## **Egalitarianism And The Generation Of Inequality:**

**Egalitarianism and the Generation of Inequality** Henry Phelps Brown, 1988-11-03 The belief that existing distributions of income and wealth are unjust has come to be widely held and has prompted the inclusion of egalitarian measures in many political programmes This work uses the methods of reasoned history and comparative statistics to arrive at an assessment of egalitarianism After reviewing the outlooks of the ancient and medieval worlds it traces the rise of egalitarianism from the Renaissance and Reformation onwards A complementary approach is provided by a wide survey of actual distributions of income and wealth what is known of them in the past what form they take in contemporary societies and the economic processes that generate them These comprehensive studies lead to an inquiry into the authority of equality as a principle of social philosophy and the practicability of egalitarian policy

**Egalitarianism and the Generation of Inequality** Henry Phelps Brown, 1988 Using the methods of reasoned history and comparative statistics this work arrives at an assessment of egalitarianism It traces the rise of egalitarianism from the Renaissance and Reformation onwards A complementary approach is provided by a wide survey of actual distributions of income and wealth

Reassessing Egalitarianism J. Moss, 2014-04-29 Through an analysis of the different dimensions of equality this book provides a critical introduction to recent philosophical work on egalitarianism discussing the central questions associated with each of the major debates about egalitarian justice

*The Politicians and the Egalitarians: The Hidden History of American Politics* Sean Wilentz, 2016-05-17 One of our most eminent historians reminds us of the commanding role party politics has played in America's enduring struggle against economic inequality There are two keys to unlocking the secrets of American politics and American political history So begins *The Politicians and the Egalitarians* Princeton historian Sean Wilentz's bold new work of history First America is built on an egalitarian tradition At the nation's founding Americans believed that extremes of wealth and want would destroy their revolutionary experiment in republican government Ever since that idea has shaped national political conflict and scored major egalitarian victories from the Civil War and Progressive eras to the New Deal and the Great Society along the way Second partisanship is a permanent fixture in America and America is the better for it Every major egalitarian victory in United States history has resulted neither from abandonment of partisan politics nor from social movement protests but from a convergence of protest and politics and then sharp struggles led by principled and effective party politicians There is little to be gained from the dream of a post partisan world With these two insights Sean Wilentz offers a crystal clear portrait of American history told through politicians and egalitarians including Thomas Paine Abraham Lincoln and W E B Du Bois a portrait that runs counter to current political and historical thinking As he did with his acclaimed *The Rise of American Democracy* Wilentz once again completely transforms our understanding of this nation's political and moral character

**Encyclopedia of Business Ethics and Society** Robert W. Kolb, 2008 This encyclopedia spans the relationships among business ethics and society with an emphasis on business ethics and the role of business in

society     The Nazarbayev Generation Marlene Laruelle, 2019-08-30 This social and cultural analysis provides a new understanding of Kazakhstan's younger generations that emerged during the rule of Nursultan Nazarbayev who has been presiding over Kazakhstan for the thirty years since the collapse of the Soviet Union. Half of Kazakhstan's population was born after he took power and have no direct memory of the Soviet regime. Since the early 2000s they have lived in a world of political stability and relative material affluence and have developed a strong consumerist culture. Even with growing government restrictions on media, religion, and formal public expression, they have been raised in a comparatively free country. This book offers the first collective study of the Nazarbayev Generation, illuminating the diversity of the country's younger generations and the transformations of social and cultural norms that have taken place over the course of three decades. The contributors to this collection move away from state-centric, top-down perspectives in favor of grassroots realities and bottom-up dynamics in order to better integrate sociological data.     *The SAGE Encyclopedia of Business Ethics and Society* Robert W. Kolb, 2018-03-27 Thoroughly revised, updated, and expanded, *The SAGE Encyclopedia of Business Ethics and Society* Second Edition explores current topics such as mass social media, cookies, and cyber attacks, as well as traditional issues including accounting, discrimination, environmental concerns, and management. The new edition also includes an in-depth examination of current and recent ethical affairs such as the dangerous work environments of off-shore factories for Western retailers, the negligence resulting in the 2010 BP oil spill, the gender wage gap, the minimum wage debate, and increasing income disparity and the unparalleled level of debt in the U.S. and other countries, with the challenges it presents to many societies and the considerable impact on the ethics of intergenerational wealth transfers. Key Features: Include Seven volumes available in both electronic and print formats; contain more than 1,200 signed entries by significant figures in the field; Cross references and suggestions for further readings to guide students to in-depth resources; Thematic Reader's Guide groups related entries by general topics; Index allows for thorough browse and search capabilities in the electronic edition.     **The Oxford Handbook of Intergenerational Ethics** Stephen M. Gardiner, 2025 This volume of new essays focuses on the increasing relevance of intergenerational ethics to key challenges of the 21st century such as climate change, rapid technological change, the expanding human population, and threats of extinction. It features philosophers and political theorists of international standing providing a cutting-edge perspective on these issues.     **Climate Change and Justice** Jeremy Moss, 2015-11-13 This collection sheds new light on the key ethical issues of climate change justice.     ...and Economic Justice for All Michael L. Murray, 2016-09-16 The author presents an argument for a system of social insurance that replaces welfare with a Guaranteed Adequate Income. The book reviews public assistance programmes and evaluates other plans that have been proposed.     **On Justice** Mathias Risse, 2020-09-10 Though much attention has been paid to different principles of justice, far less has been done reflecting on what the larger concern behind the notion is. In this work, Mathias Risse proposes that the perennial quest for justice is about ensuring that each individual has an appropriate place in what

our uniquely human capacities permit us to build produce and maintain and is appropriately respected for the capacity to hold such a place to begin with Risse begins by investigating the role of political philosophers and exploring how to think about the global context where philosophical inquiry occurs Next he offers a quasi historical narrative about how the notion of distributive justice identifies a genuinely human concern that arises independently of cultural context and has developed into the one we should adopt now Finally he investigates the core terms of this view including stringency moral value ground and duties of justice

