Van Engen,Nancy Thomas,Robert

Gallagher,2011-07-27 Twenty five doctoral students from around the world recently set out to forge a new path toward a theology of mission As they blazed a new trail they discovered the footprints of God evidence that God was their trial guide Charles Van Engen led this group of mission practitioners pastors teachers and mission executives as they set out to discover answers to important questions such as What is theology of mission and What is missiology The team used a new approach to answer these questions employing narrative to integrate personal story community stories cultural stories and biblical stories Each writer brings his or her own unique context to bear on these important questions through personal story and by highlighting the work of a major missiologist who has impacted their life and work By drawing from personal stories the authors show how human factors affect missiology All of the chapters are set within a unique theological framework created by Charles Van Engen that focuses on mission of the way mission in the way and mission on the way This framework reveals that mission must be of the way Christ centered in the way happening among the peoples and cultures of the world and on

the way moving forward over time through God's people as they anticipate Christ's present and coming kingdom. If you are concerned about connecting the Bible, theology, and ministry with the complexity and variety of contexts facing Christians today, then you will want to join this journey to discover the footprints of God. As Van Engen says, you will be encouraged to think theologically about mission and missiologically about theology.
