Eighteen Upbuilding Discourses Ed Tr By Howard V Hong Edna H Hong:

Eighteen Upbuilding Discourses Søren Kierkegaard, 1990 There is much to be learned philosophically from this volume but philosophical instruction was not Kierkegaard's aim here except in the broad sense of self knowledge and deepened awareness Indicating the intention of the discourses the titles include The Expectancy of Faith Love Will Hide a Multitude of Sins Strengthening in the Inner Being To Gain One's Soul in Patience Patience in Expectancy and Against Cowardliness In tone and substance these works are in accord with the concluding words of encouragement in Either/Or which was paired with the first volume of discourses Ask yourself and keep on asking until you find the answer for one may have known something many times acknowledged it one may have willed something many times attempted it and yet only the deep inner motion only the heart's indescribable emotion only that will convince you that what you have acknowledged belongs to you that no power can take it from you for only the truth that builds up is truth for you Kierkegaard Sylvia Walsh, 2009 Kierkegaard was a Christian thinker perhaps best known for his devastating attack upon Christendom or the established order of his time Sylvia Walsh explores his understanding of Christianity and the existential mode of thinking theologically appropriate to it in the context of the intellectual cultural and socio political milieu of his time **Antiphilosophy of Christianity** Ghislain Deslandes, 2021-05-22 This text presents and addresses the philosophical movement of antiphilosophy working thru the texts of Christian thinkers such as Pascal and Kierkegaard The author as influenced by Alain Badiou portrays these Christian thinkers as of a subjective dimension negating the possibility of an objective quest for truth The claim here is that antiphilosophy is abundant in the eyes of these two thinkers who frame the thought event as represented by Christianity ultimately resigning itself to more or less the opposite of philosophy itself Readers will discover why philosophical reason should never be convinced by that which denies its very authority Subjecting faith to the perils of philosophical analysis confronting the philosophical tradition with the truth of the Christian faith and occupying the space between the two such are the challenges facing an antiphilosophy of Christianity This text will appeal to researchers and students working in continental philosophy philosophy of religion and those in religious studies who want to investigate the links between Christianity and antiphilosophy Kierkegaard and His Contemporaries Jon Stewart, 2008-08-22 Interpreting Kierkegaard in the general context of Golden Age Denmark this interdisciplinary anthology features articles which treat his various relations to his most famous Danish contemporaries It aims to see them not as minor figures laboring in Kierkegaard's shadow but rather as significant thinkers and artists in their own right The articles illuminate both Kierkegaard's influence on his contemporaries and their varied influences on him By means of the analyses of these various relations aspects of Kierkegaard's authorship are brought into new and insightful perspectives The featured essays treat some of the most important figures from the time representing the fields of philosophy theology literature criticism and art **Kierkegaard, Religion, and Existence** Avi Sagi, 2021-12-13 This book is an original philosophic exploration of the meaning of Kierkegaard

s life his thought and his works It makes a bold case for Kierkegaard's recognition of the concrete existence of the individual including Kierkegaard himself as crucial to the spiritual life Written with delicate insight and beautifully translated from Hebrew this work offers valuable new turns to understanding the puzzling life work of a modern giant of spiritual reflection

'Being Towards Death' Sylvie Avakian,2021-04-19 This book draws the philosophical contribution of Martin Heidegger together with theological spiritual insights from the East especially that of Nikolai Berdyaev Thus it brings into dialogue the West with the East and philosophy with theology By doing so it offers Christian theology an existential spiritual language that is relevant and meaningful for the contemporary reader In particular the work explores Heidegger's being towards death *Sein zum Tode* as the basis for theological philosophical thinking Only the one who embraces being towards death has the courage to think and poetize This thinking in turn makes being towards death possible and in this circular movement of thinking and being the mystery of being reveals itself and yet remains hidden Since the work aims at demonstrating being towards death through language it transitions away from the common formulations and traditionally accepted ways of writing dogmatic theology towards an original philosophical reflection on faith and spirituality At different points however the work also retrieves the profound thoughts and theologies of the past the insightful creativity of which cannot be denied

