Egypt And The Sudan Countries Of The Nile:

Egypt and the Sudan Larry Wills Henderson, 1971 A social economic geographical cultural and historic introduction to Egypt and the Sudan stressing the modern problems of these two countries of the Nile Egypt and the Sudan : Countries of the Nile Henderson, Larry, 1971 A social economic geographical cultural and historic introduction to Egypt and the Sudan stressing the modern problems of these two countries of the Nile *The Geology of Egypt* Zakaria Hamimi, Ahmed El-Barkooky, Jesús Martínez Frías, Harald Fritz, Yasser Abd El-Rahman, 2019-09-19 This richly illustrated book offers a concise overview of the geology of Egypt in the context of the geology of the Arab Region and Northeast Africa An introductory chapter on history of geological research in Egypt sheds much light on the stages before and after the establishment of Egyptian Geological Survey the second oldest geological survey worldwide Hume's book and Said's 1962 1990 books The book starts with the Precambrian geology of Egypt in terms of lithostratigraphy and classifications structural and tectonic framework crustal evolution and metamorphic belts A dedicated chapter discusses the Paleozoic Mesozoic Cenozoic tectonics and structural evolution of Egypt A chapter highlights the Red Sea tectonics and the Gulf of Suez and Gulf of Aqaba Rifts Subsequent chapters address the Phanerozoic geology from Paleozoic to Quaternary The Egyptian Impact Craters and Meteorites are dealt with in a separate chapter The Earth resources in Egypt including metallic and non metallic ore deposits hydrocarbon and water resources are given much more attention throughout four chapters The last chapter addresses the seismicity seismotectonics and neotectonics of Egypt The Grand Ethiopian Renaissance Dam, its Impact on Egyptian Agriculture and the Potential for Alleviating Water Scarcity Youssef M. Hamada, 2017-05-26 This book covers the entire Nile Basin and reflects the latest findings It provides unique and cutting edge insights into the region's agriculture water resources governance poverty productivity upstream downstream linkages innovations future plans and their implications Many international summits and conferences have declared that there is an urgent need to save agriculture from its demise Most international agencies now recognize that something must be done but what Beyond policy changes the restructuring of global governance and institutional reforms are called for Commitments must be translated into concrete actions leading to a renewed interest in agriculture and a return to the basic objective of achieving food security **Sudan's Wars and Peace Agreements** Stephanie Beswick, Jay Spaulding, 2010-07-12 Originating from the 2008 27th annual conference of the Sudan Studies Association SSA of the same title these essays document and analyze Sudan's chronic history of conflict since independence in 1956 as well as its own and international efforts to bring an end to these conflicts As the country moves toward what some see as the inevitable separation of South Sudan in 2011 honoring the principle of self determination long fought for by southerners the lessons of six decades of a history of war and peace agreements is both telling and compelling This analysis is offered by the real experts on Sudan rather than the usual story offered by journalists and pundits In addition to an Introduction by the editors all founders or current or past presidents of the SSA the essays by Sudanese and non

Sudanese explore the often bitter history of North South relations and loss of life leading to the consideration of a range of options from a continuation of national unity under revised terms to federation or redivision to full separation of the South and the constitution of a new African state The role of the Khartoum government's pursuit of policies of Islamization and Islamism for a quarter of a century across multiple regimes is also treated The central question of constructing a sustainable peace irrespective of the outcome in 2011 is detailed along with the essential consideration of women and gender perspectives to sustain any peace negotiated This book is must reading in advance of or in response to the crucial events as they unfold in Sudan in 2011 and beyond

The Report: Egypt 2016 Oxford Business Group, 2016-01-13 The country's economic strengths include its large domestic market diversified economic base favourable trade relations with major partners such as the EU and geographic location As Egypt continues to rebuild its economy it faces a number of risks External challenges include regional unrest and a slowdown in exports due to muted global growth although the nation's limited exposure to Asian markets lends it some degree of protection The possibility of unrest also features in the domestic risk matrix and security remains a national concern Nevertheless Egypt's economy has continued to expand with the IMF forecasting GDP growth of roughly 4% for 2015 and 4.4% for 2016

AF Press Clips, 1990-04

The Politics of Fresh Water Catherine M. Ashcraft, Tamar Mayer, 2016-12-08 Water scarcity is not simply the result of what nature has to offer but always involves power relations and political decisions This volume discusses the politics of the freshwater crisis specifically how access to water is determined in different regions and historical periods how conflict is constructed and managed and how identity and efforts to control water systems through development technologies and institutions shape one another The book analyzes responses to the water crisis as efforts to mitigate water insecurity and as expressions of collective identity that legitimate resist or seek to transform existing inequalities The chapters focus on different processes that contribute to freshwater scarcity including land use decisions pollution privatization damming climate change discrimination water management institutions and technology Case studies are included from North and South America Africa Asia Europe and New Zealand

