Progressive Information Communication Technologies Rahman, Hakikur,2009-07-31 This book assists its readers in formulation of ICT strategies for developing efficient and effective government systems and at the same time acknowledge the importance of e governance for building institutions to achieve transparency and accountability and eventually

democratic governance Provided by publisher **E-merging for E-Government** Asım Balcı,İhsan Tolga Medeni,Tunç Durmuş Medeni,2018-10-15 In Turkey the Information Society Strategy and Action Plans I 2006 2010 and II 2015 2018 prepared by the Ministry of Development pave the way for a knowledge based and ICT supported knowledge society To increase awareness in the society a series of conferences were organized between 2009 and 2012 This book complements the articles presented in these terms which are available by a selection of articles that were not openly accessible previously The resulting book brings together selected works of internationally reputed academicians and practitioners merging different e merging perspectives on e Government that signify citizen orientation policy making local governance and ICT use This book will further the e government dissemination and diffusion efforts revitalized with the new Information Society Strategy and Action Plan Technology Development and Platform Enhancements for Successful Global E-Government Design Bwalya, Kelvin Joseph,2013-12-31 While electronic research has developed in many governments around the world the majority of its research has focused on the supply and demand aspects of e government instead of the focus on technology integration for successful e government design Technology Development and Platform Enhancements for Successful Global E Government Design compiles the shared experiences of e government designers and practitioners with a focus on technological design By highlighting the different technological nuances that need to be incorporated into successful e government designs this book is a useful tool for professionals and researchers concerned with the organizational development in different types of e government communities and environments **Encyclopedia of E-Commerce, E-Government, and Mobile Commerce** Khosrow-Pour, D.B.A., Mehdi,2006-03-31 Administration r f rence lectronique **Social and Organizational Developments through Emerging E-Government Applications: New Principles and Concepts** Weerakkody, Vishanth,2009-12-31 This book offers reflective accounts of the key research themes that have emerged in the last few years as electronic government services have become commonplace in the world Provided by publisher *The World Of E-Government* Gregory G. Curtin,Michael Sommer,Veronika Vis-Sommer,2013-04-15 Explore the latest groundbreaking e government insider information The World of E Government investigates how electronic communication is helping to revolutionize democracies across the globe Using case studies cutting edge research and commentary from some of the field s foremost researchers practitioners and industry leaders this first of its kind volume explores the enormous future potential of e government as it links all world citizens locally regionally nationally and internationally This pioneering text offers the experiences of many leading countries using electronic government showing you what mistakes they made the benefits they ve reaped and the impact of e government to democracy traditional government and international commerce Contributors to this timely book include some of the world s leading practitioners in e governmentpeople who were actually involved in establishing and shaping the experiences of countries now ranked as leaders in e government projects These authorities reveal how their countries successfully implemented e strategies to directly benefit their citizens The World of E Government

details how electronic government is being used to govern and change the lives of citizens online in such areas of the world as the United States Singapore Canada the European Union Australia New Zealand Germany This book will give you a better understanding of how to best plan for citizen use of e government how countries have avoided waste and unnecessary spending how e government can move forward by using optimal planning and previous experiences what citizens expect of e government in countries around the globe the realities the latest initiatives and the future of e government in America Europe and elsewhere The World of E Government is an essential book for all elected officials and their staffs e government practitioners researchers and information specialists to use in order to stay up to date with the growing needs of the general public The advice offered in this text can help you improve service delivery provide vital information to the public and enhance public participation online This volume contains useful bibliographies additional readings tables and figures to further your career or research studies in public administration government political science law education or information technology

Interoperability in Digital Public Services and Administration: Bridging E-Government and E-Business Charalabidis, Yannis, 2010-07-31 During the last decade interoperability has emerged as a vivid research area in electronic business and electronic governance promising a significant increase in productivity and efficiency of information systems enterprises and administrations Interoperability in Digital Public Services and Administration Bridging E Government and E Business provides the latest research findings such as theoretical foundations principles methodologies architectures technical frameworks international policy standardization and case studies for the achievement of interoperability within the provision of digital services from administration and businesses toward the user citizens and enterprises *Electronic Government: Concepts, Methodologies, Tools, and Applications* Anttiroiko, Ari-Veikko, 2008-03-31 Provides research on e government and its implications within the global context Covers topics such as digital government electronic justice government to government information policy and cyber infrastructure research and methodologies

Measuring E-government Efficiency Manuel Pedro Rodríguez-Bolívar, 2014-03-19 E government has the potential to improve public services information transparency and the engagement of civic participation of the public sector management This book analyzes the achievement of expectations created by public managers policy makers and stakeholders with regard to the implementation of e government policies and applications It also tries to determine whether e government applications have been introduced as a fad or according to real demands from citizenry and if efforts within e government have been effective This book investigates how public managers and policy makers imagine e government policies and the impact of those policies on their management and decision making process through the engagement of citizenry It is also discusses whether e government policies are merely procedural improvements that strictly introduce new ways of delivering public services or disclosing public sector information The book s analysis of the overall expectations on e government applications makes it of interest to scholars in public administration as well as to policy makers and stakeholders *Stakeholder*

Adoption of E-Government Services: Driving and Resisting Factors Shareef, Mahmud Akhter, Kumar, Vinod, Kumar, Uma, Dwivedi, Yogesh Kumar, 2011-06-30 This book examines the stakeholders of e government and reveals the stages of growth or service maturity levels shedding light on the paradigms and fundamental discourses of the e government adoption process Provided by publisher

Artificial Intelligence and its Impact on Business Wolfgang Amann, Agata Stachowicz-Stanusch, 2020-06-01 Artificial intelligence AI technologies are one of top investment priorities in these days They are aimed at finding applications in fields of special value for humans including education The fourth industrial revolution will replace not only human hands but also human brains the time of machines requires new forms of work and new ways of business education however we must be aware that if there is no control of human chatbot interaction there is a risk of losing sight of this interaction's goal First it is important to get people to truly understand AI systems to intentionally participate in their use as well as to build their trust because the measure of success for AI applications is the value they create for human lives Stanford University 2016 33 Consequently society needs to adapt to AI applications if it is to extend its benefits and mitigate the inevitable errors and failures This is why it is highly recommended to create new AI powered tools for education that are the result of cooperation between AI researchers and humanities and social sciences researchers who can identify cognitive processes and human behaviors This book is authored by a range of international experts with a diversity of backgrounds and perspectives hopefully bringing us closer to the responses for the questions what we should teach what the right set of future skills is how we should teach the way in which schools should teach and assess them and where we should teach what implications does AI have for today's education infrastructure We must remember as we have already noticed before education institutions would need to ensure that that they have an appropriate infrastructure as well as the safety and credibility of AI based systems Ultimately the law and policies need to adjust to the rapid pace of AI development because the formal responsibility for appropriate learning outcomes will in future be divided between a teacher and a machine Above all we should ensure that AI respect human and civil rights Stachowicz Stanusch Amann 2018

ECEG2007-Proceedings of the 7th European Conference on e-Government Dan Remenyi, Managing IT in Government, Business & Communities Gerry Gingrich, 2003-01-01 This guide presents the most current research and findings about the challenges governments around the world are now placing on small business IT entrepreneurs and how they are providing increased resources to support this emphasis Described are how organizations and society rely heavily on virtual technologies for communication and how information management has presented government officials and information resource management practitioners alike with a variety of challenges associated with managing resources and applications in the world economy Topics covered include federal agency intranets concerns and solutions for electronic voting systems adoption using the web for enhanced decision making and the role of the virtual
