

# The 18<sup>th</sup> Century Literature

---

- The Eighteenth Century is called the Classical Age in English literature on account of three reasons.
  1. In the first place, the term 'classic', refers in general, applies to writers of the highest rank in any nation. This term was first applied to the works of the great Greek and Roman writers, like Homer and Virgil.
- As the writers of the eighteenth century in England tried to follow the simple and noble methods of the great ancient writers, they began to be called Classical writers.

It appears that literary work possesses eternal temporal validity due to its autonomous aesthetic value whereas criticism provides points of view having temporary and transitory significance Despite such claims the vector of methodology in our series of books dealing with the history of English literature relies on Viktor Shklovsky T S Eliot Mikhail Bakhtin and especially Yuri Tynyanov whose main reasoning would be that literature is a system of dominant central and peripheral marginalized elements to us tradition centre versus innovation margin engaged in a battle for supremacy demarginalization and the right to form a new literary system and the development or historical advancement of literature is the substitution of systems Roman Jakobson and French structuralism on the whole later Linda Hutcheon with her system and constant and Bran Nicol with the dominant to say nothing about Itamar Even Zohar and his theory of polysystem to a certain extent Julia Kristeva and even Homi Bhabha as well as our humble contribution we would like to believe maintain Tynyanov's line of thinking and concepts alive which have developed and emerged nowadays more like a kind of neo formalism Focusing on literary practice applying critical theory and emerging from within our own teaching experience the books in the present series are theoretical and surveyistic like a monograph whereas their more practical and text oriented aspect should appeal as a student handbook for didactic purposes in which certain literary works belonging to various writers of different trends movements and periods are analysed and compared with regard to their source form thematic arrangements ideas motifs character representation strategies intertextual perspectives structural or narrative techniques and other aspects **The Age of Exuberance** Donald J. landscape Recognizing the proliferation of identities in the epoch these essays explore the ways in which different media determined constructions of identity and were in turn shaped by them Liberty and Poetics in Eighteenth Century England Michael Meehan, 2020-01-08 The qualities and achievements of eighteenth century English literature have suffered denigration as a result of a prevailing Whig interpretation of literary history It is the contention of this book originally published in 1986 that an alternative form of Whig interpretation is possible and even desirable It has as its sphere of interest the ways in which views on the nature and benefits of political freedom and various whiggish readings of literary history political theory and aesthetics did in fact shape literary and social changes through the eighteenth century Many characteristic Romantic tenets can be seen as springing not fully formed from the heads of their creators but directly out of the aesthetic concerns focusing around Longinus and the recognition of the historically singular nature of the British constitution This book studies and analyses the forms such concerns took in several of the central thinkers and writers of the period and is an important contribution to the understanding of the eighteenth century milieu