Environmental Consequences of International Conflicts Aleksander V. Semenov, Igor S. Zonn, Andrey G. Kostianoy, Sergey S. Zhiltsov, Abdelazim Negm, 2025-01-23 This is the first of two volumes that taken together provide an integrated picture of the environmental consequences arising from international conflicts The volumes build upon the successful book *Environmental Consequences of War and Aftermath* published in *The Handbook of Environmental Chemistry* in 2009 The books focus on environmental consequences only and discuss land degradation erosion water scarcity and pollution water resources management air pollution desertification deforestation food scarcity and radioactive contamination among others This volume addresses conflicts in the MENA region Middle East and North Africa covering historical and more recent events such as water conflicts military conflicts migration and overpopulation and infrastructure projects Readers will also find

several chapters in this book on the theory of international conflicts and their impact on the environment in general Given its breadth this book appeals to environmental scientists policy makers and researchers interested in the environmental impacts of international conflicts *A River Flows Through It* Selina Ho,2020-12-18 *A River Flows Through It* A Comparative Study of Transboundary Water Disputes and Cooperation in Asia explores water disputes in Asia and addresses the question of how states sharing a river system can be incentivized to cooperate Water scarcity is a major environmental societal and economic problem around the world Increasing demand for water as a result of rapid economic development high population growth and density has depleted the world's water resources leading to floods droughts environmental disasters and societal displacement Shared river basins are therefore often a source of tension and conflict between states In regions where relations between countries have historically been conflictual scarce river water resources have exacerbated tensions and have even sparked wars Yet more often than not states sharing a river basin are able to come to some form of agreement whether they are far reaching ones such as water sharing agreements or those that are more limited such as the sharing of hydrological data Why do riparian states cooperate especially when power asymmetries between upstream and downstream countries are characteristic of transboundary river basins How do non state actors affect the management of international rivers What are the conditions that facilitate or hinder cooperation This book wrestles with these questions by exploring water disputes and cooperation in the major river systems in Asia and by comparing them with cases in Africa Europe and the United States This book will be of great value to scholars students and policymakers interested in transboundary water disputes and cooperation hydro diplomacy and river activism It was originally published as special issues of *Water International*

Integration of Core Sustainable Development Goals in Rural Areas Abdelazim M. Negm,Zeina ElZein,2024-07-18 This book addresses the application of the water energy and food nexus in the MENA Region It highlights the technologies and solutions to support the sustainable development of rural areas in the region The first part provides an introduction and an overview of water energy food climate change and ecosystem interactions within the framework of sustainable development goals The editors present a brief overview and highlights of the book themes and chapters The second part discusses current State and Security of the WEF Nexus in the MENA Region addresses the role of water energy and food nexus in sustainable development through reviewing case studies in the MENA Region that have followed an integrated nexus approach The third part focuses on the integration within the Nexus for Rural Development includes three chapters It discusses analysis and assessment of the nexus through a quantitative index approach to consider the efficiency and security of resources addresses territorial climate planning in water scarce areas focusing on the Souss Massa Region in Morocco and discusses the Algerian food system and future scenarios through the lens of food and water challenges The fourth part addresses the WEF Nexus and sustainable development solutions and technologies exploration of an adaptation model for food security and water resources water agricultural management practices standardized hydraulic incident index

to analyze hydraulic incidents and their impact on energy integrated management of natural resources in Egypt through the WEF nexus approach and ICT tools as a facilitator for collaborative governance of water resources in Mediterranean agriculture The fifth chapter focuses on sediment management in the context of climate change for the Fertile Crescent and Southwest Asia and the Nile River It also addresses haloculture as a climate change adaptation and mitigation solution that supports food security Finally the book presents key updates conclusions and recommendations from the book chapters The book is useful to researchers professionals practitioners post graduates and undergraduates who are interested in the field of sustainable development and water energy and food interaction **Ethical Water Stewardship** Ingrid Leman

