastery over meaning in order to imagine themselves as masters and become writers in their own place This dynamic model of the reading process is revealed most tellingly in confessional narratives and so Professor Foster explores the complex patterns of the reader writer symbiosis in texts by Augustine Kierkegaard Henry James Hawthorne Faulkner and Beckett What emerges is a fresh theory of reading literature the engagement between writer and reader as a struggle for power in which the reader is actively complicit and self conscious in his or her interpretations

Virtual Modernism Katherine Biers,2013-10-01 In *Virtual Modernism* Katherine Biers offers a fresh view of the emergence of American literary modernism from the eruption of popular culture in the early twentieth century Employing dynamic readings of the works of Stephen Crane Henry James James Weldon Johnson Djuna Barnes and Gertrude Stein she argues that American modernist writers developed a poetics of the virtual in response to the rise of mass communications technologies before World War I These authors modernist formal experimentation was provoked by the immediate individualistic pleasures and thrills of mass culture But they also retained a faith in the representational power of language and the worth of common experience more characteristic of realism and naturalism In competition with new media experiences such as movies and recorded music they simultaneously rejected and embraced modernity Biers establishes the virtual poetics of these five writers as part of a larger virtual turn in the United States when a fascination with the writings of Henri Bergson William James and vitalist philosophy and the idea of virtual experience swept the nation *Virtual Modernism* contends that a turn to the virtual experience of language was a way for each of these authors to carve out a value for the literary both with and against the growth of mass entertainments This technologically inspired reengagement with experience was formative for American modernism Situated at the crossing points of literary criticism philosophy media studies and history *Virtual Modernism* provides an examination of Progressive Era preoccupations with the cognitive and corporeal effects of new media technologies that traces an important genealogy of present day concerns with virtuality

Mizruchi,2021 *Henry James A Very Short Introduction* places Henry James s notoriously difficult writings in their historical and biographical context Henry James had a major impact on the literary culture of his time and ever since From his childhood through his mature life James created a unique body of fiction travel writing reviews and

Media, Technology, and Literature in the Nineteenth Century Margaret Linley, 2016-04-29 Operating at the intersection where new technology meets literature this collection discovers the relationship among image sound and touch in the long nineteenth century The chapters speak to the special mixed media properties of literature while exploring the important interconnections of science technology and art at the historical moment when media was being theorized debated and scrutinized Each chapter focuses on a specific visual acoustic or haptic dimension of media while also calling attention to the relationships among the three Famous works such as Wordsworth's I wandered lonely as a cloud and Shelley's Frankenstein are discussed alongside a range of lesser known literary scientific and pornographic writings Topics include the development of a print culture for the visually impaired the relationship between photography and narrative the kaleidoscope and modern urban experience Christmas gift books poetry painting and music as remediated forms the interface among the piano telegraph and typewriter Ernst Heinrich Weber's model of rationalized tactility and how the shift from visual to auditory telegraphic instruments amplified anxieties about the place of women in nineteenth century information networks Full of surprising insights and connections the collection offers new impetus for stimulating historical conversations and debates about nineteenth century media while also contributing fresh perspectives on new media and re-mediation today

Evolution and Literary Theory Joseph Carroll, 1995 Over the past two decades poststructuralism in its myriad forms has come to dominate literary criticism to the exclusion of virtually any other point of view Few scholars have escaped the coercive authority of its programmatic radicalism In *Evolution and Literary Theory* Joseph Carroll vigorously attacks the foundational principles of poststructuralism and offers in their stead a bold new theory that situates literary criticism within the matrix of evolutionary theory

Metaphors of Confinement Monika Fludernik, 2019-08-13 *Metaphors of Confinement* The Prison in Fact Fiction and Fantasy offers a historical survey of imaginings of the prison as expressed in carceral metaphors in a range of texts about imprisonment from Antiquity to the present as well as non-penal situations described as confining or restrictive These imaginings coalesce into a carceral imaginary that determines the way we think about prisons just as social debates about

punishment and criminals feed into the way carceral imaginary develops over time Examining not only English language prose fiction but also poetry and drama from the Middle Ages to postcolonial particularly African literature the book juxtaposes literary and non literary contexts and contrasts fictional and nonfictional representations of imprisonment and discussions about the prison as institution and experiential reality It comments on present day trends of punitivity and foregrounds the ethical dimensions of penal punishment The main argument concerns the continuity of carceral metaphors through the centuries despite historical developments that included major shifts in policy such as the invention of the penitentiary The study looks at selected carceral metaphors often from two complementary perspectives such as the home as prison or the prison as home or the factory as prison and the prison as factory The case studies present particularly relevant genres and texts that employ these metaphors often from a historical perspective that analyses development through different periods

The Turn of the Screw & In the Cage Henry James, 2012-08-22 This Modern Library Paperback Classics edition brings together one of literature's most famous ghost stories and one of Henry James's most unusual novellas In The Turn of the Screw a governess is haunted by ghosts from her young charges past Virginia Woolf said of this masterpiece of psychological ambiguity and suggestion We are afraid of something unnamed of something perhaps in ourselves Henry James can still make us afraid of the dark In his rarely anthologized novella In the Cage James brings his incomparable powers of observation to the story of a clever rebellious heroine of Britain's lower middle class Hortense Calisher in her Introduction calls it a delicious story the more so because it confounds what we expect from James
