Egalitarian Politics in the Age of Globalization Craig N. Murphy, 2016-01-11 In recent years women's movements and democracy movements appear to have been more successful in promoting social equality than labour movements or development movements Wage gaps between men and women have narrowed New democracies have flourished Yet gaps between the rich and poor remain Do differences in organization and strategy account for the differences in outcomes Through in depth studies of the United States Eastern and Western Europe Latin America Africa China and north and southeast Asia the contributors to this volume provide some thought provoking answers *Globalizing International Political Economy* Nicola Phillips, 2017-10-07 Despite its claims to global scope and relevance International Political Economy as a field of study remains entrenched in a narrow set of theoretical conceptual and empirical foundations derived from the experiences of the advanced industrialized democracies Bringing together specially commissioned chapters by leading authorities in each key area of debate *Globalizing International Political Economy* provides a systematic examination and critique of contemporary IPE and puts forward a new agenda for a truly global political economy **Critical International Political Economy** Stuart Shields, Ian Bruff, Huw Macartney, 2011-02-01 Amidst the continued debate surrounding the foundations of IPE coupled with recent methodological and theoretical divides this book argues that an attempt should be made to re visit the notion of the critical The challenge posed by contributors to this volume is to assess the development of so called critical IPE and interrogate whether the theoretical foundations it was built upon have reached their potential The essays in this volume take up this challenge in a number of different ways but all share a common concern to re assess the purpose of critical approaches reflect on why certain social theorists have been favoured as a point of departure yet others have largely been ignored In light of recent debates on the notion of a trans Atlantic divide within IPE the collection the contributors aim demonstrates how the distinction between the critical and the orthodox or empirical is only significant if the critical is geared towards a larger more substantial body of critical social enquiry and engages with what it means to conduct such enquiry *International Political Economy and Poststructural Politics* Marieke De Goede, 2006-03-14 This edited volume brings together leading scholars to debate the promises of poststructural politics within the study of the International Political Economy IPE The volume offers a sustained theoretical dialogue on the meaning of discourse identity and representation for practices of political economy Turbulence and New Directions in Global Political Economy J. Busumtwi-Sam, L. Dobuzinskis, 2002-11-26 James Busumtwi Sam and Laurent Dobuzinskis have assembled a leading team of experts in the field to examine how phenomena associated with globalization impact on political economy in theory and in practice The volume employs a variety of theoretical and analytical approaches to examine the very changeable nature of the global political economy in terms of academic analysis policy and practice **Public Policy in the Age of Globalization** H. countries It shows how domestic politics interact with international actors such as multilateral institutions It offers lively accounts of the behaviour of political actors interest groups and the civil society in particular environmentalists It shows how ideas such as those of neoliberal economics affect policymaking in particular during or after crisis but also how social protest and demands for sustainable development are mobilized **The Political Economy of Sovereign Wealth Funds** Xu

Bowles, J. Gills, 2000-04-07 The paradox of globalization is that it

both weakens and activates social forces of resistance This book establishes the centrality of the political in our understanding of globalization and explores the new strategies of resistance emerging on local national regional and global scales Its impressively wide ranging set of contributors engage in re thinking what practices now constitute viable political strategies in the world economy focusing on popular responses to neoliberal globalization and the rearticulation of society politics and the state *Political Globalization* Morten Ougaard, 2003-11-25 Morten Ougaard provides a new and distinct theoretical perspective to the analysis of the globalization of politics The book analyzes global governance as the partial and uneven globalization of different aspects of statehood It focuses on the institutional infrastructure highlighting the role of the G7 OECD nexus in providing strategic leadership discusses an emerging global function of societal persistence or public goods governance and relations of power between social forces and finally it discusses American hegemonic leadership in the light of the dual power persistence perspective *Gramsci, Political Economy, and International Relations Theory* A.

Ayers, 2008-11-10 This book seeks to provide the most comprehensive and sustained engagement and critique of neo Gramscian analyses available in the literature In examining neo Gramscian analyses in IR IPE the book engages with two fundamental concerns in international relations i The question of historicity and ii The analysis of radical transformation

Global Restructuring, State, Capital and Labour A. Bieler, W. Bonefeld, P. Burnham, A. Morton, 2006-04-26 This book provides a critical engagement between contending historical materialist approaches that have played a crucial role in shaping post positivist International Relations theory It analyzes globalization as a process of state formation and argues that its fate depends on the neo liberal recomposition of labour relations Internalizing Globalization Susanne

Soederberg, Georg Menz, Philip G. Cerny, 2005-11-16 This book explores how a wide range of countries attempt to cope with the challenges of globalization While the internalization of globalization proceeds in significantly different ways there is a

broad process of convergence taking place around the politics of neoliberalism and a more market oriented version of capitalism The book examines how distinct social structures political cultures patterns of party and interest group politics classes public policies liberal democratic and authoritarian institutions and the discourses that frame them are being reshaped by political actors Chapters cover national experiences from Europe and North America to Asia and Latin America Chile Mexico and Peru *International Cultural Policies and Power* J. Thompson,2010-08-04 In 2008 the economic relationship between the United States and China almost collapsed due to a crisis at two American mortgage corporations Fannie Mae and Freddie Mac This book explains how that crisis came about and analyzes the consequences and implications *Globalization, Development and The State* Jørgen Dige Pedersen,2008-08-01 In its comparison of two major emerging nations India and Brazil this book approaches the subject through an innovative theoretical combination of developmental states theory and theories of the changing nature of global capitalism *The Neoliberal Revolution* Richard Robison,2006-03-28 The book examines the rise of the amalgam of economic and political ideas we know as neo liberalism and how these became the defining orthodoxy of our times It investigates the inexorable global spread of market economies and how neo liberal agendas are accommodated or hijacked in collisions with authoritarian states and populist oligarchies **The Political Economy of International Capital Mobility** M. Watson,2007-07-03 Matthew Watson draws a distinction between the spatial and the functional mobility of capital allowing fresh insights into existing work on the subject whilst repoliticizing the very idea of capital being in motion The dynamics of capital mobility and the patterns of risk exposure are illustrated through four detailed global case studies **The Globalizations of Organized Labour** G. Myconos,2005-09-06 Myconos explores the ways in which organized labour has globalized since 1945 Using two touchstone indicators the extent of cross border integration and the autonomy vis vis the state the book reveals a counterintuitive process network globalization involves a continuing orientation towards the state The book not only seeks to identify organized labour's trajectory on the macro plane but also to provide a more precise meaning of the term globalization as it relates to agency **A Decade of Human Security** David R. Black,2016-03-03 Human security has been advanced as an alternative to traditional state based conceptualizations of security yet controversies about the use and abuse of the concept remain Investigating innovations in the advancement of the human security agenda over the past decade this book identifies themes and processes around which consensus for future policy action might be built It considers the ongoing debates regarding the human security agenda explores prospects and projects for the advancement of human security addresses issues of human security as emerging forms of new multilateralisms and

examines claims that human security is being undermined by US unilateralisms This comprehensive volume explores the theoretical debate surrounding human security and details the implications for practical application It will prove ideal for students of international relations security studies and development studies