The Ark of Speech Jean-Louis Chrétien,2004-03-01 *The Ark of Speech* investigates the interplay of speech and silence in the dialogue between God and human beings and human beings and the world Ranging from the Old Testament and its depiction of God's creative word to the New Testament and its focus on the life and words of Jesus as the Word of the Father the book shows how important it is for the believer to listen to God and to others in silence and devotion

Eternal God/saving Time George Pattison,2015 Starting from the assumption that time is the horizon of the meaning of Being Heidegger *Eternal God Saving Time* attempts to discover what the central religious idea of eternity or of God as the Eternal might mean today Negotiating ideas of divine timelessness and sempiternity everlastingness as well as the attempts of some philosophers to develop the idea of a temporal God Professor George Pattison surveys a range of positions from analytic philosophy and from the continental tradition from Spinoza through Hegel to the present Intellectual and cultural forces have tended to separate time and eternity and both philosophical and theological examples of this tendency are examined Nevertheless starting from the experience of life in time some modern thinkers have developed a new approach to the Eternal as what grounds or gives time This leads through ideas of novelty utopia hope promise and call to the projection of a creative and transformative memory remembering the future that affirms human solidarity and mutual responsibility Even if this cannot be made good in terms of knowledge it offers a basis for hope prayer and commitment and these options are explored through a range of Christian Jewish Greek and secular thinkers This development re-envisages the idea of redemption away from the Augustinian view that time is what we need to be rescued from and towards the idea that time itself might save us from all that is destructive and tyrannical in time's rule over human life

Kierkegaard's Muse Joakim Garff,2017-06-05 The first

biography of Kierkegaard's literary muse and one time fiancée from the author of the definitive biography of the philosopher Kierkegaard's Muse the first biography of Regine Olsen 1822-1904 the literary inspiration and one time fiancée of Danish philosopher Søren Kierkegaard is a moving portrait of a long romantic fever that had momentous literary consequences Drawing on more than one hundred previously unknown letters by Regine that acclaimed Kierkegaard biographer Joakim Garff discovered by chance the book tells the story of Kierkegaard and Regine's mysterious relationship more fully and vividly than ever before shedding new light on her influence on his life and writings Like Dante's Beatrice Regine is one of the great muses of literary history Kierkegaard proposed to her in 1840 but broke off the engagement a year later After their break they saw each other strikingly often inside dimly lit churches on the streets of Copenhagen and on the paths along the old city ramparts passing by without uttering a word Despite or because of their separation in life Kierkegaard made Regine his literary life companion that single individual to whom he dedicated all his works Garff shows how Regine became a poetic presence in the frequent erotic conflicts found throughout Kierkegaard's writings from the famous *Seducer's Diary* account of their relationship to diary entries made shortly before his death in 1855 In turn Regine remained preoccupied with Kierkegaard until her own death almost fifty years later and her newly discovered letters written to her sister Cornelia reveal for the first time a woman of flesh and blood A psychologically acute narrative that is as gripping as a novel Kierkegaard's Muse is an unforgettable account of a wild strange and poignant romance that made an indelible mark on literary history Some images inside the book are unavailable due to digital copyright restrictions

Trinitarian Soundings in Systematic Theology Paul Louis Metzger, 2010-07-15 Trinitarian Soundings in Systematic Theology is a multi-authored exploration of systematic theology from a Trinitarian perspective Its aim is to show how the doctrine of the Trinity sheds light on other key doctrines from prolegomena to eschatology and theological ethics To borrow a phrase from Robert Jenson the doctrine of the Trinity is not a separate puzzle to be solved but the framework within which all theology's puzzles are to be solved Given the scarcity of systematic theologies done trinitarianly this collective project suggests a path to follow in the formulation of each particular doctrine represented in the volume Trinitarian Soundings promises to become an important work given its unique presentation of major themes of systematic theology in their classical order yet from a Trinitarian point of view Its contributors include veteran theologians as well as younger scholars who are energetically employing this Trinitarian focus The contributors represent various theological traditions and geographical locations which surely bring richness to the theological inquiry Dedicated to the memory of a pioneer in the resurgence of Trinitarian theology the late Prof Colin Gunton this collection represents a distinctive treatment of systematics intent on showing the vitality of approaching all aspects of the faith from a self-consciously Trinitarian perspective