Stefanovic,Zafar Adeel,2020-10-20 This interdisciplinary book brings philosophers and non philosophers to the table to address questions of water ethics specifically in terms of how moral questions inform decision making around water security at local national and international scales Water security which pertains to the experience of assured access to clean water is a broad concept that intersects human rights politics economics law legislation public health trade agriculture and energy Decisions made at each of these intersection points have ramifications for human well being especially for the populations that are marginalized in a societal and political sense In this book the ethical dimensions of decision making at those intersection points are explored and real world examples are used to tease out some key insights It charts how ethical consideration can help shape a future in which everyone will be water secure **Water-Energy-Food Nexus** P. Abdul Salam,Sangam Shrestha,Vishnu Prasad Pandey,Anil Kumar Anal,2017-07-12 Water energy and food are key resources to sustain life and are the fundamental to national regional and global economies These three resources are interlinked in multiple ways and the term nexus captures the interconnections The nexus has been discussed debated researched and advocated widely but the focus is often on the pairings of water energy or water food or energy food To really benefit from the nexus approach in terms of resource use efficiency it is essential to understand operationalize and practice the nexus of all three resources As demand for these resources increases worldwide using them sustainability is a critical concern for scientists and citizens governments and policy makers Volume highlights include Contributions to the global debate on water energy food nexus Examples of the nexus approach in practice from different regions of the world Perspectives on the future of the nexus agenda Water Energy Food Nexus Theories and Practices is a valuable resource for students research scholars and professionals in academic institutions with strong interests in interdisciplinary research involving geography earth science environmental science environmental management sustainability science international development and ecological economics The volume will also be useful for professionals practitioners and consultants in NGOs government and international agencies Read an interview with the editors to find out more <https://eos.org/editors-vox-working-towards-a-sustainable-future> **Ethiopian Yearbook of International Law 2016** Zeray Yihdego,Melaku Geboye Desta,Fikremarkos

Merso,2017-06-09 This first volume of EtYIL focuses on issues concerning the developing world in general and the Horn of

Africa and Ethiopia specifically It argues that rebalancing the international law narrative to reflect Africa's legitimate interests is an urgent priority and can only succeed through the fair representation of African countries in the creation and interpretation of international law The book begins by reflecting on the ICJ's West African Cases and provides a unique perspective on decolonisation as a source of jus cogens and obligations erga omnes This is followed by a comprehensive analysis of the reception of international law in the Ethiopian legal system and of the potential implications of Ethiopia joining the WTO The book then delves into such topical issues as the relationship between competition for natural resources and international investment law the UN Global Goals and the fledgling international climate change regime with particular emphasis on the Paris Climate Agreement and their implications for developing countries Further issues include the Declaration of Principles on the Grand Ethiopian Renaissance Dam signed by Ethiopia Sudan and Egypt in light of Nile colonial treaties and contemporary international watercourses law as well as selected legal implications of the armed conflict in South Sudan Gathering high quality scholarship from diverse researchers and examining a constellation of critical international law issues affecting developing countries especially African countries the book offers a unique resource

The Report: Egypt 2007, Conflict Management of Water Resources Manas Chatterji, Saul Arlosoroff, Gauri Guha, 2017-11-01 This title was first published in 2002 Now that the Cold War is over ethnic and regional conflicts are emerging over resources and the environment The management of water the lifeblood of any country is becoming a vital issue This volume offers a study of conflict management of water resources It includes some selected papers presented at an international meeting held at the Mahatma Gandhi Center of Conflict Prevention and Management in Ahmedabad India Other invited papers have also been included in the collection Obviously it was not possible to address here all aspects of the vast field of water management The main focus of this work is the management of water conflict and its implications for peace

The Oxford Handbook of Water Politics and Policy Ken Conca, Erika Weinthal, 2018 This handbook is currently in development with individual articles publishing online in advance of print publication At this time we cannot add information about unpublished articles in this handbook however the table of contents will continue to grow as additional articles pass through the review process and are added to the site Please note that the online publication date for this handbook is the date that the first article in the title was published online For more information please read the site FAQs

Environment and Society in Ethiopia Girma Kebede, 2016-10-04 Ethiopia is facing environmental and poverty challenges and urgently needs effective management of its environmental resources Much of the Ethiopian landscape has been significantly altered and reshaped by centuries of human activities and three quarters of the rural population is living on degraded land Over the past two decades the country has seen rapid economic and population growth and unparalleled land use change This book explores the challenges of sustaining the resource base while fuelling the economy and providing for a growing population that is greatly dependent on natural resources for income and livelihoods Adopting a political ecology perspective this book

comprehensively examines human impacts on the environment in Ethiopia defining the environment both in terms of the quantity and quality of renewable and non renewable natural resources With high levels of economic production and consumption also come unintended side effects waste discharges emissions of pollutants and industrial effluents These pollutants can degrade the quality of water air land and forests as well as harm the health of people animals and other living organisms if untreated or disposed of improperly This book demonstrates how the relationship between society and environment is inherently and delicately interwoven providing an account of Ethiopia s current environment and natural resource base and future considerations for environmentally sustainable development Managing Water Conflict Ashok Swain,2004-06 Water scarcity and the use of international river system resources can not only cause international conflict but can also bring about peace and co operation This book looks at the current stresses and likely future scenarios

Decoding **Egypt And The Sudan Countries Of The Nile**: Revealing the Captivating Potential of Verbal Expression

In a time characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its ability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Egypt And The Sudan Countries Of The Nile**," a mesmerizing literary creation penned by way of a celebrated wordsmith, readers embark on an enlightening odyssey, unraveling the intricate significance of language and its enduring impact on our lives. In this appraisal, we shall explore the book's central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