**Luck Egalitarianism** David V. Axelsen, Juliana Bidadanure, Tim Meijers, 2020-05-21 This edited volume offers a critical discussion of luck egalitarianism one of the most prominent views in contemporary political philosophy through an exploration of the theory of one of its leading proponents Kasper Lippert Rasmussen When if ever can inequalities in how well peoples lives go be justified Luck egalitarianism provides an appealing answer inequalities are just if and only if they are the result of the exercise of individual responsibility Kasper Lippert Rasmussen lucidly defends and specifies this view in his own book Luck Egalitarianism The authors in this volume offer a critical discussion of the key features of his view They discuss disagreements within views which assign an important role to responsibility They go on to push the limits of luck egalitarianism what about inequalities between us and the dead And inequalities between groups Finally they criticize some of the central tenets of luck egalitarianism including its tendency to avoid action guiding judgements and its focus on distributions rather than interpersonal relations This book was originally published as a special issue of Critical Review of International Social and Political Philosophy

The Palgrave Companion to LSE Economics Robert A. Cord, 2019-01-18 The London School of Economics LSE has been and continues to be one of the most important global centres for economics With six chapters on themes in LSE economics and 29 chapters on the lives and work of LSE economists this volume shows how economics became established at the School how it produced some of the world s best known economists including Lionel Robbins and Bill Phillips plus Nobel Prize winners such as Friedrich Hayek John Hicks and Christopher Pissarides and how it remains a global force for the very best in teaching and research in economics With original contributions from a stellar cast this volume provides economists especially those interested in macroeconomics and the history of economic thought with the first in depth analysis of LSE economics

**Pursuing Equal Opportunities** Lesley A. Jacobs, 2004 This book offers original and innovative contributions to the debate about equality of opportunity The first part sets out a theory of equality of opportunity that presents equal opportunities as a normative device for the regulation of competition for scarce resources The second part shifts the focus to the consideration of the practical application by courts or legislatures or public policy makers of policies for addressing racial class or gender injustices The author examines standardized tests affirmative action workfare universal health care comparable worth and the economic consequences of divorce

Created Equal Joshua Berman, 2011-08-12 In Created Equal Joshua Berman engages the text of the Hebrew Bible from a novel perspective considering it as a document of social and political thought He proposes that the Pentateuch can be

read as the earliest prescription on record for the establishment of an egalitarian polity What emerges is the blueprint for a society that would stand in stark contrast to the surrounding cultures of the ancient Near East Egypt Mesopotamia Ugarit and the Hittite Empire in which the hierarchical structure of the polity was centered on the figure of the king and his retinue Berman shows that an egalitarian ideal is articulated in comprehensive fashion in the Pentateuch and is expressed in its theology politics economics use of technologies of communication and in its narrative literature Throughout he invokes parallels from the modern period as heuristic devices to illuminate ancient developments Thus for example the constitutional principles in the Book of Deuteronomy are examined in the light of those espoused by Montesquieu and the rise of the novel in 18th century England serves to illuminate the advent of new modes of storytelling in biblical narrative What We Owe to Future People Elizabeth Finneron-Burns, 2024 What do we owe future people Intergenerational ethics is of great philosophical and practical importance given human beings ability to affect not only the quality of life of future people but also how many of them there will be if any at all This book develops a distinctly contractualist answer to this question we need to justify our actions to them on grounds they could not reasonably reject The book explores what future people could or could not reasonably reject in terms of intergenerational resource distribution individual procreative decisions optimal population size and risk imposition **Proceedings of the 21st IVR World Congress, Lund, Sweden, 12-17 August, 2003: Justice** International Association for Philosophy of Law and Social Philosophy. underlying or conflicting with luck egalitarianism

### **Globalization, Value Change and Generations** Peter Ester, Ludwig

Braun, Peter Mohler, 2006-08-01 Values are a hot topic in Europe both in the public and political debate as well as in the social sciences Is Europe a community of values What are the cultural borders of the European Union How united are Europeans with respect to their fundamental values How does globalization affect European values Do national values vanish There is also a clear moral overtone in the debate basic values are believed to erode community values are waning values become fragmented and civic engagement is rapidly declining while hedonism and consumerism are prevailing But are these far reaching assumptions true Answers are provided in this book The three core issues that guide the various chapters in this book are the following do basic values in European countries converge or diverge Do we observe a marked decline in traditional values in European societies Is it the youngest generation in Europe that embraces new values #NAME? , An unabashed review of economic justice with a proposal for dramatic change in the American economic system particularly in the area of welfare reform Murray business and public administration Drake U admits to benefitting greatly from the economic system then methodically explains everything that is wrong with it and proposes a guaranteed adequate income system as an alternative to welfare While his diverse influences occasionally seem too scatter shot for cohesion his citations range from Milton Friedman to Kurt Vonnegut his motivation is compassion and the lively tone from his insurance selling days is refreshing Topics include the workplace market alternatives the history of guaranteed income plans and cost and funding calculations Paper edition unseen 22 95 Annotation copyrighted by Book News Inc Portland OR