Kierkegaard and the Crisis of Faith George Pattison, 2013-11-07 The standing of the Danish philosopher and religious thinker Søren Kierkegaard has gone up in recent years Yet because he regarded communication as being as much about self-concealment as about self-revelation he can still seem a forbidding and

difficult figure The deliberate ambiguity of Kierkegaard in which he set out to repel as much as to attract his readers is here explored by George Pattison who gives full attention to the scandalous element of the philosopher's work and does not shy away from his ambivalent attitudes towards sexuality the body marriage and the family This book is unlike other nontechnical introductions to Kierkegaard in that it does not seek to promote one part of Kierkegaard's writings over others but offers rather a perspective on his life and output as a whole That Kierkegaard grappled in his own age with many of the problems which beset our own and frequently offered fascinating responses to those problems is a major incentive to examine his thought today By placing Kierkegaard in the context of a crisis of faith and making valuable connections between events in the philosopher's life and the development of his thinking the author of this timely readable and attractively written study has produced a book which should be of interest to a wide nonspecialist readership *The Religion of Existence* Noreen Khawaja, 2016-12-02 Keen insight reveals existentialism as one more chapter in Christianity's history Journal of the American Academy of Religion The Religion of Existence reopens an old debate on an important question What was existentialism At the heart of existentialism Noreen Khawaja argues is a story about secular thought experimenting with the traditions of European Christianity This book explores how a distinctly Protestant asceticism formed the basis for the chief existentialist ideal personal authenticity which is reflected in approaches ranging from Kierkegaard's religious theory of the self to Heidegger's phenomenology of everyday life to Sartre's global mission of atheistic humanism Through these three philosophers she argues we observe how ascetic norms have shaped one of the twentieth century's most powerful ways of thinking about identity and difference the idea that the true self is not simply given but something that each of us is responsible for producing Engaging with many central figures in modern European thought this book is of value to philosophers and historians of European philosophy scholars of modern Christianity and those working on problems at the intersection of religion and modernity **Books in Print Supplement**, 2002 **Kierkegaardiana** Niels Thulstrup, 1996

Kierkegaard After MacIntyre John J. Davenport, Anthony Rudd, 2015-11-02 In his extraordinarily influential book on ethics *After Virtue* Alasdair MacIntyre maintained that Kierkegaard's notion of choosing to interpret one's choices in ethical terms implies an arbitrary and irrational leap MacIntyre's critique of Kierkegaard has become the focal point for several new interpretations of Kierkegaard that seek to answer MacIntyre *Kierkegaard After MacIntyre* brings together both new and already published articles in this vein with a new reply by Professor MacIntyre *Kierkegaard After MacIntyre* reflects the emergence of a new consensus in Kierkegaard scholarship This consensus is strongly anti irrationalist and contemporary neo Aristotelian virtue ethics clarifying their common ground as well as their differences In responding to MacIntyre's irrationalist objection the authors clarify the sense in which Kierkegaard's own conception of freedom is teleological and suggest that his understanding of the development of ethical personality involves a quest for narrative unity a commitment to practices involving social values and a self understanding conditioned by historical reality all of which are also central

themes in MacIntyre's work on virtue ethics. Despite MacIntyre's diagnosis of Kierkegaard's existential approach to ethics as unsuccessful, some of Kierkegaard's insights may support MacIntyre's own theses. *Kierkegaard After MacIntyre* is an outstanding book which brings Kierkegaard into direct conversation with one of the most important contemporary philosophers. The conversation contains both lively disagreements and illuminating analyses, all focused on issues of fundamental importance for human life. C. Stephen Evans, Calvin College, this wonderfully edifying collection of essays. Timothy P. Jackson, Emory University. In addressing MacIntyre's charge that for Kierkegaard the adoption of the ethical can only be a criterionless choice, this stimulating set of essays by well-known Kierkegaard scholars provides a welcome addition to the literature on Kierkegaardian ethics. *Kierkegaard After MacIntyre* provides a valuable exploration of the role of reasoning, will, and passion in moral life, as well as of the relation between aesthetic and ethical dimensions of life. M. Jamie Ferreira, University of Virginia.
