covers two kinds of encounters First encounters which actually occurred between Egypt and specific foreign lands and second those the Egyptians created by inventing imaginary lands Some of the actual foreign lands are mysterious in that we know of them only through Egyptian sources both written and pictorial and the actual locations of such lands remain unknown These encounters led to reciprocal influences of varying intensity The Egyptians also created imaginary lands pseudo geographic entities with distinctive inhabitants and cultures in order to meet religious intellectual and emotional needs Scholars disagree sometimes vehemently about the locations and cultures of some important but geographically disputed actual lands As for imaginary lands they continually need to be re explored as our understanding of Egyptian religion and literature deepens *Mysterious Lands* provides a clear account of this subject and will be a stimulating read for scholars students or the interested public *Selected Water Resources Abstracts*, 1990 *Elenchus of Biblica* Robert
