**Edward Said and the Work of the Critic** Paul A. Bové, 2000-06-01 A distinguished panel of contributors assess and expand Edward Said's many contributions to the study of colonialism imperialism and representation that have marked his career long struggle to end conflict and further the effort to build civilization **The World, the Text, and the Critic** Edward W. Said, 1983 Said demonstrates that critical discourse has been strengthened by the writings of Derrida and Foucault and by influences like Marxism structuralism linguistics and psychoanalysis But he argues these forces have compelled literature to meet the requirements of a theory or system ignoring complex affiliations binding the texts to the world **Edward Said and the Work of the Critic** Paul A. Bove, 2009 DIVA distinguished panel of contributors assess and expand Edward Said's many contributions to the study of colonialism imperialism and representation that have marked his career long struggle to end conflict and further the effort to build civilization **The Task of the Critic** Terry Eagleton, 2009-12-08 Terry Eagleton occupies a unique position in the English speaking world today He is not only a productive literary theorist but also a novelist and playwright He remains a committed socialist deeply hostile to the zeitgeist Over the last forty years his public interventions have enlivened an otherwise bland and conformist culture His pen as many colleagues in the academy including Harold Bloom Gayatri Spivak and Homi Bhabha have learned is merciless and unsparing As a critic Eagleton has not shied away from confronting the high priests of native conformity as highlighted by his coruscating polemic against Martin Amis on the issue of civil liberties and religion This comprehensive volume of interviews covers both his life and the development of his thought and politics Lively and insightful they will appeal not only to those with an interest in Eagleton himself but to all those interested in the evolution of radical politics modernism cultural theory the history of ideas sociology semantic inquiry and the state of Marxist theory **Edward Said** H. Aram Veesser, 2010-05-10 This insightful critical biography shows us an Edward Said we did not know H Aram Veesser brings forth not the Said of tabloid culture or Said the remote philosopher but the actual man embedded in the politics of the Middle East but soaked in the values of the West and struggling to advance the best European ideas Veesser shows the organic ties connecting his life politics and criticism Drawing on what he learned over 35 years as Said's student and skeptical admirer Veesser uses never before published interviews debate transcripts and photographs to discover a Said who had few inhibitions and loathed conventional routine He stood for originality loved unique ideas wore marvelous clothes and fought with molten fury For twenty years he embraced and rejected at the same time not only the West but also literary theory and the PLO At last his disgust with business as usual politics and criticism marooned him on the sidelines of both The candid tale of Said's rise from elite academic precincts to the world stage transforms not only our understanding of Said the man and the myth but also our perception of how intellectuals can make their way in the world **The Edward Said Reader** Edward W. Exile and Otherness Alexander Stephan,2005 In recent years Culture Studies Anthropology German Studies History Political Psychology and other fields have used the concept of exile in close connection with terms like migration border crossing identity and transnationality Views of a homogeneous culture and of centrality collide with ideas like multiculturalism pluralism creolization and the globalization of differences A transit culture inhabited by the flaneur and the nomad is supposed to have replaced citizenship in a nation At the same time there can be no doubt that the experience of those writers artists and intellectuals who were driven out of Germany and Europe by the Nazis was in many ways unique This book investigates the exile experience in a theoretical and comparative way by exploring the

possibilities and limitations of concepts like diaspora de localization and transit culture for understanding the lives and works of German and Austrian refugees from Nazi persecution It revisits the interaction of the exiles with the culture of their host countries in light of recent debates about migration and identity studies and it analyzes texts paintings and other methods of artistic expression which connect the experience of the refugees of 1933 with postmodern notions of de localization hybridity and marginalization

**The Translation Zone** Emily Apter,2011-10-16 Translation before 9 11 was deemed primarily an instrument of international relations business education and culture Today it seems more than ever a matter of war and peace In The Translation Zone Emily Apter argues that the field of translation studies habitually confined to a framework of linguistic fidelity to an original is ripe for expansion as the basis for a new comparative literature Organized around a series of propositions that range from the idea that nothing is translatable to the idea that everything is translatable The Translation Zone examines the vital role of translation studies in the invention of comparative literature as a discipline Apter emphasizes language wars including the role of mistranslation in the art of war linguistic incommensurability in translation studies the tension between textual and cultural translation the role of translation in shaping a global literary canon the resistance to Anglophone dominance and the impact of translation technologies on the very notion of how translation is defined The book speaks to a range of disciplines and spans the globe Ultimately The Translation Zone maintains that a new comparative literature must take stock of the political impact of translation technologies on the definition of foreign or symbolic languages in the humanities while recognizing the complexity of language politics in a world at once more monolingual and more multilingual

Archives of Authority Andrew Rubin,2012-07-29 Combining literary cultural and political history and based on extensive archival research Archives of Authority argues that cultural politics specifically America s often covert patronage of the arts played a highly important role in the transfer of imperial authority from Britain to the USA during a critical period after WWII

*The Character of Criticism* Geoffrey Galt Harpham, 2013-10-28 Why are some critical texts more compelling memorable or engaging than others Can criticism be judged as a discourse of description explanation and analysis alone or do our evaluations reflect other kinds of investments in it In this book Geoffrey Galt Harpham argues that the most powerful and effective criticism demands to be read as an expression of a distinctive sensibility a way of being in the world it demands in other words to be read as a discourse of character Through a series of detailed and intimate intellectual portraits of leading critics Elaine Scarry Martha Nussbaum Slavoj Žižek and Edward Said Harpham unfolds the complex and indirect ways in which human character is expressed in criticism A final chapter on Criticism in a State of Terror assesses the contemporary situation The Character of Criticism represents not just a snapshot of contemporary criticism but a fresh approach to criticism itself that clarifies the stakes involved for writers and readers of criticism alike It does so not by making difficult thinking easy but by making it stranger more idiosyncratic exotic and singular     After Said Bashir Abu-Manneh, 2019 This book focuses on the problems and opportunities afforded by Edward Said's work and develops a materialist critique of postcolonial studies     *Futures of Literary Studies* Tim Lenzendörfer, Mathias Nilges, 2024-08-30 This book brings together essays that ask how one may chart more productive engagements with the methodological foundations of literary studies a discipline that is finding itself in a moment of severe crisis The temptation to reduce methodological debates to method wars constitutes one of the main obstacles for what ought to be the common goal of our discipline to articulate the possible and indeed necessary futures of literary studies How do we think about the future of literary studies in the funerary climate that has engendered the belief that we need to fight our internal wars for survival How might must our understanding of what literary criticism is and does change How do we formulate possible futures for literary studies while grappling with the significant problems that our present poses The chapters in this volume stage hopeful interventions that seek to contribute to the effort to explore the futures of literary studies by way of and conceived as a collective endeavor Together the authors advance a call for better more useful more active more networked and yes even for abandoned versions of the always multiple and joyously contradictory discipline that is called literary studies This book will be beneficial to students and scholars of English literature literary theory and literary studies The chapters in this book were originally published as a special issue of *Textual Practice* and are accompanied by a new Preface
